Legal Authority: 26 USC 7805 Internal Revenue Code of 1986 PL 100-647, Sec. 6230

CFR Citation: 26 CFR 301.7811

Legal Deadline: Final, Statutory, February 8, 1992.
Temporary regulation published as TD 8246 effective February 8, 1989, must be published as final regulations within three years.

Abstract: PL 100-647, section 7811, adds new section 7811 to the Internal Revenue Code. This section provides that upon application filed by a taxpayer with the Ombudsman's office, the Ombudsman may issue a taxpayer assistance order (TAO) upon a determination that a taxpayer is or is about to suffer a significant hardship as the result of how the internal revenue laws are being administered by the service. The temporary regulations discuss the form, manner and time for filing an application for assistance, the terms of a TAO, and the supervision of applicable periods of limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 864(e) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The interest allocation transition rules are a complex set of provisions, featuring a three-part phase-in scheme. Particular statutory provisions are eligible for extended relief from the generally applicable phase-in rule. The interest equivalent portion of the regulations deals with the impact of financial products on the total amount of interest expense that is subject to allocation.

2837. TREATMENT OF DIVIDEND DISTRIBUTIONS AFTER THE SALE OF A SUBSIDIARY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32(T)

Legal Deadline: None

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events in (payment of dividend and declaration of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

2842. ADMINISTRATIVE APPEAL OF THE FILING OF NOTICE OF FEDERAL TAX LIEN

Significance: Agency Priority

Legal Authority: PL 100-647, Sec 6238; 26 USC 6326

CFR Citation: 26 CFR 1.6326

Legal Deadline: NPRM, Statutory, May 9, 1989.

Abstract: Section 6238 establishes a new section 6326 of the Internal Revenue Code. The new section 6326 (a) provides that the Secretary shall prescribe regulations that provide for the administrative appeal of the filing of notice of Federal tax lien. Section 6326 (b) provides that if the Secretary determines that the Service has erroneously filed a Federal tax lien, the Secretary must expeditiously and to the extent practicable, within 14 days after such determination, issue a certificate of release of the lien. This certificate must include a statement that the filing was erroneous. We currently are in the process of drafting regulations pursuant to section 6326. The regulations will address what issues are appealable under section 6326, to whom an appeal should be made, and the procedures for appeal.

Semiannual Regulatory Agenda

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from October 1989 to October 1990. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual Department contact listed for each regulation or by writing to: Paperwork Management and Regulations Service (70Y731), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: 38 CFR: M'Liz McLendon, (202) 233-3770; 48 CFR Chapter 8: Sunny Huff, (202) 233-4240.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB Bulletin 89-12.

Dated: August 25, 1989.
By direction of the Secretary.

Michael J. Herway,

Deputy Assistant Secretary for Information Resources Management.

2848. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON FACILITY UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON FACILITY

Legal Authority: 38 USC 210(c)

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

Legal Authority: 38 USC 5031 to 5037; PL 100-322

CFR Citation: 38 CFR 17.170 to 17.177

Legal Deadline: None

Abstract: Pub. L. 100-322 changed the date of the priority list for applications from July 1 to August 15. The Secretary is provided authority to conditionally award construction grants. If a state does not complete requirements within 90 days after conditional approval, funds will be deobligated. These proposed regulations will implement that change. Construction standards in 38 CFR 17.177 are being totally reformatted, revised and updated. The veteran population in 38 CFR 17.171 Appendix A is being updated to reflect the current information. Additionally, provisions are being established to handle large grant requests where one project may exceed the annual appropriation. Requests for projects exceeding one-half the annual appropriation will receive lower priority on the list and may be partially funded if funds are available, the project ranks high enough on the priority list for Federal funds, and the State accepts a smaller grant.

Legal Deadline: None

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. Final regulations implementing 38 USC 3305 were made effective October 22, 1982. Those regulations govern VA's QA program activities and records and documents which are made confidential and privileged. Proposed rules amending 38 CFR 17.500-17.534 were issued in the Federal Register on October 27, 1988, and the public comment period ended November 38, 1988. One commenter suggested a change to those regulations that could not be accepted by VA without public comment. Therefore, VA is proposing to reorganize the description of the continuous monitoring functions, streamline programmatic QA requirements for the medical facilities and update requirements according to new standards.

2872. FULL DISCLOSURE OF BENEFICIARY'S INCOME AND ASSETS

Legal Authority: PL 99-576, Sec 505; 38 USC 3202(b)

CFR Citation: 38 CFR 13.58(b)(2)(iii); 38 CFR 13.59(a); 38 CFR 13.100(a)(1); 38 CFR 13.102(b); 38 CFR 13.104(a)

Legal Deadline: None

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. The intended change requires disclosure of non-VA financial information.

Abstract: VA has a regulation which provides authority and guidelines for making service-connected discharge determinations needed to determine eligibility for VA benefits. On November 18, 1988, VA proposed an amended regulation to determine when this determination must be made for a veteran who has applied for benefits under the Montgomery GI Bill-Active Duty. Subsequently, legislation was enacted which requires this determination for some reservists under the Montgomery GI Bill-Selected Reserve. VA will combine the two requirements and publish the regulation for further comment.

2876. AUTHORITY OF FIDUCIARIES TO CONDUCT INSURANCE TRANSACTIONS

Legal Authority: 38 USC 706; 38 USC 744

CFR Citation: 38 CFR 6.211; 38 CFR 8.119

Legal Deadline: None

Abstract: Under current procedures, State appointed fiduciaries may perform insurance transactions, e.g., apply for coverage or reinstate a policy, on behalf of incapacitated veterans. The ability of a fiduciary to perform a particular transaction is dependent on the authority granted to the fiduciary by State law. Such authority varies from State to State. Because of this, before any insurance transaction can be completed it must first be determined whether the fiduciary is authorized by State law to conduct the particular transaction. This entails referring the matter to a District Counsel for review. This process is time consuming and delays rendering service to our policyholders. In order to alleviate this problem and to establish a consistent approach regarding the powers of State-appointed fiduciaries, as well as federally appointed fiduciaries as they pertain to government life insurance transactions only, we are proposing regulations which will clarify and enunciate such powers.

Abstract: The Department of Veterans Affairs (VA) is proposing to amend its regulations governing two programs which provide vocational service to seriously disabled veterans receiving pension or individual unemployability benefits from VA. These changes are required because recent legislation extended both programs through January 31, 1992, and revised eligibility criteria for participation. The intended effect of these amendments is to make these programs available to an expanded group of veterans in receipt of pension from VA and eliminate the mandatory participation requirement for veterans awarded individual unemployability benefits on or after February 1, 1985.

Abstract: The proposed amendments to existing procedures and requirements will authorize accreditation as claim representatives of individuals working at least 1,000 hours annually for organizations recognized by VA to represent veterans-benefit claimants and establish criteria for the accreditation of county veterans' service officers as claim representatives based on recommendation and supervision by State organizations recognized by VA to represent veterans' benefit claimants. VA believes less-than-full-time employment of a claim representative (specifically, at least 1,000 hours per year) does not connote lack of accountability to the recognized organization, primarily because the representative is significantly dependent upon the organization as the source of livelihood. As regards accreditation of county veterans' service officers, VA has for some years recognized some such officers, even though they are not actually State-employed, under the theory they are so closely associated with the State as to be considered State employees. Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the

result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC Sec. 3203(b) (1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: Under current provisions, use of the Vocational Rehabilitation Panel is required in certain instances. The role of the Panel is to assist in helping seriously disabled veterans successfully pursue a rehabilitation program. The requirement for consultation was a sound policy when the vocational rehabilitation program was substantially revised and broadened in 1980. As staff have gained experience with the new policies which resulted from the revision of the rehabilitation program in 1980, the need for consultation in every case has decreased. Current field experience indicates that placing use of the Panel on a discretionary basis is in the interest of the veteran and the government.

Legal Authority: 38 USC 1621; 38 USC 1631

Abstract: The law requires that generally, an individual must contribute to the Post-Vietnam Education Assistance Program (VEAP) fund for 12 months in order to receive educational assistance. So as to encourage participation by servicemembers, VA has permitted a servicemember who meets all the other eligibility requirements to receive educational assistance after he or she has

completed 3 months of contributions to the fund or has made a lump-sum payment which is the equivalent of at least 3 months' contributions to the fund. In order to comply with the law it has been VA's policy to require these servicemembers to establish a continuing allotment so that they eventually will contribute to the fund for 12 months. However, the regulation which mentions the 3 months' contributions does not mention the 12 months' participation requirement. This has led to instances where servicemembers who have been paid educational assistance, never participated for 12 months. VA wishes to amend the regulation to correct this.

Legal Authority: 38 USC 708

CFR Citation: 38 CFR 8.8; 38 CFR 8.9

Legal Deadline: None

Abstract: Under current procedures insured veterans who wish to pay National Service Life Insurance (NSLI) premiums by monthly deductions from Department of Veterans Affairs benefits or military service retired pay must make a written request to do so. Under our proposal a written request will no longer be required. Instead, veterans wishing to make deduction action changes such as the establishment, adjustment or discontinuance of a deduction will be able to do so by telephoning their requests to the Department of Veterans Affairs for instantaneous service.

Legal Authority: 38 USC 1701; 38 USC 1712

CFR Citation: 38 CFR 21.3041; 38 CFR 21.4135

Abstract: The stepchildren of a veteran whose children are eligible for dependents educational assistance are also eligible for that assistance on the same basis as those children. Occasionally, while such a stepchild is receiving assistance, the veteran will separate from or divorce his or her spouse. The child in question then ceases to be eligible for dependents educational assistance, because he or she is no longer the veteran's stepchild. This regulation will state how the Department of Veterans Affairs will determine when to discontinue the child's assistance.

Abstract: The Veterans' Benefits Improvement and Health-Care Authorization Act of 1986 contains many provisions which affect the administration of the new educational assistance program for veterans and servicemembers. These include provision for apprenticeship and other on-job training and correspondence training in this program; minor changes to the criteria which must be met in order to establish eligibility for the program; a requirement that certain veterans be counseled before choosing a program of education; and a change concerning nonduplication of Federal programs. The New GI Bill Continuation Act of 1987 makes this program permanent, and changes it name to the Montgomery GI Bill.

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

Abstract: This amendment will incorporate a change in the law of personal immunity of Department of Veterans Affairs (VA) health care personnel. 38 U.S.C. 4116 renders the Federal Tort Claims Act (FTCA) the

exclusive remedy for negligence or malpractice committed by a VA health care worker in the course of his or her employment in or for the Veterans Health Services and Research Administration (VHS&RA). Judicial decisions have held the provision to be inapplicable, however, and the immunity effected thereby unavailable, when the tort allegedly committed was one excepted from the coverage of the FTCA, as a number of intentional torts are by virtue of 28 U.S.C. 2680(h). Section 203(a) of Pub. L. 100-322, now codified as 38 U.S.C. 4116(f), waives the intentional torts exception of the FTCA in the medical care context, permitting an action against the United States and conferring immunity on the VA health care worker.

Abstract: VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA name and address lists of veterans/dependents, and give advance notice to recipients of what constitutes an authorized/unauthorized use of veterans/dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Stewart A. Davis, Acting General Counsel, ACTION, 1100 Vermont Avenue NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Jane A. Kenny,
Acting Director.

2973. FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Legal Deadline: None

Abstract: This regulation sets forth provisions of the Agency for International Development (AID), acting as an agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, PL 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

Commission on Civil Rights

Semiannual Regulatory Agenda

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: U.S. Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from October 1, 1989, through March 31, 1990. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact: Jeffrey P. O'Connell, Acting Solicitor, U.S. Commission on Civil Rights, Room 604, 1121 Vermont Avenue NW., Washington, DC 20425, (202) 376-8514.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

William J. Howard,

General Counsel.

COMMISSION ON CIVIL RIGHTS (CCR) — Final Rule Stage

2983. IMPLEMENTATION OF FREEDOM OF INFORMATION REFORM ACT

Significance: Agency Priority

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552

CFR Citation: 45 CFR 704.1, (Revision)

Legal Deadline: Final, Statutory, April 25, 1987.

Abstract: The regulation implements the 1986 statutory amendments to the Freedom of Information Act (FOIA) (5 USC 552). The revised provisions modify the terms of exemption 7 and also establish new procedures regarding the charging and waiving of fees pursuant to a FOIA request.

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL-3642-1]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA revises and issues the regulatory agenda semiannually, and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: If you want to be on the mailing list for future agendas, please call or write to Bridgette Dent, Regulation Management Branch, EPA, PM-223, Washington, DC 20460, (202) 382-5475.

If you have any suggestions for improving this publication or need general information about the agenda, please call or write to Angela Suber, Regulation Management Branch, EPA, PM-223, Washington, DC 20460, (202) 382-7205.

FOR FURTHER INFORMATION CONTACT: For specific information on any item in the agenda, please contact the person listed with each entry.

SUPPLEMENTARY INFORMATION:

Statutes Covered in the Agenda

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General - Other Acts (including grant and procurement regulations that cut across several program areas)

Organization of the Agenda

The agenda is organized by statute, and in several cases, it combines regulations with differing statutory authorities that have closely related subject matter. For example, the Asbestos-in-Schools Inspection, Abatement, and Disposal regulation is written under AHERA but appears with regulations under TSCA.

Within each statutory listing, the regulations are ordered numerically by section number of the authorizing legislation. For example, all RCRA regulations under section 3001 appear before those under section 3006.

Within each statutory area, the entries are further divided into four categories: (1) Prerule, (2) proposed rule, (3) final rule, and (4) completed actions (regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these sections is presented below.

I. Prerulemakings

Prerulemaking actions include activities intended to determine whether or how to initiate rulemaking. These activities include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking, significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important pre-regulatory policy proposals.

This section also includes existing EPA regulations that are now under review. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, the Agency will list these reviews in the completed section of the agenda. If EPA decides to revise or rescind the regulation, the action will appear in the proposed rule section of the next agenda, which will state the timetable for completing the revision or rescission.

For each regulation under review, the agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which may be different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to outline the Administration's annual Regulatory Program. It defines priority activities that Federal departments and agencies will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that Federal departments and agencies should review their regulations to ensure that the costs of the regulations are justified by their benefits. The Office of Management and Budget (OMB) reviews agency rules to assess their compliance with the Executive order's goals of maximizing net social benefits.

The Regulatory Flexibility Act (RFA) requires that Federal departments and agencies review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA invites public comment regarding RFA issues on the list of regulations EPA is reviewing.

Reviews EPA has targeted under the RFA are identified under "Analysis." The agenda identifies the types of entities affected under "Small Entities Affected." "Government Levels Affected" (State, local, or Federal) are also indicated.

When the Agency completes reviews of regulations with a significant impact on small entities, the agenda indicates whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981, plan (46 FR 36930) for reviewing regulations under the Act.

The Paperwork Reduction Act (PRA) requires Federal departments and agencies to review their information collection activities to assure that they

need and will use the information and manage it efficiently. They must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at some other Federal agency. In addition, the PRA requires agencies to review the cost of collecting the information so that it will be held to a minimum for both the respondent and the agencies. Congress gave oversight authority to OMB. EPA must have OMB approval before it either collects information or requires that information be collected.

II. Proposed and Final Rules

This section includes all "significant" EPA regulations. Some are priority regulations under development that are subject to Executive Order 12498 or that the Agency has designated for priority development or revision. These regulations are also subject to certain provisions of E.O. 12291, RFA, and PRA.

EPA generally lists regulations in this category of the agenda once they are within a year of proposal or promulgation. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Proposed and final rules appear as: (a) Actions that will create new CFR parts, subparts, or subsections (the word "revision" will appear in subsections) or (b) actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the agenda for the first time are marked with bullets (●).

However, the listings exclude (a) specialized categories of actions (such as EPA approvals of State plans and other actions that do not apply nationally) and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each proposed and final regulation, the agenda includes:

- Title
- Priority classification (if applicable)
- Legal authority
- CFR reference(s)
- Legal deadline (if applicable)
- Abstract (short description of action)
- Timetable of existing and scheduled actions
- References to small entities
- Additional information (includes the FTS phone number for the Agency contact, the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes, and any other information that is not included in the abstract)
- Agency contact
- Analysis (indicates if the Agency is preparing a Regulatory Impact Analysis (RIA) and/or an analysis under the RFA)

III. Completed Actions

These are actions that appeared in the previous agenda, which EPA is deleting because they are completed or are no longer under consideration for rulemaking. Information on these regulations is less detailed than for those that are still under consideration. Generally, completed entries include: (1) An explanation of why the Agency is deleting the regulation from the agenda or (2) the **Federal Register** publication date and citation for the final rule.

Dated: August 24, 1989.

Deputy Assistant Administrator, Office of Policy, Planning and Evaluation.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

Proposed Rule Stage

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

2985. PESTICIDE REGULATIONS FOR PESTICIDAL TRANSGENIC PLANTS (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 2; 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136c/FIFRA 5

CFR Citation: 40 CFR 152.20

Legal Deadline: None

Abstract: EPA will consider the need for an amendment to clarify that chemical pesticides produced by transgenic plants are not considered to be biological pest control agents and, therefore, may not be exempt from the provisions of FIFRA (the existing section 152.20 exempts from FIFRA regulation all plants that may be used as biological pest control agents). Instead, chemical pesticides produced by transgenic plants may receive regulatory oversight similar to that which is already in place for chemical pesticide products that are produced and applied by conventional means. This regulation and its development will be coordinated with USDA/APHIS and other agencies, as appropriate.

2986. RESTRICTED USE CLASSIFICATION FOR GROUNDWATER CONTAMINATING PESTICIDES

Significance: Regulatory Program

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136d/FIFRA 6; 7 USC 136w/FIFRA 25

CFR Citation: 40 CFR 152.170

Legal Deadline: None

Abstract: This rule will provide a scheme for identifying pesticides which may pose an unacceptable hazard because of the potential to leach into groundwater. The Agency will propose criteria for classifying such pesticides for restricted use. Restricted use pesticides generally may be applied only by state certified applicators.

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 158.640

Legal Deadline: None

Abstract: The Agency may change pesticide producer requirements on submission of qualitative and quantitative product performance data relative to other chemical or non-chemical practices. A companion revised quideline may provide protocols and methodologies for conducting the studies necessary to produce acceptable compartive performance data. Registrants may experience cost increases to support registration of pesticide products. The benefits would be better and more uniform data on pesticide product performance.

Legal Authority: 7 USC 136b/FIFRA 4; 7 USC 136j/FIFRA 12; 7 USC 136w/FIFRA 25

CFR Citation: 40 CFR 171.12

Legal Deadline: None

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. Regulatory development will be coordinated with the review of state plans under FIFRA Section 4 to determine both need and compatibility with State authorities and programs.

Legal Authority: 31 USC 9701/FIFRA 4

CFR Citation: 40 CFR 171

Legal Deadline: None

Abstract: This rule is intended to implement a program for assessing fees for certification and training of commercial and private applicators who apply restricted use pesticides. Fees will be collected in States with Federally-administered pesticide certification and training programs, and

2991. AMENDMENTS TO EXPERIMENTAL USE PERMIT RULE FOR CERTAIN MICROBIAL PESTICIDES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136c /FIFRA 5; 7 USC 136a/FIFRA 3

CFR Citation: 40 CFR 172

Legal Deadline: None

Abstract: EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which an experimental use permit is presumed not to be required and to specify that the presumption is based on risk. EPA also proposes to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides. Each notification will be reviewed by the Agency, and a determination made as to whether an experimental use permit will be required. This notification scheme would implement provisions of the Agency's policy statement of June 26, 1986 (51 FR 23302), with some modifications, and is intended to provide sufficient oversight of the early testing of these microbial pesticides pesticides to mitigate any adverse human health or environmental effects.

2992. REPORTING REQUIREMENTS FOR RISK/BENEFITS INFORMATION

Legal Authority: 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 153

Legal Deadline: None

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6(a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is reissuing it as a proposal to clarify the types of information which registrants must report to EPA. EPA is also incorporating instructions for use by registrants who are subject to generating reregistration data on what 6(a)(2) data to identify during reregistration.

Legal Authority: 7 USC 136 / FIFRA 3, FIFRA 6, FIFRA 19

CFR Citation: 40 CFR 158; 40 CFR 165

Abstract: EPA is authorized to issue regulations to specify the types and minimum amounts of data the Agency requires to support the registration or continued registration of a pesticide, and for other purposes. This rule may specify the necessary information and data EPA would require regarding methods for the safe storage and disposal of pesticides. The data requirements table and supporting information would become a part of existing 40 CFR Part 158.

Significance: Regulatory Program

Legal Authority: 21 USC 346a/FFDCA 408; 21 USC 348/FFDCA 409

CFR Citation: 40 CFR 180

Legal Deadline: None

Abstract: The first phase of this regulation will set forth procedures for which food additive tolerances, required by section 409 of the Federal Food, Drug and Cosmetic Act (FFDCA), may be established, modified or revoked. The proposal also covers procedural rules governing the filing of objections, requests for hearings and hearing procedures under FFCDA Sections 408 and 409. In the second phase, which will overlap the first, the Agency plans to develop a unified regulation that will deal with the substantive interpretations and criteria for deciding when tolerances or food additive regulations are needed, what data are needed to support a tolerance or food additive regulation, and what criteria will be used by EPA to determine whether a tolerance or food additive regulation should be established, modified, or revoked.

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6; 15 USC 2608/TSCA 9

CFR Citation: 40 CFR 754

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration, and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some cases, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with the solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113 which is now being phased out due to its ozone depletion characteristics) and their potential substitutes. This regulatory investigation is focused on three categories: metal cleaning, paint stripping, and aerosol application. The investigation will determine whether coordinated regulatory controls are needed to eliminate or reduce (cont)

EPA—TSCA **Prerule Stage**

Abstract: Processing, distribution in commerce, and disposal activities by the scrap metal recycling industry are resulting in some releases of PCBs (and other hazardous substances such as lead) at levels exceeding current regulatory action levels. The problem may affect all media (air, land, and water). Regulatory options under consideration focus on the mandate of both the Resource Conservation and Recovery Act (RCRA) and the Toxic Substances Control Act (TSCA). Options include: (1) mechanisms to provide relief to the shredding industry such as authorizing PCB-related activities that do not present an unreasonable risk, and (2) the feasibility of using TSCA to reduce risks posed by other materials.

An RIA and an RFA would not be statutorily required for this regulation because the rule would grant relief from the Toxic Substances Control Act (TSCA) processing, distributions in commerce and disposal requirements rather than impose additional burdens on the regulated community. Nevertheless, we do plan to assess the economic impact of any proposed actions on industry, particularly small businesses, as part of our unreasonable risk analysis for TSCA.

3013. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, import, processing, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture, import, or process the substance without controls. Therefore, EPA by rule, designates manufacture, import, or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

Legal Authority: 15 USC 2694 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of manufacture or process for a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act, the agency is proposing two separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5, the Agency is proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit notices prior to testing new microorganisms in the environment. This amendment will require reporting for new microorganisms and will establish a special notification mechanism for experimental releases of microorganisms. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would ensure that EPA will receive for review, notices of large scale releases of other microorganisms developed for significant new uses, and will review small-scale environmental releases. The primary objective of these actions is to ensure uses of microorganisms in the environment do not affect human health and the environment in unforeseen and possible harmful ways.

3016. PROPOSAL TO EXEMPT CERTAIN MICROORGANISMS FROM PMN REQUIREMENTS UNDER TSCA 5(H)(4)

Significance: Regulatory Program

Legal Authority: 15 USC 1504/TSCA 5

CFR Citation: 40 CFR 723

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act, the Agency will propose to exempt from review new microorganisms used in certain contained systems. The Agency considers it a priority to exempt from consideration organisms that can be shown to meet the statutory requirements under section 5(h)(4) of TSCA. To meet those requirements, it must be shown that the substances will not present unreasonable risks. EPA is considering public comment received and other evidence concerning use of microorganisms in closed systems and other controlled environments to determine whether those categories satisfy the requirements of section 5(h)(4) of TSCA.

3017. REGULATORY INVESTIGATION OF FORMALDEHYDE

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: Other, Judicial, October 30, 1989.
Court Ordered Deadline for Bi-Annual Progress Report every April and October.

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for reducing the exposure to formaldehyde of: (1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes; (2) similarly exposed residents of conventional homes; (3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. When OSHA proposed a revised workplace standard in December 1985 that applies to all occupational exposure, EPA terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

3020. MODIFICATION OF TOXIC RELEASE REPORTING UNDER SARA 313, TITLE III

Legal Authority: 42 USC 11013/SARA 0313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This action proposes to add ten chemicals to the list of toxic chemicals under Section 313 of SARA. The addition of nine of these substances is based on concerns for carcinogenicity and chronic toxicity as reflected in determinations made under Section 102 of the Comprehensive Environmental Response Compensation, and Liability Act of 1980 (CERCLA). EPA believes that these chemicals meet the criteria for addition to the list of toxic substances as established in Section 313(d)(2). EPA is also proposing a modification to include toluenediisocyanate (mixed isomers) on the same concern of health and environmental effects as the individual isomers already on the list.

Abstract: This amends the test rule development and exemptions procedural rule published October 10, 1984 (49 FR 39776) which allowed for rulemaking to be conducted in a single phase (i.e., a proposed rule and a final rule covering both the effects for which testing is necessary and the testing methodology) and added consent orders as a means of obtaining test data required under Section 4 of TSCA. This rule will simplify the procedures governing the development and implementation of testing requirements under 2-phase rulemaking, and amend the current procedures governing modification of test standards and schedules for tests required under test rules and testing consent agreements.

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712). These chemicals are identified by OTS, other EPA offices, and other Agencies, as well as chemicals recommended by the Interagency Testing Committee (ITC) on the TSCA Section 4(e) priority list. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. Legal Authority: 33 USC 1314 /CWA 301; 33 USC 1316/CWA 306; 33 USC 1317/CWA 307; 33 USC 1361/CWA 501

CFR Citation: 40 CFR 435.40; 40 CFR 435.60

Legal Deadline: None

Abstract: EPA will begin development of regulations under the Clean Water Act to limit effluent discharges to the waters of the United States from coastal oil and gas extractor facilities. These regulations will apply to the aforementioned facilities involved in exploration, development and production operations. These regulations would establish effluent limitations and guidelines based on BAT and BCT and would establish new source performance standards (NSPS).

Significance: Agency Priority

Legal Authority: 33 USC 1313(c) /CWA 303(c)

CFR Citation: 40 CFR 131

Legal Deadline: None

Abstract: This action establishes requirements for the adoption of numeric criteria for 307(a) priority pollutants in water quality standards pursuant to Section 303(c)(2)(b) of the CWA, thus bringing the water quality standards regulation into compliance with the CWA, as amended.

CFR Citation: 40 CFR 439

Legal Deadline: None

Abstract: The Agency will review and revise as appropriate the effluent limitations guidelines and standards for the pharmaceuticals industry. A major part of the review will consider revisions to the regulations to include limitations on toxic and non-conventional volatile organic pollutants. The existing proposal covering NSPS for conventional pollutants may also be reevaluated.

CFR Citation: 40 CFR 455

Legal Deadline: Final, Statutory, December 31, 1986.
Date contained in Water Quality Act of 1987

Abstract: On October 4, 1985 the EPA promulgated a final regulation establishing BAT effluent limitations, NSPS, PSES, and PSNS for the pesticide industry under the Clean Water Act. On July 25, 1986, the final regulation was remanded to the EPA by the Eleventh Circuit Court of Appeals in response to a joint motion filed by the Agency and other parties to litigation challenging the regulation. EPA removed the BAT effluent limitations, NSPS, PSNS, and PSES from the Code of Federal Regulations at the direction of the Court and informed the public that the regulation is no longer effective (December 15, 1986; 51 FR 44911). The BCT limitations published on April 25, 1978 and September 29, 1978, are still effective. The Agency intends to establish new effluent limitation guidelines and standards for the pesticide manufacturers and formulators/packagers industry in a future rulemaking. The Agency has decided to establish separate rulemaking tracks for the pesticide manufacturers and formulators/packagers because of significant differences between these two industries.

Legal Authority: 33 USC 1251 et seq /CWA 301

CFR Citation: 40 CFR 414

Legal Deadline: None

Abstract: EPA is proposing to amend 40 CFR 414 to allow regulatory authorities to establish cyanide limitations and standards based on best professional judgment for elevated levels of non-amenable cyanide that result from the unavoidable complexing of cyanide at the process source of cyanide- bearing waste streams. Another amendment proposes to allow regulatory authorities to establish metals limitations and standards to accommodate low background levels of metals in non-"metal-bearing waste streams" that result from corrosion of construction materials or from contamination of raw materials. EPA is also proposing to amend Appendices A and B to Part 414 to correct listing errors. The last amendment specifies the method for determining BOD5 and TSS effluent limitations for direct discharge plants with manufacture processes in more than one subcategory.

Abstract: In accordance with a settlement agreement, the Agency modified the Copper Forming regulation (40 CFR Part 468) to exclude the forming of beryllium copper alloys (copper that is alloyed to contain 0.1 percent or more beryllium) and to create a new subcategory in the regulation reserved for effluent guidelines and standards covering beryllium copper alloys. This rulemaking would establish guidelines and standards in that reserved subcategory.

3039. REVISIONS TO REGULATIONS FOR MODIFICATION OF SECONDARY TREATMENT REQUIREMENTS FOR MUNICIPAL DISCHARGE INTO MARINE WATERS

Legal Authority: 33 USC 1311(h)/CWA 301(h)

CFR Citation: 40 CFR 125

Legal Deadline: None

Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to address more specifically procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only the limited number of municipal treatment plants which met the 1982 statutory deadline for applying for a secondary treatment waiver.

Abstract: The Agency is taking action to de-designate certain ocean dumping sites. This action will take the form of two rulemaking actions: (1) to remove from the list of ocean dumping sites as published in the Code of Federal Regulations sites which are expired or which were terminated by previous rulemaking and (2) to de-designate ocean dumping sites which are no longer needed. None of the sites affected are being used. This action is necessary to assure that the list of ocean dumping sites accurately reflects earlier rulemaking and also to assure that unnecessary sites are removed from the list.

CFR Citation: 40 CFR 130

Abstract: EPA published a Federal Register notice on July 24, 1989 to re-open and extend the public comment period on a proposal to require a biennial submission of lists under sections 303(d) and 305(b) of the Clean Water Act (CWA). On January 12, 1989, in conjunction with regulations to implement Section 304(l) of the CWA, EPA proposed to require that the States submit as part of 305(b) reports, the lists of waters required by 303(d) of theq CWA. However, after reviewing public comments, EPA decided not to include this particular requirement in the final regulations for 304(l), which was published in the Federal Register on 6/2/89 (54 FR 23868). Instead, EPA decided to solicit additional comments on the proposal and consider promulgating these listing requirements at a later date, if appropriate. The proposed amendments require States to submit to EPA every two years the list of water quality-limited waters required under 303(d) of the CWA. The reporting vehicle for the list would be the States Biennial Water Quality Reports required by CWA 305(b). [SEE ADDITIONAL INFORMATION FOR COMPLETION OF ABSTRACT]

Significance: Regulatory Program

Legal Authority: 33 USC 1251 /CWA 304(m)

CFR Citation: 40 CFR 400

Legal Deadline: Other, Statutory, February 7, 1988.
Statutory deadline for EPA to issue biennial notice. First notice due 02/07/88.

Abstract: In accordance with Section 304(m) of the Clean Water Act, EPA will publish a biennial plan in the Federal Register for the promulgation of new effluent limitations guidelines and standards and the review and revision of existing guidelines and standards for categories of sources discharging toxic and non-conventional pollutants. Section 304(m) establishes a planning process that sets the Agency's agenda for future effluent guidelines and standards rulemaking. The first notice and subsequent 304(m) notices will identify selected categories for promulgation of new guidelines and revision of existing guidelines.

Legal Authority: 42 USC 2201/AEA 161

CFR Citation: 40 CFR 191

Legal Deadline: None

Abstract: On August 15, 1985, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These Standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environment. Subsequent to promulgation of this rule, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. As of September 23, 1987 the Court vacated and remanded Subpart B of the Standards to the Agency for revision consistent with its ruling.

Abstract: Under 40 CFR 193, the Agency intends to set generally applicable standards for the management and disposal of low-level radioactive wastes under the purview

of the Atomic Energy Act, as amended. The Agency is considering criteria for declaring certain wastes as below regulatory concern as part of this activity. Under 40 CFR 764, the Agency is proposing to regulate the disposal of certain naturally occuring and accelerator-produced radioactive wastes.

Abstract: EPA is reproposing maximum contaminant level goals (MCLGs) and proposing National Primary Drinking Water Regulations (NPDWRs) for about 38 synthetic organic chemicals and inorganic chemicals. The NPDWRs consist of proposed maximum contaminants level (MCLs), as well as proposed monitoring, reporting, and public notification requirements for these contaminants. This action proposes the best available technology (BAT) upon which the MCLs are based and BAT for the purposes of issuing variances and exemptions to public water systems. In addition to the NPDWRs for the synthetic organic chemicals and inorganic chemicals, the notice proposes monitoring requirements for other synthetic organic chemicals which are not regulated by NPDWRs or proposed for regulation in this notice.

3081. ● STATE-ADMINISTERED UIC PROGRAMS; INCORPORATION BY REFERENCE UPDATE

Legal Authority: 42 USC 300 /SDWA 1451

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act requires EPA to promulgate regulations specifying minimum requirements for State Underground Injection control programs to prevent injections through wells which may endanger drinking water sources. The individual State-administered programs (primacy) are codified in 40 CFR 147 and that Part incorporates by reference and makes applicable requirements from the appropriate State regulations. The incorporation by reference material has not been updated since 1984. Any Federal enforcement action in a primacy State will be based on the codified Part 147 material no matter what is actually in place at the time. Thus, for any enforcement action to be effective, the State statutes which are incorporated by reference must be up-to-date. Without this action, any Federal enforcement action could be ineffective. There is no impact on the economy, costs, or prices, and no public health or intermedia issues, or adverse consequences on the public. The only alternative given the present codification (cont)

Abstract: EPA's decision not to list recycled oil as hazardous waste (51 FR 41900 11/19/86) was remanded by the U.S. Court of Appeals (D.C. Circuit) on 10/7/88. Therefore, EPA is considering approaches for management of used oil that is consistent with the court's decision. EPA is reexamining its options for listing and management of used oil. If EPA determines that elements of the 1985 proposal should be finalized without reproposal, EPA expects to promulgate those in July 1990.

Abstract: EPA conducted a study of fly ash waste, bottom ash waste, slag waste, flue gas emission control waste and other wastes generated by the combustion of coal by electric utility power plants. The study was in response to Section 8002(n) of RCRA and culminated in a Report to Congress on March 8, 1988. Significance: Agency Priority

Legal Authority: 33 USC 1321 /CWA 311(j)(1)(c)

CFR Citation: 40 CFR 112

Abstract: Following a major oil spill with substantial environmental impacts, an interagency task force reviewed the adequacy of regulations concerning the prevention and control of oil spills. The task force recommended a significant upgrade to the Oil Pollution Prevention Regulation and an inventory of the regulated community. A two-phased regulatory approach is being pursued. In Phase I, the regulation will be clarified to indicate that widely accepted industry practices that are currently treated as recommended practices henceforth will be considered as required practices. The Phase II regulatory effort will address other recommended modifications.

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6922 /RCRA 3002

CFR Citation: 40 CFR 261.4(c)

Legal Deadline: None

Abstract: This proposed rule would amend an exemption in 40 CFR 261.4(c) which is currently limited to product or raw material vessels, so that it will apply to all vessels. The result of this change would be that all vessel operators, both product and non-product, would be regulated the same. In both cases, hazardous wastes generated on-board ships would not be subject to the RCRA regulations for storage, manifesting, etc., until the waste is removed from the ship. The discharge of any wastes while underway is governed by regulations issued under the provision of the Clean Water Act, Rivers and Harbors Act, Refuse Act, CERCLA/SARA, and others.

Abstract: Burning of hazardous waste in boilers and industrial furnaces for the purpose of heat recovery or material recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. Legal Deadline: NPRM, Statutory, May 8, 1987.

Abstract: EPA has proposed these regulations under the authority of section 3004(a) and 3004(o)(4) of the Resource Conservation and Recovery Act. The regulations would require: 1) new landfills, surface impoundments, waste piles, and land treatment units for the treatment, storage, or disposal of hazardous wastes to utilize an approved leak detection system; 2) double liners and leachate collection systems for waste piles, and certain landfills and surface impoundments; and 3) development of a construction quality assurance program for certain landfills and surface impoundments, as well as final covers at land treatment units. EPA originally proposed this rule on May 29, 1987 (52 FR 20218); the Agency may repropose the double liner sections of the rule.

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265; 40 CFR 270

Legal Deadline: None

Abstract: Section 3004(o)(7) of RCRA authorizes EPA to promulgate standards for the location of hazardous waste treatment, storage, and disposal facilities. Two existing location standards (floodplain and seismic restrictions) at 40 CFR Part 264.18 will be amended based on new data and information. Additional standards will specify other criteria for the acceptable location of new, expanding, and existing treatment, storage and disposal facilities in a variety of sensitive environments (e.g., unstable terrains, wetlands). The Agency's goals are to enhance the effectiveness of a unit's design and operating controls by avoiding the most sensitive locations, to decrease cleanup and prospective future RCRA Corrective Action and superfund sites, and to more effectively ensure long-term protection of human health and the environment.

3102. CORRECTIVE ACTION FOR RELEASES TO GROUND WATER FROM REGULATED HAZARDOUS WASTE UNITS

Significance: Regulatory Program

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None

Abstract: These regulations will amend the technical and procedural requirements for conducting corrective action to clean up significant releases to ground water from regulated hazardous waste units at operating, closed, or closing RCRA facilities. The regulations will be used to amend the structure of the program and the requirements for implementing remedial action, remedy selection and corrective measures. The requirements for regulated units will be amended to conform to the corrective action requirements for solid waste management units.

3103. MODIFICATION OF THE DEFINITION OF WASTEWATER TREATMENT UNIT

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 260; 40 CFR 270

Legal Deadline: None

Abstract: Currently, wastewater treatment units and elementary neutralization units are exempt from the requirements in 40 CFR Parts 264, and 265 (see 45 FR 76074, November 17, 1980). This action will amend the regulations to explain more clearly that thermal treatment units, except sludge dryers, are not exempt from regulation under the "wastewater treatment unit exclusion." It was never EPA's intention that thermal treatment units be exempt from regulation. Rather, specific regulations have been developed for these devices.

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA3004

CFR Citation: 40 CFR 260

Legal Deadline: None

Abstract: The Agency is receiving information on an increasing number of situations where it is difficult to determine whether specific types of hazardous waste management units meet the definition of a tan, pile or surface impoundment. EPA intends to clarify the difference between these units by revising the definitions for these units in 40 CFR 260.1. In particular EPA expects to address the use of liners for primary containment as well as other issues relating to the use of "earthen" and "nonearthen" materials.

Legal Deadline: None

Abstract: This regulation will address a petition for rulemaking submitted by the Boeing Company, requesting that EPA amend several hazardous waste tank system requirements as applied to certain existing sumps. A sump, being a type of tank, if used to manage a hazardous waste storage/treatment tank system. The petition focuses on those existing sumps that are situated inside of buildings and constructed as an integral part of the building's floor or foundation. The petitioner argues that because of differences in design, construction, and use, these sumps should be regulated independently of other hazardous waste storage/treatment tank systems. Companies are requesting additional time to bring these sumps into compliance with the hazardous waste tank system standards.

Significance: Regulatory Program

Legal Authority: 42 USC 6941 to 6949 /RCRA 4001-4009

CFR Citation: 40 CFR Not yet determined

Legal Deadline: None

Abstract: Based on the first mining waste Report to Congress submitted 12/31/85, comments on the report, and other available information, EPA has determined that regulation of wastes from the extraction and beneficiation of ores and minerals under Subtitle C of the Resource Conservation and Recovery Act (RCRA) is not warranted at this time (51 FR 24496). Instead, EPA

plans to develop a program for mining waste under Subtitle D of RCRA, working with the States to determine the specific nature of their current mining waste activities and their future plans to administer such programs. EPA will propose a set of criteria for the proper disposal of mining wastes under RCRA Subtitle D authority. EPA will also work with other Federal agencies (e.g., DOI, USGS) to avoid duplication in regulatory efforts.

Legal Authority: 42 USC 6991 /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Final, Statutory, August 8, 1988.

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM was published to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

3113. ● TECHNICAL AMENDMENT TO FINAL UNDERGROUND STORAGE TANK RULES FOR OVERFILL PREVENTION

Legal Authority: 42 USC 6991(b)/RCRA 9003(b)

CFR Citation: 40 CFR 280.20(c)

Legal Deadline: None

Abstract: This action adds a provision to the overfill prevention equipment requirements that provides a performance standard alternative to the two design choices already in the final Underground Storage Tanks (UST) regulations. This clarifies EPA's interpretation of the "other alternatives allowed" provision in the final UST regulations. The added flexibility of meeting a performance standard will more clearly enable UST system owners and operators to use overfill prevention equipment in a manner that is more flexible as long as it is protective of human health and the environment.

CFR Citation: 40 CFR 259

Legal Deadline: Other, Statutory, May 30, 1989.
The legal deadline prescribed is for an interim final by May 1989.

Abstract: Because of the numerous incidents of public exposure to improperly disposed medical waste Congress passed the Medical Waste Tracking Act of 1988. The Act requires EPA to develop a demonstration tracking program for medical waste in 10 States. The demonstration program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered States, and lists the wastes to be covered by the program. The emphasis of the tracking program is to assure the generator that the waste is delivered to a proper disposal facility. States participating in the program include New York, New Jersey, Connecticut (effective 6/22/89), Rhode Island, and Puerto Rico (effective 7/24/89).

Abstract: The Hazardous and Solid Waste Amendments of l984 (HSWA) require EPA, by March 31, 1988, to revise the subtitle D criteria for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators. In response to this statutory mandate, EPA is revising the subtitle D criteria for municipal landfills. Abstract: EPA is presently developing a list of "high-volume, low- hazard" ore processing wastes for study under Section 8002(p) of RCRA, in response to an opinion of the U.S. Court of Appeals for the D.C. Circuit (EDF v. EPA, 852 F.2d 1316 (D.C. Cir. 1988). EPA will then conduct a Section 8002 study of those processing wastes excluded from Subtitle C regulation by the "Bevill Amendment" 3001(b)(3)(A) RCRA. The study will culminate in a Report to Congress in July 1990. RCRA Section 3001(b)(3) requires the Agency, after public hearing and public comment, to determine within six months of submitting the report, whether to regulate any of these wastes under RCRA Subtitle C.

3123. FORTY-SEVEN ANALYTICAL METHODS APPROVED FOR SUBTITLE C RCRA HAZARDOUS WASTE TESTING

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6924 /RCRA 3004; 42 USC 6925 /RCRA 3005; 42 USC 6926 /RCRA 3006

CFR Citation: 40 CFR 260; 40 CFR 261

Legal Deadline: None

Abstract: This rule promulgates 47 new analytical methods approved for RCRA Subtitle C hazardous waste testing that were originally proposed in 1984. The purpose of this rulemaking is to provide better and more complete test methods for RCRA-related testing. These 47 methods may be used to meet regulatory requirements in conjunction with, or in addition to, the methods found in the Second Edition of SW-846, as amended by Updates I and II. Except where regulations specifically require the use of certain SW-846 test methods or QC procedures, the SW-846 manual is a guidance document and is not mandatory. These 47 methods offer the regulated community in some cases refinements of existing methods that are usually used, and in other cases, new technologies that provide alternative methods to those now available for the analysis of certain analytes or parameters. Therefore, the Agency believes that the economic impact of this rule on the regulatory community will be minimal to none.

CFR Citation: 40 CFR 261; 40 CFR 302

Legal Deadline: Final, Statutory, February 8, 1986.
RCRA 3001(e) requires EPOA to make a determination whether or not to list Dimethylhydrazine wastes within 15 months of the passage of HSWA.

Abstract: This rule will determine whether or not to list as hazardous wastes under RCRA four waste streams from the production of unsymmetrical dimethyl hydrazine (UDMH). The Agency will also designate these wastes as hazardous under CERCLA.

CFR Citation: 40 CFR 261.31; 40 CFR 302

Legal Deadline: Final, Statutory, February 8, 1986.
RCRA 3001(e) requires EPA to make a determination whether or not to list chlorinated Aliphatic Wastes within 15 months of the passage of HSWA.

Abstract: This rule will determine whether or not to list as hazardous wastes under RCRA two generic categories of wastes generated during the production of chlorinated aliphatic hydrocarbons by three radical catalyzed processes. These wastes also will be designated as hazardous substances under CERCLA.

Legal Deadline: None

Abstract: This rule will modify the hazardous waste listing F019, wastewater treatment sludges from the chemical conversion coating of aluminum, (40 CFR 261.31). The modification will narrow the scope of the F019 listing to exclude the zirconium phosphating of aluminum cans process because it does not use or form any Appendix VIII constituents in hazardous concentrations. There are approximately 80 facilities employing this process, which is currently within the scope of the F019 listing. This modification to F019 will not exclude facilities engaged in other types of chemical conversion coating of aluminum.

Legal Deadline: Final, Statutory, November 1986.

Abstract: This rule establishes minimum technology requirements (e.g.,

double liners and leachate collection systems) for new hazardous waste landfills and surface impoundments, as well as lateral expansions and replacements to existing landfills and surface impoundments. This rule will establish standards for these systems enabling unit owners and operators to design and construct systems that will protect human health and the environment.

Abstract: This action responds to a petition submitted to EPA by the Hazardous Waste Treatment Council (HWTC). It will establish state-wide permitting procedures for mobile hazardous waste treatment units, and will modify hazardous waste delisting procedures so that hazardous waste treatment residues could be delisted as part of the permitting process. In addition, the petition response solicited comment on HWTC's request that EPA exempt certain treatment technologies from the requirements for hazardous waste management.

Abstract: An NSPS was proposed for this source category in 1980. Subsequently, in 1987, the Agency solicited public participation in information gathering in preparation for a decision on whether to regulate this source category under the NESHAP program, the NSPS program or both. That regulatory decision has been delayed pending a decision on how to respond to the court's decision on vinyl chloride (see benzene reconsideration). Abstract: An NSPS was proposed for this source category in 1980. Section 111(d) of the CAA provides a mechanism by which EPA can require states to develop emissions standards for existing sources for certain source categories for which NSPS standards have been developed. Subsequently, in 1987, the Agency solicited public participation in information gathering in preparation for a decision on whether to regulate this source category under the NESHAP program, the NSPS program or both. That regulatory decision has been delayed pending a decision on how to respond to the court's decision on vinyl chloride (see benzene reconsideration). That regulatory decision has been delayed pending a decision on how to respond to the court's decision on the Vinyl Chloride NESHAP (see benzene reconsideration). The potential NESHAP regulations would apply to organic solvent cleaners (degreasers) and would control emissions of perchloroethylene, methylene chloride, and trichlorethylene from new and existing sources. Abstract: The CAA requires that testing protocols be developed to address at a minimum, the possible carcinogenic, mutagenic, and teratogenic effects of fuels and fuel additives as well as their effect on emissions and emission control devices. This action would implement protocols for such testing, which would have to be performed prior to fuel or additive registration, and or in the case already registered fuels, within three years of the date on which the protocols are promulgated. Fuels and additives already registered or for sale would also have to undergo testing testing, as provided for by the CAA.

Statutory. Reviews due by December 31, 1980 and at 5-year intervals thereafter.

Abstract: EPA is reassessing health and welfare information which has become available since the last revision of the standard. In May 1989 EPA received closure on the scientific and technical adequacy of the ozone staff paper. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA is continuing the standard review until such information is published and a decision made on the appropriate standards choice. The major issue is whether the new information will indicate that new standards with longer-term averaging times are required to protect public health and welfare or whether adequate protection is afforded by the current form and averaging time of the standard.

Significance: Regulatory Program

Legal Authority: 42 USC 7408 /CAA 108; 42 USC 7409 /CAA 109

CFR Citation: 40 CFR 50.7

Legal Deadline: None

Abstract: On July 1, 1987, EPA issued an ANPRM soliciting public comment on the development of a new secondary (welfare-based) NAAQS for fine particles (those particles less than 2.5 micrometers in aerodynamic diameter). This action represents a continuation of the review process for the secondary standards for particulate matter discussed by the Agency on March 20, 1984 (49 FR 10408). The principal welfare effect to be addressed by such a standard is impairment of visibility. Once a decision on whether and how to proceed is reached, a schedule for further action will be developed.

3151. FEDERAL PROMULGATION OF STATE IMPLEMENTATION PLAN TO PROTECT VISIBILITY

Significance: Regulatory Program

Legal Authority: 42 USC 7410 /CAA 110; 42 USC 7491 /CAA 169A

CFR Citation: 40 CFR 52

Legal Deadline: NPRM, Judicial. (See Timetable)

Abstract: Section 169A of the CAA requires that State Implementation Plans (SIPs) contain provisions to remedy existing and prevent future visibility impairment in certain national parks and wilderness areas. In 1980, EPA promulgated guideline regulations for States to follow in developing their SIP revisions (40 CFR 51.300-307). Many States failed to submit adequate visibility SIPs and EPA was sued to force the Agency to promulgate SIPs for such States. EPA entered into a consent decree under which it agreed to promulgate SIPs implementing the requirements of the visibility regulations in States that have not submitted adequate SIPs. This activity was divided into four parts, the first and third of which have been completed. Part IV is being proposed and promulgated according to the schedule shown under timetable.

CFR Citation: 40 CFR 60

Legal Deadline: NPRM, Judicial, November 30, 1989. Final, Judicial, December 31, 1990.

Abstract: The EPA has completed a preliminary assessment of air emissions from municipal waste combustors (MWC). Based on this assessment, EPA has concluded that MWC emissions may reasonably be anticipated to contribute to the endangerment of public health and welfare. As a result, EPA issued a notice in the Federal Register (52 FR 25399) that announces its intent to regulate emissions from new and modified MWC under Section 111(b). Pollutants to be regulated will include one or more designated pollutants (pollutants not regulated under Sections 108-110 or 112) thus invoking Section 111(d) which will require States to develop additional emissions standards for existing MWC based on EPA guidelines.

3157. NESHAP: COKE OVEN EMISSIONS FROM COKE OVEN CHARGING, DOOR LEAKS, AND TOPSIDE LEAKS ON WET-COAL-CHARGED BATTERIES

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: NPRM, Statutory, March 1985.

Abstract: This regulation would control emissions of coke oven emissions, which have been designated as hazardous under section 112. It would require improved maintenance and operation to limit visible emissions from wet-coal-charged coke oven batteries. The standards may apply to charging and leaks from doors, lids, or offtakes for all existing or new sources. A supplemental proposal will be published to reevaluate the standard consistent with the court decision on vinyl chloride. 3160. NESHAP: CHROMIUM

Legal Authority: 42 USC 7412 /CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. Also, EPA is investigating emissions of chromium and techniques that are available to control the emissions from 11 identified source categories. If EPA decides that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and EPA will propose standards. Agency actions on industrial comfort cooling towers and chromium electroplating are described separately in the agenda.

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24137). EPA is further assessing the public health risks of chromium compounds. Preliminary assessment performed by EPA has identified industrial process cooling towers as a source category for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emissions standards are warranted, chromium or hexavalent chromium will be listed under Section 112 and EPA will propose standards. However, the schedule has been postponed pending the court decision on the Vinyl Chloride NESHAP (see Benzene Reconsideration).

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. A preliminary assessment performed by EPA has identified chromium electroplating as a source category which emits significant quantities of chromium to the atmosphere and for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and standards will be proposed. Significance: Regulatory Program

Legal Authority: 42 USC 7412/CAA 112

CFR Citation: 40 CFR 61

Abstract: This potential regulation would control emissions of 1,3-butadiene, ethylene oxide, ethylene dichloride, chloroform, carbon tetrachloride, perchloroethylene, trichloroethylene, and methylene chloride, as hazardous pollutants under Section 112. The potential regulation would cover the production categories and some use categories for these eight pollutants. It would require installation of combustion devices to control process vents and an inspection and monitoring program to control leaks from pumps and valves. Significance: Regulatory Program

Legal Authority: 42 USC 7476/CAA 166

CFR Citation: 40 CFR 52.21; 40 CFR 51.166

Legal Deadline: Final, Statutory, July 1, 1989.

Abstract: The purpose of this action is to prevent significant deterioration of air quality as measured by the new indicator for particulate matter, PM10. The existing PSD program has particulate matter increments based on the original TSP indicator. The EPA has now promulgated a PM10 NAAQS to replace the original TSP-based particulate matter NAAQS. Therefore, EPA is preparing to revise the PSD program by promulgating PM10 increments in accordance with section 166 of the Clean Air Act.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In conjunction with testing in support of EPA's regulatory effort to control motor vehicle reeling emissions, EPA determined that significant evaporative hydrocarbon emissions can occur when a motor vehicle is running. Such emissions are defined by EPA as "running losses." Testing has shown that running losses can be particularly high on hot summer days which are also conducive to ozone formation. Through this action, EPA will evaluate revisions to the motor vehicle test procedures for evaporative hydrocarbons in order to reduce running losses.

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206; 42 USC 7526 /CAA 207

CFR Citation: 40 CFR 86

Abstract: EPA will evaluate the imposition of requirements for passenger cars and light trucks for on-board vehicle diagnostic systems capable of detecting operational malfunctions within the emissions control system. Emission system failures often go undetected or are misdiagnosed resulting in excess emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen. On-board diagnostic systems, which are required in the California vehicle emissions program beginning with the 1988 model year, have the potential for improving air quality through the early detection and proper repair of emission system failures. This regulatory effort will be structured to compliment existing and future State and local inspection and maintenance programs.

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

Abstract: Through this action, EPA will propose more stringent hydro- carbon and CO emission standards for light-duty trucks based upon the belief that very cost-effective hydrocarbon control is available from these vehicles. Abstract: EPA's current carbon monoxide (CO) emission standards are applicable to the 68 degree to 86 degree farenheit temperature range of the current Federal Test Procedure. Since CO emissions are higher at colder ambient temperatures, and since CO ambient air quality problems occur primarily under ambient temperature conditions less than 68 degrees farenheit, EPA is considering the adoption of CO emission standards applicable to 20 degrees farenheit.

3172. REVISIONS TO THE STACK HEIGHT REGULATION

Legal Authority: 42 USC 7423/CAA 123

CFR Citation: 40 CFR 51.100

Legal Deadline: None

Abstract: Under the Clean Air Act, emission limitations for sources are generally determined on the basis of local, ground-level concentrations of pollutants. In the absence of laws and/or regulations prohibiting such action, a source can lower the local ground-level ambient pollutant concentrations not only by reducing the amount of pollutants it emits into the air, but also by raising the physical height of its stack or using other dispersion techniques. Section 123, which was added to the CAA by the 1977 Amendments, restricts the manner in which techniques for dispersion of pollutants from a source may be considered in setting emission limitations. The EPA promulgated the current stack height regulation on July 8, 1985. On January 22, 1988, the U.S. Court of Appeals for the D.C. Circuit upheld EPA's regulation except for three provisions which were remanded to the Agency for proceedings consistent with the court's opinion. The purpose of this action is to revise the stack height regulation in accordance with the January 22, 1988 court decision.

The court remanded two grandfathering provisions which allow dispersion credit, including credit for certain stack height increases. The decision also remanded the allowance of dispersion credit for sources with originally

designed and constructed merged stacks. The court concluded that exclusion of these groups of sources from the regulation's restrictions was not adequately supported. The EPA is analyzing the court decision to determine whether further support should be offered for the current provisions or whether to revise the regulation to limit or delete these exclusionary provisions. The Agency's regulatory decisions and any rule revisions will be proposed for public comment in the Federal Register before taking final action.

3173. TEST PROCEDURES FOR TRAP-EQUIPPED DIESEL VEHICLES AND ENGINES

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: The particulate standards for 1991 and later model year heavy-duty diesel engines may require the use of trap-oxidizers for some vehicles and engines. The existing test procedures do not expressly describe how to deal with emissions and fuel economy effects during trap regeneration. If it turns out that trap oxidizers are necessary to comply with the 1991 particulate standards, the Agency will develop an appropriate test procedure.

Legal Authority: 42 USC 7524 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1991 through 1994 model year emission standards for heavy-duty vehicles and engines. The availability of NCPs will allow a manufacturer, whose vehicles or engines fail to conform with certain applicable emission standards, but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This rule is the third phase of NCP rulemaking. The first, published August 30, 1985, established generic aspects of NCPs. The second, published December 31, 1985, addressed NCPs applicable to 1987 through 1990 model years.

Significance: Regulatory Program

Legal Authority: 42 USC 7545 / CAA 211

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: None

Abstract: Trap oxidizers, the use of which may be required to meet future heavy-duty diesel particulate standards, may require the use of low sulfur diesel fuels. In promulgating the particulate standard, EPA promised to examine the potential need for low-sulfur fuel. In particular, fuel sulfur and aromatics content have been shown to have a direct effect on particulate emissions. This action will consider the costs and benefits of improving diesel fuel quality.

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I to N

Legal Deadline: None

Abstract: The purpose of this action is to investigate the health impact of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach, with Phase I concerning organic emission leaks and vents, Phase II concerns hazardous waste storage tanks and impoundments, and Phase III deals with residual risks from particular hazardous organic constituents.

Abstract: On June 6, 1988 (53 FR 20722), the EPA, as directed by the Mitchell-Conte Amendment of December 22, 1987 (contained in the continuing resolution of 1987, Pub. L. 100-202), proposed to designate as nonattainment under the CAA those areas throughout the nation that have not attained the NAAQS for either ozone or carbon monoxide (CO). EPA proposed to designate as nonattainment some areas currently codified under the Clean Air Act as attainment or unclassified, and to renew the designations for areas currently codified under the Clean Air Act as nonattainment The notice also proposed for public comment 3 interpretations of the regulatory consequences of these nonattainment designations under the Mitchell-Conte amendment.

Abstract: The various EPA regulations that govern new construction under the CAA generally apply to "major" new stationary sources of air pollution and "major" modifications of existing sources. They require fugitive emissions to be included in threshold applicability determinations of whether a new source is "major," but only for 30 categories of sources. The purpose of this action is to determine if surface coal mines should be added to the existing list of 30 categories. A companion action will respond to a petition on the more general issue of including fugitive emissions in NSR applicability determinations.

This notice describes EPA's views about how EPA should interpret the Act so as to bring those areas into attainment, the reasons for that interpretation, and the concrete steps EPA intends to take to implement that interpretation soon and in the long term. The final policy will be an advance notice of how EPA intends, in subsequent rulemakings, to judge the adequacy of State efforts to plan for attainment of the ozone and CO standards.

Abstract: Since 1977, EPA has allowed States with rural fugitive dust areas (RFDAs) to discount fugitive dust in developing and enforcing a State Implementation Plan(SIP) for attainment and maintenance of the NAAQS for particulate matter (PM). On July 1, 1987, EPA promulgated revisions to its particulate matter National Ambient Air Quality Standards (NAAQS), 52 FR 24634. In this notice, EPA also solicited comments on alternatives for SIP requirements for RFDAs and on the adequacy of the definitions which are used in identifying RFDAs, and the importance of protecting annual versus 24-hour NAAQS (52 FR 24716). The EPA will issue its decision after considering public comments on the alternatives. The EPA will continue its existing fugitive policy and apply it to implementation of the revised particulate standard until a decision is made.

This action was split from the asbestos risk reduction revision (RIN 2060-AB51)

so that the revised compliance revisions could be adopted on an accelerated schedule. The compliance provisions involve none of the legal issues that have delayed the risk reduction action (see "benzene reconsideration" and "asbestos revision, risk reduction").

Significance: Regulatory Program

Legal Authority: 42 USC 7412/CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: NPRM, Judicial, August 31, 1989. Final, Judicial, February 27, 1990.

Abstract: On February 7, 1989, the District Court of the District of Columbia ordered EPA to propose decisions on whether to regulate benzene emissions from the following industrial sources of benzene: chemical manufacturing process vents; chemical manufacturing and petroleum refinery waste disposal; benzene handling; benzene solvent use; and gas marketing. This action proposed standards for these categories.

CFR Citation: 40 CFR 80; 40 CFR 600; 40 CFR 86

Legal Deadline: None

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. A major reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. On March 22, EPA promulgated a rule limiting the summertime volatility of gasoline. EPA will continue to assess whether additional control of gasoline volatility is cost-effective and reasonable.

3197. TRADING AND BANKING OF HEAVY-DUTY ENGINE NOX AND PM EMISSION CREDITS

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In March 1985 the EPA promulgated NOx and PM emission standards for heavy-duty vehicles and engines. The rulemaking included a provision for emissions averaging for the final stages of standard implementation in order to mitigate the economic impact of the stringent standards. EPA realized that the averaging mechanism could provide more benefits to manufacturers with a broader product line. In order to address this issue, EPA included in the final package a provision to study the potential for mitigating this uneven distribution of benefits through an emissions credit trading program. The study was expanded to include the concept of 'banking' emissions credits. The study was completed and the Agency made it available to the public and a technical workshop was held in

3198. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This rule revises the regulations governing small-volume manufactured and small-volume engine family certification procedures. The revisions are intended to increase EPA's confidence in the useful life emissions compliance of vehicles and engines certified under the small-volume certification procedures. The revisions incorporate procedures to which many manufacturers currently adhere to and thus are designed to ensure that small volume manufacturers will also comply with these procedures. No significant impact on industry is expected.

Legal Authority: 42 USC 7541 /CAA 207

Abstract: This action will consider allowing alternative dynamometer specifications for an existing loaded-mode short test approved for use in State and local inspection/maintenance programs in conjunction with the federal emissions performance warranty regulations. The alternative specifications the Agency is considering would allow lower loading, perhaps varying by engine size. Such a change could improve overall test effectiveness for identifying excess in-use emissions and correlation with the Federal Test Procedure.

CFR Citation: 40 CFR 305

Legal Deadline: None

Abstract: EPA is granted the authority, under CERCLA, to hold potentially responsible parties liable for the cost of cleanup. Consequently it is Agency policy to pursue those potentially responsible parties for costs expended if a cleanup settlement is not reached. As courts gradually resolve the fundamental question of CERCLA liability, PRPs have increasingly focused on the tactic of investigating the documentation supporting EPA's cost recovery program. Rulemaking can be used to identify the specific recoverable costs, the documentation sufficient to prove EPA's case, and the documents that will be available to PRPs. The cost recovery regulation should make the process more efficient. The regulation will at least address the following issues: Direct Costs, Indirect Costs, Recovery of Interest, and Oversight Costs. The selection of alternatives will be influenced primarily by Agency experience. Through consensus building with the work group, positions will be prepared for proposal.

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency lan (NCP). CERCLA requires that the Agency revise the NPL at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. Abstract: This rule will designate 232 non-CERCLA extremely hazardous substances (EHS), as defined in Section 302 of SARA Title III, as hazardous substances pursuant to Section 102 of CERCLA. Currently, only releases of those EHSs that are also CERCLA hazardous substances are required to be reported to the National Response Center under CERCLA Section 103. Abstract: This rule interprets and codifies (1) the requirements of Section 121(d)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) and (2) the revised off-site policy directive (November 13, 1987). Section 121(d)(3) and the directive describe procedures that must be observed when

a response action funded under CERCLA or using a CERCLA authority involves off-site transfer of CERCLA wastes. Section 121(d)(3) CERCLA specifies that wastes from removal or remedial actions under CERCLA: 1) only be transferred to facilities that are in compliance with Sections 3004 and 3005 of the Resource Conservation and Recovery Act (RCRA), other applicable Federal laws and State laws, and 2) only be transferred to units at hazardous waste land disposal facilities that are not leaking and where releases from other (non-receiving) units at the facility are under a corrective action program.

Abstract: The National Contingency Plan (NCP) is the primary regulation directing government and responsible party response to and cleanup of discharges of oil, and releases of hazardous substances, pollutants and contaminants. The Superfund Amendments and Reauthorization Act of 1986 mandated that the NCP be revised within 18 months of the date of enactment to incorporate statutory changes.

CFR Citation: 40 CFR 300

Legal Deadline: Final, Statutory.

Abstract: This action revises the Hazard Ranking System (HRS) which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative risk among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. CERCLA, as amended by the Superfund Amendments and Reauthorization Act of 1986, requires that the HRS be amended to assure, to the extent feasible, that it accurately assesses relative risk to public health and the environment. CERCLA specifically requires that the HRS take into consideration natural resource damages that may affect the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters for drinking or recreation.

Legal Authority: 42 USC 9601/SARA 120

CFR Citation: 40 CFR 373

Legal Deadline: Final, Statutory, April 17, 1988.

Abstract: Section 120(h) of SARA requires that EPA, in consultation with the General Services Administration, promulgate rules which will require the disclosure of the type and quantity of any hazardous substances that have been stored, released or disposed of on federally owned land when such land is sold or otherwise transferred by the United States. This section of SARA also requires that the agencies holding such land provide, at the time of transfer, a covenant warranting that: (1) all remedial actions necessary for protection of human health and the environment have been taken; and (2) any additional action found to be necessary after the transfer will be undertaken by the U.S. EPA is not required to develop rules concerning these latter requirements and is not doing so.

CFR Citation: 40 CFR 350; 40 CFR 355; 40 CFR 370; 40 CFR 372

Legal Deadline: None

Abstract: Under Title III of SARA, EPA has authority to establish thresholds below which facilities do not have to report. In the rule published on October 15, 1987, EPA set reporting thresholds for the first two years of reporting. At the same time, the Agency made a commitment to further evaluate the appropriate level for a final threshold. The proposed rule set forth the proposed permanent threshold for reporting as well as proposed amendments to the sections 302, 304, and 313 final rules. The final rule will establish a uniform final reporting threshold for Sections 311 and 312, and will finalize other amendments.

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None

Abstract: This action will revise EPA's existing 404(c) regulations, in effect

since October 9, 1979. It will amend the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

CFR Citation: 40 CFR 22

Legal Deadline: None

Abstract: The Agency is proposing technical amendments to the Consolidated Rules of Practice under 40 CFR Part 22. These amendments will include correction of the address to which penalty payments are sent, lengthening the period to file an appeal, and modifying the specified procedures for service of process. The Agency will incorporate other technical amendments in the rules as appropriate.

3251. PROCEDURES AND REQUIREMENTS IMPLEMENTING THE NATIONAL ENVIRONMENTAL POLICY ACT FOR THE ENVIRONMENTAL PROTECTION AGENCY'S RESEARCH AND DEVELOPMENT PROGRAM

Legal Authority: 42 USC 4321

CFR Citation: 40 CFR 6.700

Legal Deadline: None

Abstract: This action amends EPA's Environmental Policy Act (NEPA) regulation in 40 CFR Part 6, Subpart G which addresses the environmental review procedures for research and development projects undertaken by EPA's Office of Research and

Development (ORD). The purpose of this rulemaking is to develop procedures for categorically excluding classes of ORD actions having no significant impact on the environment, from the requirement to prepare an environmental assessment (EA) or an environmental impact statement (EIS). The rulemaking also clarifies the criteria under which EPA would be required to prepare an EIS. This rulemaking will enable EPA to focus its resources on assessing research and development projects which have the potential to significantly affect the environment. The revisions are consistent with the Council on Environmental Quality's NEPA regulation in 40 CFR Parts 1500-1508. .SEE ADDITIONAL INFORMATION FOR COMPLETION OF ABSTRACT]

This action also revises 40 CFR Part 6 Subpart D which addresses NEPA review procedures for public and other agency involvement. The proposed rulemaking would eliminate the current Agency requirement for public notice of EPA's categorical exclusion determinations, except for the Construction Grants projects. This revision would make the regulation consistent with CEQ and other federal agency NEPA regulations.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR p. 127 (1981 Compilation), and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Irene L. Hill, Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 1801 L Street NW., Washington, DC 20507; telephone (202) 663-4690.

SUPPLEMENTARY INFORMATION: The Commission identified ten current and projected rulemakings for inclusion in the agenda. Two of the listings have been published as ANPRMs. Two have been published as NPRMs. Four are currently under development or review by Commission staff. One is under review by another agency, and one has been published as a final regulation.

Signed in Washington, DC, this 28th day of August 1989.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

3260. PROCEDURES FOR ADMINISTRATIVE EXEMPTIONS UNDER SECTION 9 OF THE AGE DISCRIMINATION IN EMPLOYMENT ACT

Legal Authority: 29 USC 628 Age Discrimination in Employment Act

CFR Citation: 29 CFR 1627.15

Legal Deadline: None

Abstract: The purpose of the proposed amendment to 29 CFR 1627.15 is to give those covered by the ADEA more specific information about what they should do if they wish to seek an exemption from any or all of the ADEA's prohibitions. The advantage is that the establishment of a specific procedure will facilitate the processing of exemption requests.

3261. EARLY RETIREMENT PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 628

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The ADEA prohibits discrimination on the basis of age with respect to an employee's compensation, terms, conditions, or privileges of employment. In light of recent amendments to the ADEA and several cases dealing with early retirement, questions have arisen regarding the legality of early retirement plans in general and of specific plans. Since the use of early retirement has expanded greatly in recent years, the Commission deems it appropriate to consider the issuance of regulatory guidance in the area. The ANPRM seeks comment on issues such as voluntariness, plan structuring and eligibility to participate.

3262. POSSIBLE REVISIONS TO INTERPRETATIONS RELATING TO BENEFITS UNDER EMPLOYEE BENEFIT PLANS

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.10

Legal Deadline: None

Abstract: The current interpretive regulations at 29 CFR 1625.10 were framed in 1979. Since that time the ADEA has been amended in a manner that necessitates considering revisions to the regulations, for example, the addition of sec. 4(g) to the Act and the lifting of the age 70 cap. Accordingly, the Commission requested public comment to determine whether revisions are necessary and, if so, the nature and scope of any such revision. The continuing viability of this project will be assessed in light of the Supreme Court's decision in Retirement System of Ohio v. Betts, 57 U.S.L.W. 4931 (June 20, 1989).

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under EO 12067.

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Federal Emergency Management Agency

Semiannual Regulatory Agenda

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 "Federal Regulations," the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1989, to March 31, 1990.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact Susan Kantor Bank, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3973. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulations" directs each executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 *et seq.*

In fulfillment of requirements imposed by the Executive order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations and regulations which will be under review during the period April 1, 1989, to March 31, 1990. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published April 24, 1989, at 54 FR 17344.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations, and organizational and management matters.

Dated: August 28, 1989.

George W. Watson,

Acting General Counsel.

3276. FLOOD INSURANCE RATING SYSTEM CHANGES

Significance: Regulatory Program

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61

Legal Deadline: None

Abstract: National Flood Insurance Program premium rating system changes under consideration include a community rating system and a system to use revised FIRMs producing higher rates for existing policyholders, subject to a rate cap. The community rating system would be designed to recognize circumstances within local communities that mitigate or exacerbate the flooding risk, such as the inaction of a community in addressing flood problems or the performance of a community that goes beyond minimum NFIP floodplain management requirements. The use of revised FIRMs for existing policyholders would replace the current practice of allowing premium rates for such policyholders to be based on the map in existence at the time of construction so long as the

construction met the requirements at that time.

3277. COMPREHENSIVE COOPERATIVE AGREEMENT (CCA) POLICIES, PROCEDURES, AND ASSOCIATED PROGRAMS

Legal Authority: 50 USC 2286; 50 USC 2251; 42 USC 5121; 42 USC 5151; 42 USC 7701; 42 USC 4001; PL 95-224; PL 96-295; PL 99-499; PL 93-288; PL 95-124; PL 90-488; PL 93-234; PL 90-577; EO 12148

CFR Citation: 44 CFR 305; 44 CFR 302; 44 CFR 360; 44 CFR 301; 5 CFR 900

Legal Deadline: None

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-38 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited.

Legal Authority: 42 USC 4002 et seq; EO 23227

CFR Citation: 44 CFR 59; 44 CFR 60; 44 CFR 61; 44 CFR 62

Legal Deadline: None

Abstract: Section 544 of the Housing and Community Development Act of 1987 provided a new benefit to National Flood Insurance Program policyholders: Payment for demolition or relocation of an insured structure if it is located "along the shore of a lake or other body of water and is certified by appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels." FEMA published interim regulations on this subject on September 23 and November 2, 1988, and commissioned an investigation through the National Academy of Sciences to provide a basis for further regulations.

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 59; 44 CFR 65

Legal Deadline: None

Abstract: Regulations will be developed defining criteria for evaluating the effectiveness of coastal flood control structures in preventing or reducing 100-year flooding or damage. The criteria will be used to determine whether

FEMA **Proposed Rule Stage**

areas protected by such structures will be included in, or excluded from, Special Flood Hazard Area designations and/or Coastal High Hazard Area (V-zone) designations on Flood Insurance Rate Maps prepared for the National Flood Insurance Program. The criteria will be based on the results of a special study by the U.S. Army Corps' Coastal Engineering Research Center entitled "Development of Criteria for Evaluating Coastal Flood Control Structures." Other changes to NFIP regulation, including changes to the standard flood insurance policy, are being considered.

Legal Authority: 40 USC 486(e)

CFR Citation: 41 CFR 101-44; 41 CFR 101-45; 41 CFR 101-46

Legal Deadline: None

Abstract: This regulation will implement the personal property sales provisions and reporting requirements of the Federal Managements of the Federal Property Management Improvement Act of 1988. There should be no significant costs to the public as a result of this rule. The rule will significantly reduce time and workload in preparing reports to Congress and improve the efficiency and effectiveness of personal property sales by expanding on negotiated sales procedures.

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

3315. FEDERAL PROPERTY MANAGEMENT REGULATION PART 101-17, ASSIGNMENT AND UTILIZATION OF SPACE

Significance: Agency Priority

Legal Authority: 40 USC 481; 40 USC 601; 7 USC 1924; 40 USC 490; 40 USC 531; 42 USC 3601; 42 USC 4321; 42 USC 4201; EO 12072; EO 12411; EO 12512; PL 100-678

CFR Citation: 41 CFR 101-17

Legal Deadline: None

Abstract: A new and comprehensive permanent FPMR 101-17, Assignment and Utilization of Space, will improve the space delivery process for federal agencies by making it more efficient, more timely, and better able to deliver quality space that supports agency mission needs. The new FPMR will implement a new space assignment process that emphasizes client service; issue a new comprehensive move policy that clarifies roles and responsibilities; revise the GSA location policy to be more responsive to agency mission needs; revise the standard alterations, which agencies receive upon an initial move, to recognize modern office needs; and revise the space classification definitions to eliminate ambiguity. These changes will result in a more efficient space delivery process that will improve the overall efficiency of government operations. The assignment and utilization of federal space has been governed by a series of four temporary regulations since 1983. The current FPMR Temporary Regulation D-73 is outdated and is not comprehensive in its coverage of the process for acquisition and assignment of federal space. The new permanent FPRM will correct these problems.

Legal Authority: 5 USC 5701 to 5709; EO 11609, July 22, 1971 (36 FR 13747)

CFR Citation: 41 CFR 301-15

Legal Deadline: None

Abstract: This rule prescribes requirements and procedures for the reporting of travel and relocation cost data by selected Federal agencies for the fiscal year 1988, 1989, and 1991. The Federal Civilian Employee and Contractor Travel Expenses Act of 1985, January 2, 1986, requires the Administrator of General Services to submit periodic analyses of agency payments for employee travel and relocation to the Director of the Office of Management and Budget (OMB). The analyses are to be based on a sampling survey of agencies each of which spent more than $5 million on employee travel and relocation during the previous fiscal year. The law further requires the selected agencies to provide the information necessary for preparing the analyses in a format prescribed by the Administrator and approval by the Director of OMB. This rule establishes a travel survey questionnaire as the format for reporting the required travel and relocation cost data. The economic impact of this rule has not been estimated to date.

Abstract: This document amends the Federal Regulation (FTR) to authorize, under certain conditions, reimbursement of allowable residence transaction expenses for employees transferred from an official station in a foreign area to a different nonforeign area official station than the one from which the employer was transferred when assigned to the foreign post of duty. The estimated economic impact of the relocation legislation is approximately $24 million, assuming that 75 percent of employees selling a residence will opt for relocation services and that the average price of a residence transaction is $100,000. This regulation implements the provisions of Section 628 of Pub. L. 100-202 (101 Stat. 1329-430, 431), Dec. 22, 1987.

Abstract: This project revises FIRMR Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will update GSA policies and provisions impacting Governmentwide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

3339. IMPLEMENTATION OF TITLE VIII, PAPERWORK REDUCTION REAUTHORIZATION ACT OF 1986, P.L. 99-500 REGARDING AUTOMATIC DATA PROCESSING EQUIPMENT

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-1; 41 CFR 201-2; 41 CFR 201-23; 41 CFR 201-24

Legal Deadline: None

Abstract: This regulation implements certain selected portions of the Paperwork Reduction Reauthorization Act of 1986. Among the other changes, it clarifies the applicability of the FIRMR to the management acquisition, and use of various information resources by Federal agencies. The amendment prescribes FIRMR policies and procedures for use in determining whether any particular procurement must be conducted under GSA's exclusive procurement authority. It also streamlines the Delegations Program by establishing uniform procedures, uniform blanket delegations of procurement authority, Agency Procurement Requests for all ADP and telecommunications resources.

3340. FIRMR IMPROVEMENT PROJECT

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201

Legal Deadline: None

Abstract: In response to recommendations by users of the FIRMR to revise the regulation to make it more readable and useful, GSA plans to restructure the FIRMR during the next few years. This restructuring will include: the separation of policies and procedures, the separation of contracting from management and use provisions, the reorganization of FIRMR contracting provisions for consistency with the Federal Acquisition Regulations, and the reorganization of the FIRMR's management and use provisions into a life cycle format. As the final draft of each subchapter is completed, GSA will seek public comment on the subchapter through a notice of proposed rulemaking. Subchapter E, which deals with acquisition, will be completed first and, if possible, issued as a final rule before publication of the entire FIRMR. An advanced notice of proposed rulemaking describing the project was published in the Federal Register in January 1988. The next planned action is a notice of proposed rulemaking for planned action is a notice of proposed rulemaking for Sub Chapter C.

3341. UPDATE REGULATIONS REGARDING FTS 2000 USAGE (FIRMR INTERIM RULE 1)

Significance: Agency Priority

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-1; 41 CFR 201-41

Legal Deadline: None

Abstract: FIRMR Interim Rule 1, regarding the mandatory use of the FTS 2000 network, was published on July 29, 1988, to meet the requirements of the Conference Report for PL 100-202. PL 100-440 was subsequently enacted on September 22, 1988, to include more specific provisions regarding use of FTS 2000. This proposed interim rule will update Interim Rule 1 to incorporate the provisions of PL 100-440 or any succeeding legislation.

3342. RESTRUCTURING AND SIMPLIFICATION OF FEDERAL INFORMATION RESOURCES MANAGEMENT STANDARDS

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-8; 41 CFR 201-13; 41 CFR 201-39

Legal Deadline: None

Abstract: This project revises the FIRMR to simplify provisions on the use and implementation of Federal automatic data processing and telecommunications standards. It results in major changes in the regulatory coverage and presentation of FIRMR provisions on standards. The intent is to remove redundant and nonregulatory provisions from the FIRMR that may be found in other agency issuances and to reorganize provisions, consistent with the FAR so that users may more readily locate standards provisions relevant to their particular need.

3343. INFORMATION RESOURCES MANAGEMENT REVIEWS CODIFICATION AMENDMENT FOR FIRMR TEMPORARY REGULATION 10

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-19

Legal Deadline: None

Abstract: This project revises the FIRMR by codifying certain provisions contained in FIRMR Temporary Regulation 10 regarding the Federal Information Resources Management Reviews Program (triennial reviews). Temporary Regulation 10 describes the policies and procedures for GSA - Federal agencies to follow in carrying out their information resources management review responsibilities under the Paperwork Reduction Act. It also established GSA as the primary agency for collecting, assessing, and reporting on information resources management review results to OMB. This Final Rule will be issued incorporation comments received on temporary regulation 10. This rule will codify in the FIRMR Governmentwide for policies for triennial reviews. A bulletin will also be issued providing detailed information regarding review procedures.

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-1; 41 CFR 201-1; 41 CFR 201-6; 41 CFR 201-38

Legal Deadline: NPRM, Statutory. Final, Statutory, October 24, 1989.

Abstract: The Telecommunications Accessibility Enhancement Act of 1988 (PUB.L.100-542) directed GSA to prescribe regulations that make the Federal Telecommunications system fully accessible to hearing and speech impaired individuals. In condition with other agencies and organizations, GSA is developing an interim rule that will specify requirements for Federal agencies in providing telecommunications access to hearing and speech impaired individuals who are either employees or client of the agencies. A FIRMR Bulletin will also be issued to describe the types of telecommunication devices for the deaf (TDD's) and related services currently available.

Abstract: This change to the GSAR revised Subpart 509.4 by eliminating provisions that unnecessarily duplicate or repeat material contained in FAR Subpart 9.4. Section 509.401 was revised to apply the procedures outlined in Subpart 509.4 to debarment and suspension proceeding arising under General Services Administration Property Management Regulation (GSPMR) 105-68 (nonprocurement debarment and suspension). Revised section 509.405 by requiring contracting officers to review both sections of the Lists of Parties Excluded from Federal Procurement and Nonprocurement Programs, eliminating the requirement that termination of current contracts with debarred or suspended contractors be approved at a level above the contracting officer, and requiring contracting officers to consider the availability of remedies under FAR Subpart 3.2 (gratuities clause) and Subpart 3.7 (voiding and rescinding). This rule also clarified the role of the agency factfinding official in proceedings conducted pursuant to FAR 9.406-3(d)(2) (ii) and FAR 9.407-3(d)(2)(i).

3359. ● GENERAL SERVICES ADMINISTRATION ACQUISITION REGULATION; PUBLICIZING AND RESPONSE TIMES, GSAR REISSUE AND REVISION (5-223)

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 505

Legal Deadline: None

Abstract: This revision to the General Services Administration Acquisition Regulation revised section 505.203 to establish the same minimum requirement for publicizing in local newspapers acquisitions of leasehold interests in real property as is currently provided for acquisitions of real property appraisal services and to establish for leasehold interests in real property a minimum response time of 20 calendar days between issuance of the solicitation and receipt of initial offers. The Administrator of General Services made to determination under section 18(c)(3) of the Office of Federal Procurement Policy Act that publicizing acquisitions of leasehold interests in real property and real property appraisal services in local newspapers is more appropriate than synopsizing in the Commerce Business Daily. The requirement to publicize applies to blocks of space of 10,000 square feet or more. [GSAR 505.101]

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 552

Legal Deadline: None

Abstract: This proposed rule would revise the Equitable Adjustments clause in section 552.243-71 by (1) establishing timeframes for submission of proposals, (2) eliminating the $5,000 threshold for submitting detailed price breakdowns, (3) eliminating the term "commission" and the four-percentage limitation and substitute overhead and profit for "commission," (4) establishing an overhead rate by calculating the rate as a percentage of the company's total direct costs which percentage would be applied to the total direct cost amount, and (5) providing for bond premium adjustments resulting from changes to be made at final settlement.

Abstract: 14 CFR Part 1203 is amended by adding this new Subpart J, "Emergency Personnel Security Adjudication and Procedures." This proposed rule sets forth NASA's personnel security adjudication policy and procedures. The intended effect of this proposed rule is to inform individuals of the procedures within NASA with respect to those individuals whose employment with NASA may not be clearly consistent with the interests of national security.

National Archives and Records Administration

Semiannual Regulatory Agenda

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1989. This agenda was developed under the guidelines in OMB Bulletin No. 89-12, dated July 5, 1989. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291 "Federal Regulation."

FOR FURTHER INFORMATION CONTACT: John A. Constance, Acting Chief, Information Management and Directives Branch, (202) 523-3214.

Dated: August 22, 1989.

Don W. Wilson,

Archivist of the United States.

3423. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 44 USC 2104; 44 USC 2504

CFR Citation: 36 CFR 1207

Legal Deadline: None

Abstract: This action proposes a common rule updating and replacing agencies' implementation of OMB Circular A-110 with a single, government-wide common rule establishing consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to institutions of higher education, hospitals, other nonprofit organizations, and commercial or for-profit entities. This result is achieved by amending the common rule issued by the agencies on March 11, 1988, to similarly update and replace implementation of OMB Circular A-102. The provisions of the common rule are largely drawn from the existing departmental rules issued by the several agencies which in the past developed a single, comprehensive rule implementing the circulars. This proposed common rule contains fiscal and administrative requirements applicable to grantees.

Significance: Agency Priority

Legal Authority: PL 100-690, Title V, Subtitle D, Sections 5151 to 5160; EO 12549

CFR Citation: 45 CFR 1154

Legal Deadline: Final, Statutory, February 16, 1989.
Section 5156 of the Drug-Free Workplace Act of 1988 requires agencies to issue regulations 90 days after the Act is signed into law.

Abstract: This rule is for the purpose of implementing the statutory requirements of the Drug-Free Workplace Act of 1988 which requires that recipients of Federal grants certify that they will maintain a drug-free workplace. If the grantee is an individual, certification that his or her conduct under the grant will be drug-free is required. This rule directs that grantees submit certifications and establish sanctions of violation for drug-free workplace requirements.

Legal Authority: 42 USC 2000d to 2000d4

CFR Citation: 45 CFR 1110; 45 CFR 1173

Legal Deadline: None

Abstract: This proposed regulation implements Title VI of the Civil Rights Act of 1984, which prohibits discrimination on the basis of race, color, or national origin in federally assisted programs and activities, with respect to programs and activities receiving federal financial assistance from the National Endowment for the Humanities.

Programs and activities receiving federal financial assistance from the National Endowment for the Humanities are currently covered by a regulation implementing Title VI that was issued by the National Foundation on the Arts and the Humanities in 1973 (45 CFR 1110). The proposed rule will remove NEH programs from the coverage of the earlier rule and replace it with a new part applicable only to NEH-assisted programs and activities. Programs and activities assisted by the National Endowment for the Arts remain covered under the existing regulation.

Section 5156 of the Drug-Free Workplace Act of 1988 requires agencies to issue regulations 90 days after the Act is signed into law.

Abstract: This rule is for the purpose of implementing the statutory requirements of the Drug-Free Workplace Act of 1988 which requires that recipients of Federal grants certify that they will maintain a drug-free workplace. If the grantee is an individual, certification that his or her conduct under the grant will be drug-free is required. This rule directs that grantees submit certifications and establish sanctions of violation for drug-free workplace requirements.

Federal Regulation; Semiannual Regulations Agenda

AGENCY: National Science Foundation.

ACTION: Publication of semiannual regulations agenda.

SUMMARY: The National Science Foundation (NSF) publishes its semiannual agenda of regulations under development or review as required by Executive Order 12291, Federal Regulation (46 FR 13193, February 17, 1981). This agenda has been prepared in accordance with OMB Bulletin No. 89-12, Unified Agenda of Federal Regulations.

FOR FURTHER INFORMATION CONTACT: For additional information regarding any particular regulatory action contained in the agenda, contact the individual identified as the contact person in the agenda. Comments or inquiries of a general nature about the agenda should be directed to Sukari S. Smith, Office of the General Counsel, National Science Foundation, Washington, DC 20550, (202) 357-9435.

Dated: July 28, 1989.

3442. PATENTS

Legal Authority: 42 USC 1870(a) The Natl. Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Legal Deadline: None

Abstract: The Bayh-Dole Act (35 USC 200 et seq) was amended by Title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce has prepared a governmentwide implementing regulation. The Foundation's Patents regulation (45 CFR 650) conforms to it. Because the revision to the NSF patents regulation will merely echo a governmentwide regulation on which the public will have had an opportunity to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Additional Information: The notable changes to be made in the revision of the NSF patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

Federal Regulations; OMB Circulars and Policy Letters Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31 United States Code; Executive Order No. 11541; and other specific authority as cited. The agenda includes actions on issuances which are not guidelines but which are of public interest. While it is presented in the standard Governmentwide format of prerule, proposed rule, and final rule stages, the entries are not rules.

OMB Circulars and OFPP Policy Letters are policy guidelines that communicate Governmentwide policy of a continuing nature. For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda; c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell A. Johnson (202/395-7250) at the above address.

Dated: September 15, 1989.

Darrell A. Johnson,

Assistant Director for Administration.

CFR Citation: None

Legal Deadline: Other, Statutory, February 1990.
OFPP must present a report to Congress by February 1990 which includes policy guidance or recommended legislative changes on factors to be used in making determinations of country of origin.

Abstract: The Buy American Act (the Act) was enacted in 1933 to ensure Federal agencies gave domestic products priority in competition for government contracts. The Act provides that, unless it is inconsistent with the public interest or unreasonably costly, all materials and supplies purchased by any department of the Federal Government, and all materials and supplies furnished by contractors doing work for the Federal Government, be produced within the jurisdictional limits of the United States. In 1988, the Act was amended by several sections of Title VII of PL 100-418. among other things, the 1988 amendments, directed the Administrator of Federal Procurement Policy to "conduct an assessment of the rules currently used this Act for making determinations of country of origin and alternatives to such rules." In conducting this assessment, the administrator was directed to identify and evaluate reasonable alternative rules of origin, including one which requires that a determination be made on the basis of total cost. The results of this analysis, including policy guidance and recommended legislative changes,are to be submitted to designated committees of Congress by Feb. 90.

Significance: Agency Priority

Legal Authority: PL 100-679, Sec 6 OFPP Act Amendments of 1988

CFR Citation: None

Legal Deadline: Final, Statutory, July 16, 1989.
Sec 6(a) provides that regulations and guidelines are required to be issued 180 days after enactment of PL 100-679 (November 17, 1988). PL 101-28 extended effective date to July 16, 1989.

Abstract: Section 6 of PL 100-679 establishes a "Procurement Integrity" requirement applicable to all government contractors having contracts with federal agencies that are subject to the Office of Federal Procurement Policy Act. The Policy and Regulations will cover: Prohibited Conduct by Competing Contractors; Prohibited Conduct by Procurement Officials; Disclosure of Information to Unauthorized Persons; Post-Employment Restrictions on Government Officials; Contractual Penalties; Administrative Actions; Criminal Penalties; and Civil Penalties. The statutory provision mandates federal action by requiring implementation in the Federal Acquisition Regulation. No alternative approach is permitted. Potential cost and benefits undetermined.

Proposed Rule Stage

3461. ORGANIZATION OF THE GOVERNMENT FOR PERSONNEL MANAGEMENT; PERSONNEL MANAGEMENT IN AGENCIES

Legal Authority: 5 USC 1104; 5 USC 1302; 5 USC 3301; 5 USC 3302; EO 10577

CFR Citation: 5 CFR 230; 5 CFR 250

Legal Deadline: None

Abstract: Deletes Part 230 and transfers its regulations to Part 250, to maintain parallel structure with 5 U.S.C. Combines material formerly in Part 230 with regulations now found in Part 250 to present all regulations on agencies' authorities for personnel management in a single part of the Code of Federal Regulations. Changes improve the technical integrity of the CFR by eliminating redundancies and improving the efficiency of OPM's regulations. No change in the coverage or substance of affected regulations.

CFR Citation: 5 CFR 293; 5 CFR 430

Legal Deadline: None

Abstract: Revises requirements for the Performance Management Systems for General Schedule and Prevailing Rate employees. Regulations will be streamlined to eliminate impediments to management flexibility while still assuring pay-for-performance systems. The section on filing and transfer of performance records contains a technical change that would bring the Official Personnel Folder (OPF) subpart into conformance with the Employee Performance Folder (EPF) subpart, indicating that performance ratings of record, and the performance plans on which they are based, may be filed in either the OPF or the EPF.

3472. RETIREMENT; CSRS OFFSET SERVICE

Legal Authority: 5 USC 8347

CFR Citation: 5 CFR 831, Subpart J

Legal Deadline: None

Abstract: The Federal Employees' Retirement System Act of 1986 provided that certain employees would continue to be covered by both the Civil Service Retirement System and social security. Their CSRS deductions are offset by social security taxes (FICA), and, when they retire, their CSRS benefits are offset by the value of this service in their social security benefits. 3484. EMPLOYMENT (GENERAL); EMPLOYMENT PRACTICES

Legal Authority: 5 USC 3301; 5 USC 3302; 5 USC 3304

CFR Citation: 5 CFR 300

Legal Deadline: None

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

3485. AMENDMENT TO SELECTIVE SERVICE REGISTRATION REQUIREMENTS

Legal Authority: 5 USC 3328

CFR Citation: 5 CFR 300, Subpart G

Legal Deadline: None

Abstract: We will issue a final rule delegating authority to agencies to determine whether a Federal job applicant's failure to register with the Selective Service System was knowing and willful. This change was authorized by an amendment to 5 USC 3328 which imposes the selective service registration requirement as a condition of employment in Federal executive agencies. The delegation will permit faster decisions for interested job seekers and reduce paperwork.

Legal Authority: 5 USC 5334(a); 5 USC 5338

CFR Citation: 5 CFR 531

Abstract: Under current regulations, Federal agencies must request prior OPM approval to use a special rate as an employee's "highest previous rate" upon reassignment to another position. The proposed regulations would revise the "highest previous rate" provisions of the regulations to remove this requirement and to clarify an agency's authority to establish an employee's rate of basic pay upon promotion, demotion, reassignment, transfer, reemployment, or change in type of appointment.

Final Rule Stage

Abstract: Public Law 100-202 authorized the Office of Personnel Management to establish a program under which Federal employees may transfer annual leave to other employees who need such leave because of a "personal emergency." Interim regulations issued in 1988 established administrative procedures for Federal agencies to permit the transfer of annual leave for this purpose. The statutory authority for this program has been extended through FY 89. In addition, Public Law 100-566 authorized a 5-year experimental voluntary leave transfer program, which will expire on October 31, 1993. Regulations to implement the new program by Public Law 100-566 will supersede previous regulations governing this program.

Significance: Regulatory Program

Legal Authority: 5 USC 6362; PL 100-566

CFR Citation: 5 CFR 630

Legal Deadline: Final, Statutory, April 30, 1989.

Abstract: Public Law 100-566 authorizes the Office of Personnel Management to establish a 5-year experimental voluntary leave bank program to be implemented in at least 3 executive agencies. Under the voluntary leave bank program, employees can donate annual leave to a common leave fund within each agency, and then can apply to withdraw leave from the fund if they encounter a medical emergency. The regulations will establish the administrative procedures for participating agencies to permit the contribution and use of annual leave for this purpose. The statutory authority for this program expires on October 31, 1993. Further action is dependent upon whether continuing or permanent authorization is enacted.

CFR Citation: 5 CFR 930, Subpart B

Legal Deadline: None

Abstract: OPM is proposing to amend its regulations governing the appointment, pay and removal of administrative law judges. The proposed amendment would permit an administrative law judge to transfer to another agency before completing 1 year of service, provided the losing agency agrees to a transfer. If both the gaining and losing agency agree to the transfer before the usually required 1 year of service following appointment is completed, such transfers should be permitted under the regulations, so that the gaining agency does not have to request a variation from established regulations to effect the transfer.

Panama Canal Commission

Semiannual Regulatory Agenda

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Assistant to the Chairman and Secretary, Panama Canal Commission, 2000 L Street NW., Suite 550, Washington, DC 20036-4996, (202) 634-6441 TDD; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011-5000.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 89-12.

Dated: August 25, 1989.

Michael Rhode, Jr.,

Assistant to the Chairman and Secretary, Panama Canal Commission.

PANAMA CANAL COMMISSION (PANAMA) — Prerule Stage

3534. ● RULES FOR MEASUREMENT OF VESSELS

Significance: Agency Priority

Legal Authority: PL 96-70, Sec 1601

CFR Citation: 35 CFR 135

Legal Deadline: None

Abstract: In July 1982, 48 nations, representing more than 80 percent of world shipping, began implementing a new uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. Final implementation is scheduled for July 1994. The present Panama Canal measurement system is based upon the old national tonnage measurement system. The Panama Canal Commission is currently studying the possibility of adapting its tonnage measurement system to one which is compatible with the 1969 Convention. This would eliminate the need for vessels to be measured twice, once under the new system and again under the old system for Panama Canal assessment purposes. No timetable for rulemaking has been established.

3535. PANAMA CANAL COMMISSION ACQUISITION REGULATION

Significance: Agency Priority

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR Chapter 35, (New)

Legal Deadline: None

Abstract: The Panama Canal Commission proposes to issue the Panama Canal Commission Acquisition Regulation (PAR) as Chapter 35 of Title 48 Code of Federal Regulations. The proposed PAR implements and supplements the Federal Acquisition Regulation (FAR), which is the primary acquisition regulation that governs the contracting process of all executive agencies or otherwise controls the relationship between such agencies and their contracts or prospective contractors. This action is necessary to provide regulatory coverage pertinent to Commission acquisitions that is not otherwise provided in the FAR.

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from October 1, 1989, through September 30, 1990. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 1990 K Street NW., Washington, DC 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulations" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required under 5 U.S.C. 602.

Dated: September 1, 1989.

Margaret H. Thome,

Associate Director for Management.

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PENSION BENEFIT GUARANTY CORPORATION (PBGC)

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel, Code 22500, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact J. Ronald Goldstein, Senior Counsel, Office of the General Counsel, 202-778-8850. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive order. The Regulatory Flexibility Act, Pub. L. 98-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 89-12) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

Douglas R. Cannon,

Acting Executive Director, Pension Benefit Guaranty Corporation.

3550. TRANSFERS FROM MULTIEMPLOYER PLANS TO SINGLE-EMPLOYER PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1412; 29 USC 1414

CFR Citation: 29 CFR 2678

Legal Deadline: None

Abstract: Sections 4232 and 4234 of ERISA prescribe rules governing the transfer of liabilities and assets from a multiemployer plan to a single-employer plan and prohibit certain transfers unless approved by PBGC. The regulation will establish procedures for requesting and criteria for PBGC approval of transfers which require approval and guidelines for satisfying the statutory requirements pertaining to other transfers. The regulation will also establish standards for the PBGC's waiver of a multiemployer plan's contingent liability arising from the transfer of unfunded vested benefits to a single-employer plan.

Additional Information: Publication of this proposed regulation was delayed because of the need to revise the portions dealing with waiver of a multiemployer plan's contingent liability to reflect certain changes in related statutory provisions made by the Single-Employer Pension Plan Amendments Act of 1986. Work on this rule was subsequently deferred because the enactment of SEPPAA and the 1987 Pension Protection Act amendments required that staff be reassigned to work on higher priority regulations necessitated by those laws.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1367(b)

CFR Citation: 29 CFR 2647 (Amendment)

Legal Deadline: None

Abstract: Under section 4207(a) of ERISA, the PBGC has issued a regulation (29 CFR Part 2647) providing for the reduction or waiver of an employer's liability for complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: 29 CFR 2624

Legal Deadline: None

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review.

Abstract: The PBGC's employer liability regulation incorporates by reference the interest rate charged under section 6601 of the Internal Revenue Code as the interest rate charged, or credited, on late payments, or overpayments, of employer liability. The Tax Reform Act of 1986 significantly changed the way in which the section 6601 rate is established and creates two interest rates: one for underpayments and another, lower rate for overpayments. Because of these changes, the PBGC plans to conduct a new rulemaking proceeding to determine whether it should continue to use the section 6601 interest rates under the employer liability regulation or whether it should adopt a new rate(s) for this purpose.

3554. PAYMENTS BY PBGC OF UNFUNDED NONGUARANTEED BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322(c) (Supp. V 1987)

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The Pension Protection Act repealed ERISA section 4049 and 4062(c). Those provisions established new employer liability to plan participants and beneficiaries in the event of a distress termination or involuntary termination by the PBGC of a plan without sufficient assets to pay all benefit commitments; the section 4049 trust was the vehicle for collecting and distributing these liability amounts. This system proved flawed in several respects, however, and Congress therefore created a new scheme by which to channel employer liability recoveries to plan participants and beneficiaries, amended ERISA section 4022(c).

Under section 4022(c), participants no longer have a direct claim for employer liability. Instead, the PBGC's claim covers both its shortfall (unfunded guaranteed benefits) and participants' losses (unfunded benefit liabilities in excess of guaranteed benefits). In turn, the PBGC is to pay a portion of its employer liability recovery to participants and beneficiaries. The amount to be paid is based on the PBGC "recovery ratio" (as defined in amended sec. 4022(c)(3)).(cont)

Additional Information: This new statutory rule contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work. The regulation will, for example, contain rules on how the PBGC will value its employer liability recoveries for purposes of computing the recovery ratio, whether the allocation of amounts payable under this provision will be done as part of the regular section 4044 asset allocation, and whether the PBGC will pay these benefits by increasing the amount of annuity payments it is making to participants or making lump sum payments.

3555. RETIREMENT EQUITY ACT AMENDMENTS - VALUATION OF PLAN BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341 (Supp. V 1987)

CFR Citation: 29 CFR 2619

Legal Deadline: None

Abstract: The Retirement Equity Act of 1984 ("REA") requires plans to provide certain benefits, prohibits the elimination of benefit options and certain early retirement benefits and retirement- type subsidies, and mandates the range of interest rates that may be used in calculating the amount of a non-consensual lump sum benefit. The Tax Reform Act of 1986 ("TRA '86") slightly modified the interest rate restrictions and extended them to the calculation of all lump sum benefits.

These rules necessitate several amendments to the PBGC's valuation of benefits regulation (29 CFR Part 2619). The major changes will address the rules on determining the form of benefit to be valued on plan termination and the interest rate rules for lump sum payments in standard terminations.

The PBGC had planned to issue the amendments to the valuation of benefits regulation concurrently with the two revised termination regulations. However, work on these amendments has been delayed pending PBGC's efforts with the Internal Revenue Service to develop a definition of the term "benefit liabilities", which was introduced by the Pension (cont.)

3556. REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1388(e)(3)

CFR Citation: 29 CFR 2646

Legal Deadline: None

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

CFR Citation: 29 CFR 2649

Legal Deadline: None

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

Thus, there is no double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan.

This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

3558. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

3559. DISTRESS TERMINATIONS OF SINGLE-EMPLOYER PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c) (Supp. V 1987)

CFR Citation: 29 CFR 2616

Legal Deadline: None

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, a plan may voluntarily terminate only if the termination satisfies the statutory conditions for a standard or distress termination. These rules were further modified by the 1987 Pension Protection Act, which increased the benefits that must be provided, or for which the employer maintaining the plan is liable, upon plan termination. Thus, under current law, unless a plan has sufficient assets to satisfy all plan benefit liabilities, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and all members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, they are unable to continue to maintain the plan. The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Although the notice of proposed rulemaking for this regulation was

Abstract: Under ERISA Section 4041, as amended by the Single-Employer Pension Plan Amendments Act of 1986 and the Pension Protection Act, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan may be voluntarily terminated only if it is sufficient for all benefit liabilities (i.e., all benefits provided under the plan on the termination date, whether or not vested). This is referred to as a "standard" termination. SEPPAA also modified many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing the new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617). Abstract: The Single-Employer Pension Plan Amendments Act of 1986 ("SEPPAA") and the Pension Protection Act ("PPA") made several changes in Title IV rules and procedures that affect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to the current law. For example, because SEPPAA altered the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2606.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contained, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA and the PPA significantly changed the rules on employer liability to the PBGC in distress and involuntary terminations. Now, an employer is liable to the PBGC for the total plan underfunding, (cont)

Further, the 30 percent of net worth limitation is now relevant only in determining the amount subject to PBGC's statutory lien and the status of PBGC's claim in bankruptcy. The employer liability regulation needs to be amended to reflect these changes.

3562. RULES UNDER SECTIONS 4041A AND 4281 FOR PLANS TERMINATED BY MASS WITHDRAWAL

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341A ERISA; 29 USC 1441 ERISA

CFR Citation: 29 CFR 2675

Legal Deadline: None

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. The primary purpose (cont)

By thus helping to preserve plan assets, these rules will, in the first instance, benefit plan participants and beneficiaries and secondarily, the multiemployer insurance system and premium payers. PBGC lacks adequate data to be able to quantify these benefits.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1306; 29 USC 1307; PL 100-203, Sec 9331

CFR Citation: 29 CFR 2610

Legal Deadline: None

Abstract: The Pension Protection Act substantially altered the rules pertaining to single-employer plan premiums that are paid to the PBGC. Under the Act, there is a flat per capita charge (increased from that under prior law) plus a new variable rate charge tied to the value of a plan's unfunded vested benefits. The new premium rules are effective for plan years beginning after December 31, 1987.

On June 30, 1988, the PBGC issued an interim regulation implementing these rules. Because of the need to issue the regulation quickly to provide guidance for 1988 premium payments, the PBGC did not solicit public comment before issuing the regulation. For the same reason, the interim regulation did not address certain relevant, but secondary, issues pertaining to the new rules. Therefore, on October 5, 1988, the PBGC issued a notice of proposed rulemaking in order to permit public comment on the interim regulation. The NPRM also addressed problems or questions raised by the public in response to the interim regulation.

Additional Information: ABSTRACT CONT: The PBGC expects to issue the final regulation in June 1989, effective for 1989 premium payment. As set forth in the proposed regulation, the final regulation will contain some new provisions further simplifying the rules for determining a plan's unfunded vested benefits and excluding more plans from having to calculate unfunded vested benefits.

Small Business Administration

Semiannual Regulatory Agenda

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 21st semiannual agenda of regulations. Although not a regulatory agency, SBA has attempted to draft agendas that meet both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291, the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street NW., Washington, DC 20416; (202) 653-6644.

SUPPLEMENTARY INFORMATION: The SBA agenda contains many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the 12-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: August 25, 1989.

Susan Engeleiter,

Administrator.

Significance: Regulatory Program

Legal Authority: 15 USC 634(b)(6); 15 USC 687(c); 15 USC 694(d); PL 100-590

CFR Citation: 13 CFR 115

Legal Deadline: Final, Statutory, May 2, 1989.

Abstract: This regulation implements changes necessitated by the Preferred Surety Bond Guarantee Program Act of 1988, Title II of Pub. L. 100-590. The regulation changes the method of computing the guarantee fee charged by SBA to the surety from a flat dollar amount to 20 percent of the premium. It also provides for additional guarantee fees or refunds, whenever the contract amount is increased or decreased in excess of 25 percent or $50,000, whichever is less.

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations. However, TVA has four regulations under development and has published a notice of intent with regard to a fifth regulation. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

3636. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (FAR)

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION/NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. I

Semiannual Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291 "Federal Regulation." This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions; however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FACs). None of the regulations listed in this agenda are considered major under Executive Order 12291 "Federal Regulation."

Dated: August 28, 1989.

Harry S. Rosinski,

Acting Director, Office of Federal Acquisition Policy.

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESS: Comments should be sent to: Gerry Smith, Office of the Executive Director, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, (202) 254-6090.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of April and October of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate of significant rules which will be considered over the next twelve months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1989 Regulatory Flexibility Agenda as part of the Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1989 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, DC, by the Commission.

Lynn K. Gilbert,

Deputy Secretary of the Commission.

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings, 47 FR 18618 (April 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar and, on a weekly basis, an advisory which list rules that the Commission is considering or will consider in the near future.

COMMODITY FUTURES TRADING COMMISSION (CFTC) — Proposed Rule Stage

3758. MINIMUM FINANCIAL AND RELATED REPORTING REQUIREMENTS FOR FUTURES COMMISSION MERCHANTS

Legal Authority: 7 USC 6c; 7 USC 6f; 7 USC 6g; 7 USC 12a

CFR Citation: 17 CFR 1.12; 17 CFR 1.17

Legal Deadline: None

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment preserves the one-day grace period for debit/ deficit accounts unless the account had been in debit/deficit status on the previous business day and the previous day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

3759. RULES RELATING TO COMMISSION REVIEW OF NATIONAL FUTURES ASSOCIATION DECISIONS IN DISCIPLINARY, MEMBERSHIP DENIAL, REGISTRATION AND MEMBER RESPONSIBILITY ACTIONS

Legal Authority: 7 USC 21(h); 7 USC 21(i); 7 USC 21(o)(2); 7 USC 12(a)(5); 7 USC 4a

CFR Citation: 17 CFR 3; 17 CFR 171

Legal Deadline: None

Abstract: The Commission proposes to adopt rules establishing standards and procedures for Commission review of decisions of registered futures associations such as the National Futures Association ("NFA"). The Commission is proposing specific standards of review for decisions by NFA in four types of actions - disciplinary actions, membership denial actions, registration actions and member responsibility actions. The proposed rules would establish a common procedure for seeking review and a stay of a final decision by NFA in disciplinary, membership denial and registrations actions. The proposed rules would also establish a procedure for seeking review of and a stay of decisions by NFA in a member responsibility action. In proposing these rules, the Commission seeks to promulgate standards for review that will permit NFA to exercise its expertise and independent judgment in the proceedings subject to these rules while providing a person aggrieved by the result of NFA's action an effective means to obtain relief from prejudicial errors in NFA's determination. The Commission also seeks to establish an appellate process that is comprehensive, balanced, efficient and fair.

Legal Deadline: None

Abstract: The Commission is considering whether to amend Rule 1.55, its basic rule with respect to risk disclosure by futures commission merchants and introducing brokers. Any such amendments would be designed to further simplify risk disclosure with respect to trading of domestic and foreign futures products so as to reduce the number of separate risk disclosure documents required by the Commission, the National Futures Association and other self-regulatory organizations (SROs), including foreign SROs. The Commission may also consider whether the current rules need to be clarified regarding disclosure of the risk of bankruptcy and disclosures required when an account is transferred from one futures commission merchant or introducing broker to another futures commission merchant or introducing broker.

Abstract: The proposed rulemaking will establish requirements for frequent collection of trading cards and filled customer order tickets on the exchanges during the trading day. Specifically, the rulemaking will require that such records be collected at intervals not to exceed one half hour during a brief implementation stage and thereafter at intervals not to exceed 15 minutes. Such defined periods shall include separately designated opening and closing periods with a separate trade record submission requirement. In addition, the rule will require that all trading cards be timestamped upon completion or collection, be prenumbered, that exchange members account for all trading cards and record trades in chronological order as sequential lines of a trading card. These rules, among other things, will improve the audit trail for all trades and limit any opportunity to alter such records.

Legal Authority: 7 USC 6; 7 USC 6g; 7 USC 7; 7 USC 7a; 7 USC 12a

CFR Citation: 17 CFR 1.35

Legal Deadline: None

Abstract: The anticipated proposed regulation will amend existing regulation 1.35 to require that an order ticket be prepared for orders placed by members on the floor of an exchange with another member for execution (CTI 3 trades) as is presently required for all other orders. Currently, regulation 1.35 (a-1) (3) exempts a member receiving an order from another member on the floor from the requirements of this regulation, which requires that an order ticket be prepared and time stamped upon receipt, if the member receiving such order notes on his trading card or other record the time of execution to the nearest minute. Alternatively, the proposed regulation may require other audit trail improvements for such orders. The proposed amendment is intended to improve the available audit trail for orders executed on behalf of members on the floor of an exchange so that the trading activity of those members may be better monitored. The proposed regulation will contain an exemption for certain inter-commodity or futures/option spread transactions to preserve the efficient execution of such orders. Because of the relatively small number of orders for members on the floor, the Commission (cont)

Abstract: This rule would require self-regulatory organizations (SROs), i.e., contract markets, clearing organizations, and the National Futures Association, to implement rules that prohibit persons with significant disciplinary histories from serving on SRO disciplinary committees, arbitration panels and governing boards. The rule is intended to uphold the perceived integrity of the SROs and thereby enhance the effectiveness of the self-regulatory system.

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing the rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governmental units. In this document, the Commission publishes its semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions expected to be under development or review by the agency during the succeeding 12 months and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1989.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207; (301) 492-6980. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601-612, contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act, 5 U.S.C. 602, requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated which is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule, the objectives and legal basis for the rule, and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking. The regulatory flexibility agenda shall also contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or current regulations under review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The regulatory flexibility agenda published below lists, for a 12-month period, the regulatory activities expected to be under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

Dated: September 20, 1989.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

CFR Citation: 16 CFR 00

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPR) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a three- or four-wheeled motorized machine, designed for off-road use, and intended to be ridden by one person. A consent decree in the U.S. District Court of the District of Columbia in U.S. v. American Honda Motor Co. et al., approved on April 28, 1988, Civil Act. No. 87-3525 GAG), required ATV manufacturers to attempt in good faith to reach agreement on a voluntary standard for the Commission's consideration. The Commission accepted that standard, along with an industry agreement concerning lateral stability, on October 28, 1988. Except for lateral stability and youth models, the Commission will defer rulemaking for a time sufficient for the voluntary standard to be adopted by the American National Standards Institute. Also, the Commission concluded that for labeling, manuals, age recommendations, advertising, training, point-of-purchase materials, and other

Abstract: On March 3, 1988, the Commission published an Advance Notice of Proposed Rulemaking (ANPRM) to announce its preliminary determination that unreasonable risks of death and injury may be associated with cigarette lighters because they are not sufficiently resistant to operation by children. The Commission staff is analyzing comments received in response to the ANPRM. A test protocol using panels of children and adults is under development. The test protocol will be used to determine the child resistance of lighters now on the market and to evaluate lighter modifications reported to be more child resistant. A child resistant cigarette lighter standard will be developed using the test protocol as a basis.

3774. METHOD FOR IDENTIFYING TOYS AND OTHER ARTICLES INTENDED FOR CHILDREN UNDER 3 YEARS OF AGE WHICH PRESENT CHOKING, ASPIRATION, OR INGESTION HAZARDS BECAUSE OF SMALL PARTS

Legal Authority: 15 USC 1261 to 1262 Federal Hazardous Substance Act

CFR Citation: 16 CFR 1501

Legal Deadline: None

Abstract: The Commission has a regulation applicable to toys and other articles intended for children under three years old that prescribes a test cylinder to determine if articles, or detachable parts of such articles, present a choking hazard to young children. Articles or components which fit within the test cylinder are banned. Although this regulation has been in effect since January 1980, choking incidents have occurred since it went into effect involving products which either pass the test or which are exempt from the regulation. The Commission has established a project to gather information about the nature and causes of these incidents and to determine what, if any, additional measures are needed to reduce injuries and deaths from such incidents, including possible modification of the small parts test cylinder. The Commission published an ANPRM on June 7, 1988, to solicit comments on ways to address choking hazards to young children, including specific modifications of the test cylinder requested in a petition from the Consumer Federal of America and the New York State Attorney General's Office.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On September 5, 1988, David A. Snow, President of the Michele Snow Foundation, petitioned the Commission to issue a consumer product safety standard for hand-held electric hair dryers. The petition alleges that hand-held electric hair dryers are associated with five to ten fatal electrocutions of children each year. The petition requests the Commission to issue a safety standard for hand-held electric hair dryers to require immersion detection circuit interrupters to protect against electric shock injuries if the hair dryer accidentally falls into water. The Commission staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding under the Consumer Product Safety Act for development of a consumer product safety standard.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On October 4, 1988, Edward Press, M.D. petitioned the Commission to issue a safety standard for saunas. A sauna is a wood-walled enclosure equipped with benches and a heater. The petition alleges that saunas are associated with risks of death and injury from heat stroke or hypothermia, cardiac arrhythmia and cardiac arrest, myocardial infarction, and syncope or fainting. The petition requests the Commission to issue a safety standard for saunas with requirements for signs to warn about hazards associated with use of saunas; a switch outside the sauna enclosure to limit operating time of the sauna to a maximum of ten minutes per setting; a switch inside the sauna enclosure to shut off the sauna when the dry-bulb temperature exceeds 195 degrees F.; adequate ventilation of the sauna enclosure; and an alarm signal which can be activated inside the sauna enclosure to summon aid. The staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding for development of a consumer product safety standard under provisions of the Consumer Product Safety Act.

Abstract: On June 27, 1988, the American Association of Poison Control Centers, Inc. petitioned the Commission to issue rules under provisions of the Poison Prevention Packaging Act to require child-resistant packaging for two types of cosmetics: products containing acetonitrile used to remove sculptured nails; and home cold-wave permanent kits containing sodium bromate. The petition alleges that children have suffered serious injuries after accidentally ingesting the products which are the subject of the petition. The staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition it will begin a proceeding under the Poison Prevention Packaging Act to issue rules requiring child-resistant packaging of household glue removers containing acetonitrile and home permanent wave neutralizers containing sodium or potassium bromate.

Abstract: On July 10, 1989, the Commission received a petition from the New York State Attorney General and others requesting initiation of a proceeding for issuance of a labeling rule applicable to adult- sized water beds. The petition asserts that adult-sized water beds are associated with risks of death and injury by suffocation to infants and physically handicapped children, and requests issuance of a rule to require labeling of adult-sized water beds and point-of-sale information to warn of these risks. The Commission staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding under the Consumer Product Safety Act to issue the requested labeling rule.

Legal Authority: 15 USC 1472 Poison Prevention Packaging Act; 15 USC 1473 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.20

Legal Deadline: None

Abstract: On January 19, 1983, the Commission published an Advance Notice of Proposed Rulemaking soliciting comments on ways to amend the existing requirements for child-resistant packaging to improve the effectiveness and efficiency of these requirements. In June 1985, the Commission staff completed testing to determine the feasibility of using some of the alternate procedures for evaluation of child-resistant packaging described in the ANPR. In August 1987, the Commission considered the comments received in response to the ANPR and the staff's recommendations regarding revision of existing requirements for child-resistant packaging. The Commission directed the staff to prepare draft proposals to amend the test protocols used to evaluate the effectiveness of child-resistant packaging. The staff is preparing a briefing package concerning specific revisions to the child test protocol and the adult test protocol. The staff anticipates that it will transmit the briefing package to the Commission in September 1989.

Legal Authority: 15 USC 1261 Federal Hazardous Substances Act; 15 USC 1262 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1500.12(a)(2)

Legal Deadline: None

Abstract: On August 20, 1986, the Commission proposed a rule to declare that household products containing methylene chloride are hazardous substances under the Federal Hazardous Substances Act. These products include some paint strippers and spray paints. The Commission's concern arises from animal tests showing that methylene chloride is a carcinogen by inhalation and studies indicating a significant human exposure as a result of reasonably foreseeable use of products containing methylene chloride. The initiation of this rulemaking proceeding granted one part of a petition (HP 85-1) from the Consumer Federation of America. The staff provided an analysis of the comments on the proposed rule to the Commission in June 1987. In August 1987, the Commission determined that there was insufficient controversy over the status of methylene chloride as a hazardous substance; therefore, the Commission suspended the rulemaking and issued a statement of enforcement policy stating the Commission's view that household products that contain methylene chloride and that expose consumers to significant levels of methylene chloride are (cont.)

Farm Credit Administration

Semiannual Regulatory Agenda

FARM CREDIT ADMINISTRATION (FCA)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department unified agenda of regulations and review list.

SUMMARY: The Farm Credit Administration (FCA), as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations, which it will have under development and review during the period of October 1989 through April 1990.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Office of General Counsel, Farm Credit Administration, McLean, Virginia 22102-5090, (703) 883-4020, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. The FCA is an independent regulatory agency that is exempt from the provisions of Executive Order 12291. Additionally, FCA regulations, which apply to Farm Credit banks and associations and certain other federally chartered entities, generally do not and will not have a substantial impact on "small entities" as that term is defined in the Regulatory Flexibility Act.

While FCA is an independent agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Dated: August 25, 1989.

David A. Hill,

Secretary, Farm Credit Administration Board.

Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations; October 1989

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. The agenda also provides the CFR citations and legal authorities which govern these proceedings. The Regulatory Flexibility Act (94 Stat. 1167: 5 U.S.C. 605) includes notations on the applicability of the Regulatory Flexibility Act to each item.

The Unified Agenda is published in the **Federal Register** in April and October of each year.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tenecia Moncrief, Office of Managing Director, (202) 632-3906.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB publishes the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g., Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "MM Docket 79-164," which indicates that the responsible Bureau is the Mass Media Bureau. When a docket number consists of only five digits (e.g., Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking but before the Commission has taken action on the petition

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

Donna R. Searcy,

Secretary, Federal Communications Commission.

Abstract: The Commission seeks to develop a record and to solicit comments on the proposed rules. These proposed rules are designed to implement recommendations made by the joint industry/government Advisory Committee on 2 degree satellite spacing; and they will codify basic applications requirements for satellite services. The proposed rules would apply to all entities including small entities who seek authorization under Part 25 of the Commission's rules to construct and operate Fixed-Satellite communications facilities. The proposed rules would establish operational and technical procedures designed to alleviate adjacent satellite interference and may increase the reporting and cost burdens on all satellite licensees. The rules codifying basic applications requirements are codifications of existing policies. Will impose no additional burdens, and may, in fact, reduce the burden by eliminating several current requirements. In order to be effective, these rules must apply to all licensees and thus there is no significant alternative.

Proposed Rule Stage

implementation of an interstate relay system for users of telecommunications devices for the deaf (TDDs). In Phase One, consistent with P.L. 100-394, the FCC adopted rules on May 4, 1989, requiring nearly all telephones manufactured in or imported into this country after August 16, 1989, to be hearing aid compatible. On July 27, 1989, the FCC concluded its NOI in Phase Two of this proceeding by finding that an interstate TDD relay system is in the public interest and issuing a FNPRM. The FNPRM offers two approaches for providing interstate relay service: one requiring all interexchange carriers subject to Sec. 69.116(a) of the rules to individually or jointly provide the service, and the other assigning the managerial and operation responsibilities of the system to the National Exchange Carrier Association.

Abstract: This proceeding addresses the statutory restrictions which prohibit telephone companies from providing cable television service within their telephone service areas. The FCC has tentatively concluded that the statutory restrictions should be repealed. The Commission solicited comments and will decide whether to recommend to Congress whether the restrictions should be repealed. The Commission also issued an NPRM to modify the standards of affiliation between cable companies and telephone companies.

Abstract: The Commission has adopted final rules that implement price cap regulation for American Telephone and Telegraph Company. The price cap rules replace rate of return regulation, which sets limits on carrier earnings, with a system of regulation that directly limits the prices a carrier can charge for service. The Commission found that price cap regulation will provide incentive for AT&T to become more efficient and innovative, and will benefit consumers by creating a system that will result in aggregate prices that are lower than aggregate prices would have been under rate or return. The Commission has also adopted a Second Further Notice of Proposed Rulemaking containing a specific plan for implementing a modified form of price cap regulation for local exchange carriers' interstate rates.

Further Notice of Proposed Rulemaking

Abstract: This proceeding looks to establish a means by which radio emissions might be encoded with a distinct automatically transmitted identifier to benefit orderly management of the radio spectrum by identifying the source of radio frequency interference to other radio signals. For video satellite uplink stations regulated under Part 25 of the Commission's rules, it proposes rules regarding such identifiers. There are no significant alternatives being considered that are consistent with stated objectives. Every operator of a satellite video uplink would be required to purchase and operate a device to insert identification on all transmissions. Approximately 1,000 stations would be involved. Each encoder would cost under $2000. Operating upkeep expenses should be minimal.

Abstract: The NOI in this proceeding initiated a study of the role of FM translators in the radio broadcast service. The objective of this proceeding is to examine and, where necessary or appropriate, to revise FCC policy regarding the authorization and operation of FM translators consistent with the Commission's overall allocations plan. In this NPRM, the

Commission will consider modification of the FM translator rules.

Semiannual Regulatory Agenda

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is hereby publishing items for the October 1989 regulatory agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) and the FDIC statement of policy entitled, "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

The FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"), which was enacted on August 9, 1989, contains reforms that significantly restructure Federal deposit insurance and the regulation of financial institutions. As a consequence, the FDIC expects, in the coming months, to propose and adopt a number of regulations, as required by FIRREA. Among them are regulatory actions pertaining to insurance fund assessment procedures and the requirements for notifying the public of deposit insurance coverage, which are included in this agenda.[1]

Interested persons may petition the FDIC for the issuance, amendment, or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Dated: August 25, 1989.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

3869. PRIOR NOTICE BY INSURED BANKS OF INTENT TO DIRECTLY OR INDIRECTLY ENGAGE IN A NEW BANKING ACTIVITY AND OF INTENT TO ACQUIRE OR ESTABLISH A SUBSIDIARY

Legal Authority: 12 USC 1816; 12 USC 1817; 12 USC 1818(a); 12 USC 1818(b); 12 USC 1819; 12 USC 1820; 12 USC 1821(f)

CFR Citation: 12 CFR 304; 12 CFR 332

Legal Deadline: None

Abstract: The FDIC is considering amending its regulations to require any insured State nonmember bank to provide 30-day prior written notice to the regional director of the FDIC region in which the bank is located of the bank's intent to engage in a new banking activity and of its intent to acquire or establish a subsidiary. The planned rule also would require notice to the regional director of the FDIC region in which the bank is located not more than 10 days after the activity is started or the subsidiary is established or acquired.

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1820; 12 USC 1821(f)

CFR Citation: 12 CFR 356

Legal Deadline: None

Abstract: The FDIC staff is considering whether to recommend to the Board of Directors that it amend its regulations to require any state-chartered nonmember bank and FDIC-insured foreign branch to adopt written guidelines governing all insider transactions beyond loans. Staff expects to recommend that the planned rule would require that no covered institution may enter into a business transaction with an insider (as defined) unless: (i) it is made on substantially the same terms as those prevailing at the time for comparable transactions, (ii) the board of directors or trustees states in writing that the business transaction is for the benefit of the bank and is not merely an accommodation to a bank insider, and (iii) the transaction does not present unfavorable features which may be detrimental to the bank's interest.

Legal Authority: 12 USC 1819; 12 USC 1828(a); PL 101-73, Sec 221

CFR Citation: 12 CFR 328

Legal Deadline: None

Abstract: The FDIC has issued a final rule amending its regulation regarding advertisement of membership in order to comply with the requirements of section 221 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") (see 54 FR 33669, August 16, 1989). Because the FDIC acted under a statutory deadline, the final rule established only those requirements that were considered to be the minimum necessary to comply with FIRREA. The FDIC is now considering additional amendments to the regulation.

Legal Authority: 5 USC 5514; 12 USC 1819

CFR Citation: 12 CFR 355

Abstract: The FDIC is planning to propose new regulations to implement salary offset procedures required by 5 USC 5514 and 5 CFR 550, Subpart K. The proposal would set out procedures to be used by the FDIC to offset the salary of any FDIC employee who is indebted to the United States and refuses to pay voluntarily. The proposal would also enumerate procedures through which the FDIC may request another agency to offset the salary of one of its employees to satisfy a debt that employee may owe the FDIC.

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819

CFR Citation: 12 CFR 344

Legal Deadline: None

Abstract: The FDIC expects to propose an amendment to 12 CFR Part 344, which governs an insured nonmember bank's recordkeeping and confirmation requirements for securities transactions. The proposed amendment would expand an existing exception under Part 344 for low activity. The exception would be increased to allow banks which effect an average of fewer than 1,000 securities transactions per year to be exempt from certain recordkeeping and written policymaking requirements. The current "low-activity" threshold is 200 transactions per year. The amendment is needed to eliminate unnecessary paperwork burden and is intended to reduce the impact of FDIC's regulation on insured nonmember banks that engage in a low number of securities transactions per year.

Significance: Agency Priority

Legal Authority: 12 USC 1817 to 1819

CFR Citation: 12 CFR 327

Legal Deadline: None

Abstract: The FDIC is amending Part 327 of its regulations, entitled "Assessments," in response to the requirements of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989. The final rule establishes interim assessment procedures for savings associations. The final rule also provides a mechanism for funding the Financing Corporation and the Resolution Funding Corporation through the end of 1989.

The FDIC will consider any public comments received by November 13, 1989, in order to determine whether this final rule should be revised.

Significance: Agency Priority

Legal Authority: 12 USC 1819; 12 USC 1828(a); PL 101-73, Sec 221

CFR Citation: 12 CFR 328

Legal Deadline: Final, Statutory, August 9, 1989.

Abstract: The FDIC is amending its regulation prescribing the requirements with regard to the official sign insured financial institutions must display notifying the public of deposit insurance coverage. This action is necessary in order to comply with the requirements of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). This rule is intended to assure that insured financial institutions comply with the requirements of FIRREA.

Because the FDIC is acting under a statutory deadline, this final rule establishes only those requirements that are considered to be the minimum necessary to comply with FIRREA. Consequently, additional changes to the FDIC's regulation governing advertisement of membership are being considered, and comments are invited through a separately published

"Advance Notice of Proposed Rulemaking" (see 54 FR 33716, August 16, 1989).

CFR Citation: 12 CFR 346; 12 CFR 303

Legal Deadline: None

Abstract: The FDIC has adopted changes to its regulations pertaining to insured branches of foreign banks. Substantial changes were made to the current provisions relating to exemptions from the deposit insurance requirement, the capital equivalency requirement, and the country exposure provision. Changes were also made to the pledge of assets requirement and to the delegations of authority concerning it (12 CFR Part 303.8), as well as to miscellaneous provisions throughout the regulation.

On June 28, 1989 (54 FR 27154), the FDIC published an addendum to the final regulation regarding exemptions from deposit insurance for branches of foreign banks. According to the addendum, the exemption for initial deposits of less than $100,000 by depositors who are neither citizens nor residents of the U.S. at the time of the initial deposit will be included in the final regulation.

Significance: Agency Priority

Legal Authority: 15 USC 717 to 717w (1982) Natural Gas Act; 42 USC 7101 to 7352 (1982) Dept. of Energy Organ. Act; EO 12009 (1978) 3 CFR Part 142; 31 USC 9701 (1970) Independent Offices Approp. Act

CFR Citation: 18 CFR 154

Legal Deadline: None

Abstract: This notice of proposed rulemaking eliminates the requirement in the Commission's regulations that a gas purchase contract between an independent natural gas producer and an interstate natural gas pipeline must allow the pipeline a minimum 5-year make-up period in which to take gas for which payment has already been made. The Commission believes that this requirement, established in 1967, may no longer be necessary in light of current efforts by pipelines and producers to resolve take-or-pay issues and to enter into market-responsive contracts for future gas supplies. Abstract: The proposed rule would grant blanket sales authority to first sellers of natural gas (except gas marketers) to make sales for resale in interstate commerce. Marketers would be required to apply individually for this authorization. The rule would eliminate virtually all of the certificate and filing requirements presently applicable to these sales. 3889. CALCULATION OF CASH WORKING CAPITAL ALLOWANCE FOR PUBLIC UTILITIES

Legal Authority: 16 USC 791a to 828c

CFR Citation: 18 CFR 35

Legal Deadline: None

Abstract: The proposed rule would provide that the cash working capital requirements of a public utility that files an electric rate schedule will be presumed to be zero dollars, and thus will not affect the utility's rate base, unless the utility shows there is a significant difference between the time it pays certain current operating expenses and the time it receives revenues from ratepayers. The proposed rule would establish a threshold standard that must be met to support a cash working capital adjustment to a utility's rate base, the expense elements to be considered in calculating cash working capital adjustments to rate base, and criteria applicable to studies submitted in support of a request for an adjustment to rate base. Abstract: Order No. 500 is an interim rule that readopted the regulations promulgated in Order No. 436 with one addition and one deletion. Order No. 500 added a requirement that producers submit an offer of take-or-pay credits to an open access pipeline in order to make the pipeline's gas eligible for transportation (unless the pipeline and producer agree to a different arrangement); it deleted the customers' contract demand reduction option. Order No. 500 also adopted a policy on passthrough mechanisms for take-or-pay buyout and buydown costs and on gas inventory charges. Order Nos. 500-A, 500-B, 500-C and 500-D made changes to the crediting provisions and extended certain deadlines. Rehearing of the Order No. 500 interim rule was denied in Order No. 500-E. CFR Citation: 18 CFR 38; 18 CFR 382

Legal Deadline: None

Abstract: The Commission proposed to streamline regulation of a class of non-traditional utility suppliers, called independent power producers (IPPS). The proposed regulations would: (1) authorize rates for IPPS to be determined through competition or rate negotiation subject to a price cap, thereby freeing IPPS from cost-based ratemaking while ensuring that rates fall within a zone of reasonableness; (2) authorize IPPs to file rate schedules without having to provide extensive cost support; (3) exempt IPPS from cost-related accounting, reporting and recordkeeping requirements; (4) streamline the corporate and financial regulation of IPPS; (5) provide the blanket prior authorizations to engage in certain corporate activities; and (6) adopt and advance certification procedures to qualify as an IPP. FEDERAL HOME LOAN BANK BOARD

12 CFR Ch. V

[No. 89-2162]

Agenda of Federal Regulations

AGENCY: Federal Home Loan Bank Board.

ACTION: Publication of agenda items.

SUMMARY: The Federal Home Loan Bank Board ("Bank Board") is hereby publishing items for the "October Unified Agenda of Federal Regulations." The agenda items reflect the status of the Bank Board's regulatory projects as of July 31, 1989.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"), Pub. L. 101-73, 103 Stat. 183, signed into law on August 9, 1989, reorganizes the regulation of the thrift industry and the functions currently performed by the Bank Board. Under FIRREA, the regulatory responsibilities of the Bank Board were transferred to a new Office of Thrift Supervision ("OTS") in the Department of the Treasury and to the Federal Deposit Insurance Corporation ("FDIC"). Revisions to Bank Board regulations transferred to OTS and FDIC and new regulatory initiatives implementing FIRREA will be published in the **Federal Register** as they are promulgated and will appear in subsequent editions of the Unified Agenda under the appropriate agency.

ADDRESS: Information Services Division, Office of the Secretariat, Federal Home Loan Bank Board, 1700 G Street NW., Washington, DC 20552.

FOR FURTHER INFORMATION CONTACT: See persons listed below for specific agenda items.

Dated: August 2, 1989.

John F. Ghizzoni,
Assistant Secretary.

FEDERAL HOME LOAN BANK BOARD (FHLBB) — Proposed Rule Stage

3899. INSURANCE TERMINATION PROVISIONS

Legal Authority: 12 USC 1464; 12 USC 1727; 12 USC 1730

CFR Citation: 12 CFR 565

Legal Deadline: None

Abstract: The Bank Board is reviewing a number of issues relating to the extent to which institutions insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") that terminate their insured status in connection with transfers by operation of law must pay a final insurance premium to the FSLIC. As part of its review, the Bank Board solicited public comment to ascertain whether to issue a proposal in this area. On October 7, 1986, the Bank Board adopted a clarifying amendment to the definition of "transfers" set forth in its statement of policy regarding mergers and transfers of assets. (12 CFR 571.5(a)). However, as the clarification indicates, the interpretation did not specifically address the separate issues of whether an insured institution undertaking a transfer of assets and liabilities by operation of law in which the surviving entity is not FSLIC-insured must pay a final insurance premium to the FSLIC, and if so, the amount of such payment. The Bank Board has been reviewing this so-called "exit premium" issue on an ongoing basis and as yet has made no final determination with respect to this matter. (cont)

CFR Citation: 12 CFR 563

Legal Deadline: None

Abstract:

In conjunction with its current proposal to amend its regulations to establish minimum capital requirements for FSLIC-insured institutions, the Bank Board is addressing whether the final capital regulation should contain specific language defining a particular level of capital as an "unsafe and unsound condition to transact business" for the purpose of activating the Board's statutory authority to appoint a conservator or receiver for an institution. The Board is considering setting its floor capital requirement at a level of 1.5% of total assets, to be held in the form of core equity capital.

Significance: Agency Priority

FHLBB — Proposed Rule Stage

Legal Authority: 12 USC 1437; 12 USC 1725

CFR Citation: 12 CFR 500 et seq.

Legal Deadline: None

Abstract: The Bank Board is reviewing issues to be addressed through the implementation of the mutual holding company provisions of the National Housing Act ("NHA") added by the Competitive Equality Banking Act of 1987 ("CEBA"). The provisions permit any insured institution to reorganize to form a holding company by chartering an interim savings institution whose stock is wholly-owned by the mutual institution and transferring substantially all of the mutual institution's assets and liabilities (including all insured liabilities) to the interim savings institution.

Abstract: The Bank Board recently adopted amendments to 12 CFR 563.19 which modified the schedule for calculating the permissible deductible for fidelity bonds. See RIN 3068-AA71. The Bank Board is now seeking comment on whether additional, more substantive revisions to the fidelity bond regulations for all insured institutions are necessary at this time.

Among the revisions under consideration are changes to The American Surety Association Form No. 22 Blanket Bond, and to the amount of the bond required.

Abstract: The Bank Board is proposing to amend its regulations pertaining to transactions between institutions whose accounts are insured by the Federal Savings and Loan Insurance Corporation and affiliates of those institutions. The proposed amendments (1) define and clarify the applicability of the limitations and prohibitions specified in sections 23A and 23B of the Federal Reserve Act and (2) clarify the applicability of the limitations and prohibitions specified in the Board's regulations existing prior to the Competitive Equality Banking Act (CEBA). The proposed amendments are intended to further the Congressional intent codified in CEBA by providing parity between a bank and a thrift holding company with respect to the treatment of transactions between the subsidiary depository institution and its affiliates engaged in activities permissible for a bank holding company under the Bank Holding Company Act and the regulations thereunder.

removed from membership under the National Housing Act by virtue of the termination of Federal Savings and Loan Insurance Corporation ("FSLIC") insurance of their accounts. Specifically, the proposal would amend Part 523 of the Board's Rules and Regulations for the Federal Home Loan Bank System, to provide that an FHLBank member that terminates its status as an FSLIC-insured institution and is thereby removed from FHLBank membership (as well as any other member whose membership is terminated pursuant to section 6(i) of the Federal Home Loan Bank Act), may be readmitted as a member only after the expiration of a five year period following its departure from the FHLBank System.

There are no alternatives that would be less burdensome than the proposal in addressing the concerns expressed above.

The potential costs and benefits of the proposed regulation on the industry have not been quantified.

Abstract:

The Bank Board is proposing to amend its rules governing the Election of Directors of the Federal Home Loan Banks ("Banks") due to its concern about the appearance of conflicts of interest that may exist when officers or directors of institutions that are of regulatory concern are elected to positions as directors of the Banks. The Board feels that it is not be appropriate for persons who have been the subject of regulatory concern to serve on the boards of the Banks as they are an important part of the supervision and regulation of the thrift industry.

Abstract:

The Bank Board is proposing to amend its regulations concerning capital requirements for FSLIC-insured institutions. The proposal is more risk-based than the Board's current capital regulations, in order to ensure that institutions engaging in higher risk activities are adequately capitalized. The proposal also addresses interest-rate risk and collateralized borrowing.

In connection with the proposal, the Bank Board has proposed for comment a description of proposed methodologies to be used in calculating the interest-rate-risk component of the proposal.

Abstract: The Board has amended its regulations governing institutions insured by the Federal Savings and Loan Insurance Corporation by adopting a statement of policy and by amending its rules to clarify that insured institutions must account for securities held for investment sale and/or trading in accordance with generally acceptable accounting procedures ("GAAP"). The policy statement requires an insured institution's board of directors to document and monitor its investment in policy and strategies; discuss the appropriate documentation of investment decisions; summarize GAAP applicable to securities held for investment,sale, and/or trading; and offer guidance on the application of GAAP by insured institutions in determining when securities should be accounted for as a security held for trading. The Board's intent is to provide guidance and clarifications to insured institutions on the accounting for and classification of investment in securities within the confines of existing accounting literature.

Abstract: The Bank Board has revised 12 CFR Parts 509 and 512, its regulations governing the rules of practice and procedure in adjudicatory proceedings. The revisions to Part 509 streamline prehearing procedures with a view toward expediting the proceedings, clarifying the authority of the Administrative Law Judges appointed to conduct the proceedings, and adding several new provisions. The revisions to Part 512 are of a clarifying and technical nature and update several provisions of the rules relating to the conduct of investigative and formal examination proceedings.

There are no alternatives that would be less burdensome than the proposed amendments in addressing the concerns expressed above.

The potential costs and benefits of the proposed regulations on the industry have not been quantified.

Abstract:

The Bank Board has amended 12 CFR 563.19 by deleting the current schedule for calculating the permissible deductible amount for bonds for directors, officers, employees, and agents of FSLIC-insured institutions. A new method for calculating the permissible deductible has been instituted making the maximum permissible deductible the higher of either five percent of tangible capital as defined in 12 CFR 563.9-8(b)(12) or $50,000, with some exceptions.

In addition, the allowance for institutions to increase the permissible deductible to a maximum of three times the permissible amount if losses under the bond exceed 50 percent of the premium has been eliminated as it is unnecessary due to the increase in the permissible deductibles.

Abstract: The Bank Board amended 12 CFR 563.8-1, its regulations governing the issuance of subordinated debt securities by insured institutions, to codify certain interpretations of the rule and to incorporate technical revisions to the rule which are necessary due to recently-enacted legislation.

The rule also modifies the bases for supervisory objection to approval of a subordinated debt application by giving the Office of Regulatory Activities ("ORA") the authority to develop guidelines outlining the bases for supervisory objection to the issuance of subordinated debt. The Principal Supervisory Agent ("PSA") is given the authority to approve or deny subordinated debt applications, subject to an appeal process.

The rule also includes a standard set of conditions which would apply to approvals of applications to include subordinated debt in regulatory capital.

Abstract: The Bank Board has revised its applications processing regulations with regard to the approval of the formation of savings and loan holding companies by insured institutions. The revisions include automatic approval of applications for routine reorganizations involving the formation of savings and loan holding companies, subject to certain requirements. Applications will be automatically approved 30 calendar days after filing if the Board has not notified the applicant in writing that more information is required, that it is materially deficient, or that it is denied.

The rule also provides for an improved approval process for permission to organize an interim federal institution for insurance of accounts, for Federal Home Loan Bank Membership and merger of any interim institution that is part of the reorganization transaction.

Significance: Agency Priority

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 541.0 et seq.; 12 CFR 542.1 et seq.

Abstract: The Bank Board proposed extensive revisions to its regulations regarding the corporate governance of Federal associations in order to update and clarify these regulations. Due to the magnitude of the revisions, the Bank Board presented the proposal in parts, issued separately for public comment. The proposed regulations would have reorganized parts of Subchapter C (the regulations for federally chartered associations) and amended and added sections to provide a more cohesive and complete body of rules for the corporate governance of Federal associations. Part I would have provided definitions and rules for the organization and incorporation of Federal associations.

The proposed rule would have applied equally to all insured institutions.

The time period for Board action on the proposal expired on July 10, 1989. It is anticipated that the proposal will be formally withdrawn and reproposed at a later date.

Abstract: The Bank Board has revised its regulations concerning the releases by federally chartered savings and loan associations and savings banks of customer financial records. It generally authorizes a Federal association to disclose the names and addresses of its customers to any party unless the customer objects, but would prohibit the disclosure of confidential information regarding customers' savings or loan accounts subject to specific exceptions. It also modifies the requirement that Federal mutual associations obtain the prior approval of either the Board or a Supervisory Agent before releasing their customer records.

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Commission anticipates having under consideration during the period from October 1, 1989, to September 30, 1990, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: Joseph C. Polking, Secretary, 1100 L Street NW., Washington, DC 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section.

The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include all petitions for rulemakings which are under staff review.

In addition, the Commission maintains a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda. This will be made available to the public, including the press and interested persons.

Joseph C. Polking,
Secretary.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from October 1, 1989, through April 1, 1990. The next semiannual agenda will be published in April 1990.

DATES: Comments about the form or content of the agenda may be submitted any time during the next six months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its October 1989 Agenda as part of the October 1989 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next six months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous agenda and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

FEDERAL RESERVE SYSTEM (FRS) — Proposed Rule Stage

3947. ● REGULATION: C -- HOME MORTGAGE DISCLOSURE

Legal Authority: 12 USC 2803(e); 12 USC 2803(h)

CFR Citation: 12 CFR 203

Legal Deadline: Other, Statutory, January 1, 1990.
As of January 1, 1990, lenders are required to collect the new information.

Abstract: Before year-end, the Board will propose for public comment and adopt revisions to Regulation C to implement amendments to the Home Mortgage Disclosure Act (HMDA) that were contained in the Financial Institutions Reform, Recovery and Enforcement Act, signed August 9, 1989. Currently, HMDA requires covered institutions to disclose and report information regarding their mortgage lending. Among other things, the statutory amendments extend the coverage of HMDA to include most mortgage lenders. Covered institutions will be required also to maintain and disclose information regarding mortgage loan applications, and information regarding the race, gender and income of applicants and borrowers. Under the amendments, banks and other depository institutions with $30 million or less in assets will not be required to report data on the race, gender, and income level of applicants and borrowers. Institutions with $10 million or less in assets remain exempt from all requirements of the Act. Therefore, it is not expected that the proposals will have a significant economic impact on the smallest mortgage lenders; they will have significant economic impact on institutions (cont)

Legal Authority: 15 USC 1693 et seq Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Legal Deadline: None

Abstract: The Board is conducting a review of Regulation E, which implements the Electronic Fund Transfer Act, and establishes the basic rights, liabilities, and responsibilities of consumers who use electronic fund transfer services and of financial institutions that offer these services (whether or not these institutions hold the consumer's account). The review will consider whether any provisions of the regulation are in need of updating and whether any substantive changes are necessary because of technological and other developments. The Board will also consider whether to make any legislative recommendations for statutory changes.

Public comment will be requested on any regulatory proposals that may be developed following the review. It is not anticipated that the revisions would have a significant economic impact on a substantial number of small banks.

Abstract: During the next three months the Board may address the ability of

lenders subject to Regulations G and U to transfer a credit between these two types of lenders without treating the transaction as creating a new extension of credit. The regulations currently permit a transfer only between lenders subject to the same regulation. Several law firms have expressed an interest in such a deregulatory amendment.

Abstract: The Board will consider whether to publish for public comment a proposed amendment to Regulation K to permit U.S. banking organizations to engage in a broader range of activities abroad. Specifically, the Board will consider whether U.S. banking organizations should be permitted to underwrite, distribute, and deal in equity securities outside the United States in excess of the current restriction in Regulation K, which prohibits a subsidiary of a U.S. banking organization from making an underwriting commitment for shares of an issuer in excess of: (i) $2 million, or (ii) 20 percent of the capital and surplus of the issuer's voting shares, unless covered by binding commitments from subunderwriters or other purchasers.

In addition, the Board will consider whether the purchases of shares of companies held in trading accounts should continue to be subject to the investment procedures set out in Regulation K at 12 CFR 211.5(c). This proposal may be considered in connection with the broad-based review of Regulation K to be issued by year-end. See RIN 7100-AA98. Section 3(b) of the International Banking Act of 1978 requires that Board review and revise Subpart A of Regulation K every five years, beginning in 1979.

Abstract: In 1989, the Board will conduct a broad-based review of Subpart A of Regulation K (International Operations of United States Banking Organizations), as required every five years by the International Banking Act. This review will include consideration of the powers of Edge corporations and additional overseas activities of U.S. banking organizations, including expanded authority to underwrite and deal in equity securities outside the United States. In addition, Subpart B (Foreign Banking Organizations) will be reviewed, particularly with respect to the effect of the revisions of the Standard Industrial Classification (SIC) codes on that Subpart. Subpart C (Export Trading Companies) will be reviewed with a view toward bringing that Subpart into conformity with the Export Trading Company Act Amendments of 1988. Two items that have been listed on the Board's Semiannual Agenda will now be considered in connection with this broad-based review. These items relate to restrictions on transactions with affiliates by Edge corporations (Docket No. R-0550; RIN 7100-AA58) and a possible amendment to Section 211.3(b)(g) governing (cont)

Abstract: During the next two months, the Board will conduct a zero-based review of Regulation P, which implements the Bank Protection Act of 1968, and establishes minimum security standards for Federal Reserve Banks and for State member banks. The review will consider whether any provisions of the regulation are outdated and whether any substantive

changes are necessary because of new technological developments. The regulation will also be reorganized and revised for simplicity and clarity. 3954. PRIVATE SECTOR PRESENTMENT (DOCKET NUMBER: R-0631)

Legal Authority: 12 USC 4008(c)

CFR Citation: None

Legal Deadline: None

Abstract: In April 1988, the Board requested comment on whether it should require paying banks to pay for checks presented by private sector collecting banks before 2:00 p.m. in same-day funds and without imposing presentment fees (53 FR 11911, April 11, 1988). The purpose of such a regulation would be to speed the forward collection of checks by requiring paying banks to accept checks without charging a fee later in the day, thus increasing the number of checks that can be collected that day. It would give private sector collecting banks the same rights vis-a-vis paying banks as the Federal Reserve Banks now have.

The Board has not yet made a specific proposal to amend its regulation in this regard. Rather, it merely requested comment on the idea of same-day payment in private sector presentments. If such a regulation were to be adopted, small entities that might be affected include small banks and State and local governments.

The Board will review the public comments and determine whether to propose specific regulations within the next four months.

Legal Authority: 15 USC 1691 et seq as amended Equal Credit Opportunity Act

CFR Citation: 12 CFR 202

Legal Deadline: None

Abstract: In July 1989, the Board published for comment revisions to Regulation B to implement amendments to the Equal Credit Opportunity Act contained in H.R. 5050, enacted in October 1988 (54 FR 29734, July 14, 1989). The Board's proposal would require creditors (1) to give written notice to business applicants (either at the time of application or when credit is denied) of their right to a written statement of the reasons for credit denial or other adverse action, and (2) to maintain records used in evaluating credit applications for 25 months. The proposal closely parallels the rules that govern nonbusiness transactions (with one or two differences that would offer creditors some flexibility). Creditors could follow the present nonbusiness rules and be in full compliance with the amended regulation.

The statutory changes were intended to expand the ECOA rights available to small-business owners. Under the Board's proposal, the new rules would apply to credit applications from businesses with gross revenues of $500,000 or less; other applications and trade credit transactions would (cont)

Legal Authority: 12 USC 248(k); 12 USC 461(a)

CFR Citation: 12 CFR 204

Legal Deadline: None

Abstract: In May 1986, the Board issued for comment rules to clarify the definition of "deposit" in Regulation D to include the interest or liability associated with a borrowing in the form of certain sales of assets and related transactions by a depository institution (51 FR 16855, May 7, 1986). These transactions include a sale of assets that involves a full guarantee by the institution that, in effect, substitutes the institution's credit standing for that of the ultimate borrower and in which the institution retains the risk of borrower default after the asset is sold.

Further, the regulation currently treats obligations of an affiliate as deposits of the depository institution to the extent the proceeds are provided to the depository institution. The Board proposes to exclude proceeds received from a sale of assets without recourse to the affiliate. The proposal also would clarify the application of Regulation D to certain of these transactions involving organizations effectively controlled by the depository institution even though not formally affiliated. Abstract: In December 1986, the Board requested public comment on a proposal to permit bank holding companies to engage in real estate investment activities within certain limits (52 FR 543, January 7, 1987). The proposed limits are designed to ensure that conduct of the activity does not result in unsafe or unsound practices, unfair competition, conflicts of interest or other adverse effects.

The Board requested public comment on a number of specific items, including whether real estate investment activities may be deemed to be closely related to banking and a proper incident thereto for purposes of Section 4(c)(8) of the Bank Holding Company Act; whether the proposed limits on the size, scope, and manner in which the activity would be conducted are appropriate; whether nonbank companies owned by holding company banks should be prohibited from conducting these activities; and whether the Board should establish special

Abstract: In November 1987, the Board requested comment on whether, in evaluating proposals submitted under section 3 of the Bank Holding Company Act, the Board should consider the impact of real estate activities of the bank to be acquired by the bank holding company on the financial condition of the bank and bank holding company, and, where appropriate, should prohibit banks and savings banks that are acquired by bank holding companies from directly engaging in real estate investment and development activities (52 FR 42301, November 4, 1987).

The Board also requested comment on whether member banks that are not in a bank holding company should be made subject to the interaffiliate lending restrictions of section 23A of the Federal Reserve Act in their dealings with real estate investment and development subsidiaries of the bank.

Abstract: A provision of Regulation Y permits a State bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under State law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under Federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

In December 1988, the Board requested public comment regarding whether this rule, as it applies to nonbanking companies owned by state banks in a holding company system, continues to be valid and appropriate in light of enactment of the (cont)

Abstract: In June 1989, the Board requested comment on several proposals that would modify its payments system risk reduction program (54 FR 26090, June 21, 1989). The proposals concerned pricing of daylight overdrafts (R-0668, previously proposed in Docket R-0592, 51 FR 45042, December 16, 1986), book-entry securities transfers (R-0669), and foreign bank agencies and branches (R-0670). In conjunction with the proposals, the Board issued three policy statements regarding private delivery-against-payment systems (R-0665), offshore clearing and netting systems (R-0666), and rollovers and continuing contracts (R-0667).

In addition, as another facet of its risk reduction program, in March 1989, the Board requested comment on changes in the way the Federal Reserve Banks treat automated clearing house transactions (Docket R-0661, 54 FR 8822, March 2, 1989). It is not expected that these actions will have a significant economic impact on a substantial number of small entities, because small entities do not usually participate in large-dollar wire transfer systems.

Abstract: The last Semiannual Agenda included a possible amendment to the Board's regulation governing the establishment of foreign operating subsidiaries by member banks. The amendment would eliminate the requirement in section 211.3(b)(9) of Regulation K that a member bank's operating subsidiary be established only where required by local law or regulation. The revision is intended to promote the efficiency of member banks' foreign operations. The Board will consider this item in connection with the broad-based review of Regulation K expected by the end of the year. See RIN 7100-AA98.

The proposal would not have a significant economic impact on a substantial number of small businesses because it affects only U.S. banks operating abroad.

Legal Authority: 12 USC 611 et seq

CFR Citation: 12 CFR 211

Legal Deadline: None

Abstract: In August 1985, the Board published for comment proposed regulations that would restrict lending by an Edge Corporation to its affiliates where the Edge Corporation is not subject to the restrictions of Section 23A of the Federal Reserve Act (12 USC 371c) because it is not owned by a U.S. insured bank (50 FR 35238, August 30, 1985). In taking this action, the Board noted the increasing number of owners of Edge Corporations that are not subject to Federal banking supervision and the potential adverse effects that might result from such affiliations, such as the impairment of the Edge's ability to act as an impartial arbiter of credit. The Board requested comment on the effect of the proposal on existing Edge Corporations, especially those owned by foreign banks and whether any exemptions from the restrictions are appropriate.

It is not expected that the proposal would have a significant economic impact on a substantial number of small businesses, because it applies only to organizations involved in international banking. (cont)

Abstract: Several national securities exchanges have proposed trading new stock-index-related products, often called "index participations." Because these products may not fit the existing categories of securities in Regulation T, it is expected that the Board will address the marginability of these products at broker-dealers.

It is not anticipated that this proposal will affect a significant portion of the overall lending activities of a substantial number of small firms.

Because of pending litigation, further review of this issue by the Board is indefinite.

Legal Authority: 12 USC 1843(c)(8)

CFR Citation: 12 CFR 225.25(b)(9)

Legal Deadline: None

Abstract: In September 1987, the Board requested public comment on whether the Board should authorize bank holding companies to acquire thrift institutions as a general matter under section 4(c)(8) of the Bank Holding Company Act. The Board currently permits bank holding companies to acquire thrift institutions only if the thrift is failing or has failed, and the acquisition is likely to result in revitalization of the thrift.

The Board requested comment on whether changes in the economic and regulatory environment, in particular the expansion of the powers of thrifts and the growth in state initiatives authorizing interstate banking, justify revisions of the Board's policy and the authorization of thrift acquisitions by bank holding companies. The Board also requested comment on what, any, conditions the Board should impose on bank holding companies seeking to acquire thrifts. The provisions of the

recently enacted Financial Institutions Reform, Recovery and Enforcement Act of 1989 (Act), which became effective on August 9, 1989, specifically permit the (cont)

3967. REGULATION: Z - TRUTH IN LENDING (DOCKET NUMBER: R-0655)

Legal Authority: 15 USC 1604, as amended, Truth in Lending Act

CFR Citation: 12 CFR 226

Legal Deadline: Other, Statutory. The Board's rules apply to open-end credit plans entered into or applications for such plans that are distributed on or after November 7, 1989.

Abstract: In June 1989, following review of public comments received on its January 1989 proposal, the Board published a final rule to amend Regulation Z to implement provisions of the Home Equity Loan Consumer Protection Act of 1988, which requires creditors to provide consumers with more information for open-end credit plans secured by the consumer's dwelling, and imposes substantive limitations on these plans (54 FR 24670, June 9, 1989).

Under the amended regulation, creditors have to provide additional information at the time an application is provided to consumers, including information about the payment terms, fees imposed under the plan, and, for variable-rate plans, information about the index and a fifteen-year history of changes in the index values. Creditors also are required to provide consumers with a brochure prepared by the Board (or with one substantially similar) that describes home equity plans. In addition, new duties are imposed on third parties who provide applications to consumers, and the rules relating to advertisements for home equity plans have been modified. (cont)

Additional Information: ABSTRACT CONT: The final rule also amends Regulations Z to implement new substantive limitations imposed by the law on home equity plans. Small institutions engaged in home equity lending could incur additional expenses, including costs to revise and reprint disclosure forms, to acquire and distribute the home equity brochures, and possibly to modify their contracts. They also will need to review and possibly modify their advertisements for home equity plans. The Board has revised Appendix G of the regulation to provide disclosure samples and model clauses to assist creditors in preparing their disclosures.

3968. REGULATION: Z - TRUTH IN LENDING (DOCKET NUMBER R-0654)

Legal Authority: 15 USC 1604 as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Legal Deadline: Final, Statutory. Final regulations were effective April 3, 1989, 150 days from enactment of the law.

Abstract: In April 1989, following review of public comments received on its December 1988 proposal, the Board adopted revisions to Regulation Z to implement amendments to the Truth in Lending Act that were part of H.R. 515, the Fair Credit and Charge Card Disclosure Act of 1988, enacted on November 3, 1988 (54 FR 13855, April 6, 1989). The statutory amendments require credit and charge card issuers to provide certain credit disclosures in telephone solicitations and in direct mail and other applications and solicitations to open credit and charge card accounts. Card issures will also be required to give cardholders written notice regarding the renewal of their credit and card accounts before a cardholder has to pay a fee to renew the account. In addition, the law requires credit card issures to provide cardholders with written notice of a change in the entity providing credit insurance on credit card accounts.

The Board also revised Appendix G of Regulation Z to provide model forms and clauses to assist creditors in preparing their disclosures.

Additional Information: ABSTRACT CONT: Regardless of size, most commercial banks offer credit card plans to consumers. The regulations do not distinguish between large and small creditors. Consequently, creditors of all sizes will incur similar types of costs. However, the magnitude of these expenses will depend upon the level of a particular creditor's credit card plan operation and the type of marketing employed. With respect to bank cards, the majority of credit card accounts are held by a relatively small number of large card issuers. These institutions also probably account for a substantial proportion of the credit card solicitations. Consequently, large card issuers will probably incur a larger aggregate cost, relative to smaller card issuers, to comply with the new rules, although on a cost-per-solicitation or cost-per-account basis these costs will probably be relatively small.

Legal Authority: 12 USC 4001 et seq

CFR Citation: 12 CFR 229.36

Legal Deadline: None

Abstract: In June 1988, the Board issued for comment a proposed amendment to Regulation CC that would prohibit banks from issuing teller's checks unless a depositary bank located in the same check processing region as the issuing bank would normally receive credit for the check as early as credit for a check drawn on the issuing bank. The purpose of the amendment is to address the problems connected with certain delayed disbursement practices.

Following review of public comments, and in lieu of adopting the proposed regulation, the Board issued a policy statement discouraging the delayed disbursement of teller's checks and cashier's checks (54 FR 13839, April 6, 1989). The policy statement applies to all banks regardless of size. It is not expected that the policy will impose significant costs on small banks.

Legal Authority: 12 USC 4001 et seq

CFR Citation: 12 CFR 229

Legal Deadline: None

Abstract: In November 1988, the Board adopted a rule to amend its Regulation CC to treat "bank payable through checks" as local or nonlocal based on the location of the bank on which they are written rather than the location of the bank through which they are payable. In conjunction with the final rule, the Board issued proposed amendments to Regulation CC designed to alleviate the operational difficulties and additional risks resulting from the final rule. Following review of the public comments, the Board, in July 1989, issued a final rule that provides for certain labeling requirements for bank payable through checks and shifts some of the risk of loss due to a late return of a bank payable through check to the bank on which the check is written (54 FR 32035, August 4, 1989). The proposed rule would affect all institutions that issue payable through checks. A number of these institutions would be small banks, generally credit unions.

Abstract: The Board's Regulation CC requires banks to make funds available to their customers within specific times, to disclose their fund availability policies to their customers, and to handle returned checks expeditiously. Since the publication of Regulation CC, the Board has received numerous requests from banks and others for clarification of various provisions of the regulation. In November 1988, the Board issued for comment proposed changes to Regulation CC that respond to many of the questions and provide assistance to banks in understanding and complying with the regulation.

Following review of public comments, the Board adopted final amendments in April 1989 (54 FR 13841, April 6, 1989).

Adoption of the final amendments did not result in any significant economic impact on small entities.

3972. PROPOSALS FOR LONG-TERM IMPROVEMENT TO THE CHECK COLLECTION SYSTEM (DOCKET NUMBER: R-0622)

Legal Authority: 12 USC 4001 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In December 1987, the Board published for comment several proposals that have the potential to improve the check collection system (52 FR 47112, December 11, 1987). They are, however, long-term proposals that are not likely to be implemented in the immediate future. They include bar-code endorsements, digitized image processing of checks, electronic clearing zones, and an electronic clearing house.

If these were to be introduced, they would likely have a significant economic impact on a substantial number of small banks and small entities including State and local governments that use their services.

Because these are long-term proposals requiring extensive review, the Board does not expect action in the near future.

FEDERAL TRADE COMMISSION

16 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), and section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected date reflects an assessment by the FTC staff of the likelihood that the specified event will occur during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the notation of projected events in this agenda.

Several agenda items concern rulemaking proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding is likely to have a significant economic impact on such entities will depend upon the Commission's final determinations respecting the need for and the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents the judgment of Commission staff based upon information now available. These views should not be regarded as a final staff position nor should they be attributed to the Commission itself. The Commission will independently address the issues presented on the rulemaking record in each proceeding.

Agenda items include the projected timing of certain future actions. In most instances, the dates of future events are listed by month, not by a specific day. Acquisition of new information, change of circumstances, or changes in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the agency contact person listed for each particular proceeding.

By direction of the Commission.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The Holder-In-Due Course Rule affects many sales that are financed by closed-end or open-end consumer credit; therefore, it may have a significant effect on a substantial number of small entities. The Commission has solicited comments and data on this issue and, if the Rule has had an effect, whether it should be amended to minimize what kinds of costs the Rule has imposed on small entities, how the Rule has effected the availability and cost of credit for small entities and how creditors and sellers have adapted to the Rule. Abstract: The Magnuson-Moss Warranty Act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. To assess whether any changes are needed, the Commission conducted a regulatory negotiation process in which an advisory committee was charged to recommend to the Commission revisions to the rule that would facilitate the Congressional (cont)

CFR Citation: 16 CFR 436

Abstract: On December 21, 1978, the Commission issued a trade regulation rule applicable to franchises and other business opportunity ventures. The franchise rule took effect on October 21, 1979. The rule requires franchisors to give pre-sale disclosures to prospective investors before they pay money or become legally bound to pay. The disclosures provide material information and are designed to assure that potential investors have the information they need to investigate the franchise offer so they can make an informed investment decision. The Commission is considering whether to amend its trade regulation rule concerning franchises and business opportunity ventures. In particular, the Commission is considering whether to amend the rule's earnings claim and preemption provisions.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419

Legal Deadline: None

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in broadcast and print advertisements, as well as in point of sale information. In January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requested public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

3977. ● REVIEW OF THE SEWING MACHINE RULE

Legal Authority: 15 USC 41-58

CFR Citation: 16 CFR 401

Legal Deadline: None

Abstract: On June 30, 1965, the Commission promulgated the Sewing Machine Rule. The Rule states that the use of the word "automatic" or terms of similar import to describe a household sewing machine is an unfair or deceptive act. The need for the Rule, stated at the time of promulgation, was that use of the word automatic as a description of a sewing machine led consumers "to believe that merely by the twist of a dial or the flick of a lever they will be able to perform sewing operations." On April 19, 1989, the Commission initiated a rulemaking proceeding to determine whether or not the Sewing Machine Rule should remain in effect without changes or should be repealed. In an Advance Notice of Proposed Rulemaking, the Commission sought public comment on whether sewing machine technology and marketing have changed so that the Rule is no longer needed, and whether the Rule still provides any benefit.

Legal Authority: 15 USC 4401

CFR Citation: 16 CFR 307

Legal Deadline: Other, Judicial, July 31, 1989.
Deadline is for the NPR.

Abstract: On July 31, 1989, the Commission issued a NPR to amend its regulations under the Comprehensive Smokeless Tobacco Act of 1986, 15 U.S.C. 4401, and sought public comment. In 1986, the Commission had issued final regulations implementing the Act's requirements for the display of health warnings in the labeling and advertising of smokeless tobacco products and for the submission of plans specifying the method used to rotate, display, and distribute the mandated health warnings. The regulations exempted utilitarian objects that are sold or given to consumers for their personal use, that display the brand name, logo, or selling message of a smokeless product. The Commission's exemption of these items from the regulation's requirements was challenged in court and the Commission was ordered to delete this exemption. This proposed amendment deletes the previous exemption and proposes a method for the display of the mandated health warnings on utilitarian objects.

3979. REVIEW OF THE FUNERAL INDUSTRY PRACTICES RULE

Legal Authority: 15 USC 45; 15 USC 46(g); 15 USC 57(a)

CFR Citation: 16 CFR 453

Legal Deadline: None

Abstract: The funeral industry practices rule, which became fully effective on April 30, 1984, seeks to increase consumer access to accurate information about prices and legal requirements prior to and at the time of purchase of funeral goods and services. The Rule: (1) requires funeral directors to provide consumers with written itemized pre-sale disclosures; (2) prohibits misrepresentation of legal and cemetery requirements and the preservative or protective value of embalming, caskets, and vaults; (3) prohibits funeral directors from requiring a casket for cremations, or any other tie-in arrangements; (4) prohibits funeral directors from charging for goods and services not specifically ordered, such as embalming, unless required by law; and (5) requires funeral directors to give, on request, price information over the telephone. The Rule provides that no later than four years after its effective date, the Commission will begin a rulemaking proceeding to determine whether the Rule should be amended or terminated. (cont)

3980. MAIL ORDER MERCHANDISE

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Legal Deadline: None

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any

claims made concerning shipping dates or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. By subjecting sellers (cont)

Costs relating to the rule may include the cost of establishing a system for monitoring and recording orders, shipments, delays, cancellations, consents to delays, and refunds; the costs of complying with the rule's notification requirements regarding delays (printing, postage, etc.); the cost of processing refunds; and additional inventory costs. Staff is considering whether to recommend to the Commission that the rule be amended to cover orders placed by telephone or any other means, and whether the rule's definition of "properly completed order" for credit sales should be amended to mean the time the seller receives sufficient information to charge the buyer's account. On October 27, 1988, the Commission published an ANPR inviting public comment on these questions. After analyzing these comments and other information, the staff will recommend that the Commission either publish an NPRM or end the inquiry.

3981. REVIEW OF THE PREMERGER NOTIFICATION RULES AND REPORT FORM

Significance: Agency Priority

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, (Appendix)

Legal Deadline: None

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. These rules are continually reviewed in order to improve the program's effectiveness and reduce the paperwork burden on the business community. In September 1988, the Commission proposed to amend these rules to exempt the acquisition of small percentages of an issuer's voting securities, and proposed two alternative amendments that would provide other special treatment for acquisitions of small percentages of voting securities. 3982. APPLIANCE LABELING RULE -- ENERGY POLICY AND CONSERVATION ACT

Legal Authority: 42 USC 6294 National Energy Conservation Policy Act; PL 94-163 Energy Policy and Conservation Act, Sec 324, 1975

CFR Citation: 16 CFR 305

Legal Deadline: Final, Statutory, July 1, 1989.
See section 2(d)(2)(B) of Pub. L. 100-357, June 28, 1988, 102 Stat. 672.

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator- freezers;

(2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. In 1987, the Commission amended the rule to include central air conditioners and heat pumps and to include two new types of furnace under the rule's coverage. The provisions took effect on June 7, 1988. Since the Commission's rule implements the requirements of EPCA, most of the costs imposed on industry members may not be attributable to the rule. The rule applies mainly to manufacturers of household appliances but does impose some burdens on distributors and retailers. Some of those entities may be small businesses under section 610 of the Regulatory Flexibility Act. Therefore, the Commission (cont)

The Commission has terminated that review and has begun another rulemaking to consider several amendments that would make the rule's energy usage disclosure scheme more efficient for consumers and business. The Commission has estimated that the proposals will reduce the paperwork burden of compliance by 5 percent. Pursuant to recent amendments to EPCA, the Commission issued a rule prescribing labeling requirements for fluorescent lamp ballasts.

3983. TRANSISTOR RULE

Legal Authority: 15 USC 41 et seq., Federal Trade Commission Act

CFR Citation: 16 CFR 414

Legal Deadline: None

Abstract: The Transistor Count Rule states that it is an unfair method of competition and an unfair or deceptive act or practice in connection with the sale of radio receivers (including transceivers) to represent that a radio set contains a specified number of transistors when the transistors counted do not function to detect, amplify, or receive radio signals. The rule was adopted May 4, 1968 and became effective on December 10, 1968. The Commission seeks comment on whether or not changes in technology and marketing over the last twenty years have rendered the rule obsolete and therefore no longer in the public interest. The Commission has issued an NPR asking for comment on the continued viability of the rule and whether it should be repealed.

3984. RETAIL FOOD STORE ADVERTISING AND MARKETING PRACTICES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 424

Legal Deadline: None

Abstract: The Commission's Rule on Retail Food Store Advertising and Marketing Practices states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. If a store runs out of advertised products, it is in violation of the rule even if the store noted the limitations on availability in its advertisement and even if the store provides rainchecks or substitute items. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertising-induced purchasing trips are not fruitless, and that store prices accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand, and costs associated with the monitoring of price changes, changing marked prices, training employees to comply with the rule and keeping records to prove compliance. Additional Information: ABSTRACT CONT: The rule may also discourage the advertising of certain kinds of products, such as perishables or goods that are available to the store only in limited supply. The staff concluded from a careful review of the rule's effects that the costs the rule imposes on consumers in the form of higher grocery prices significantly exceeds its benefits. On April 21, 1988, the Commission decided to modify the rule so that a store could comply by clearly and adequately disclosing in its advertisements that there are limitations on availability, or by offering rainchecks or substitute items if supplies run out. On August 28, 1989, the final rule, as amended, became effective.

[Ex Parte No. 420 (Sub-No. 17)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 89-12, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive order concerning Regulatory Agendas, the Commission is publishing an agenda of: (1) Current and projected rulemakings and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: A list of proceedings appears below containing information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda also identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget which is to be published in a single issue of the **Federal Register** in October 1989. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal Government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: August 4, 1989.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Andre, Lamboley, and Phillips.

Noreta R. McGee,

Secretary.

Legal Authority: 49 USC 10321; 5 USC 553

Abstract: The Commission is considering whether its regulations should be revised by changing the regulations governing the form and volume of supplemental matter to rail carrier cost recovery tariffs filed pursuant to Ex Parte No. 290 (Sub-No. 2), Railroad Cost Recovery Procedures. Present regulations provide that such tariffs be published with expiration dates and they may be maintained without regard to the amount of supplemental matter in effect. Informal criticisms have been received by the Commission which indicate that the tariffs have become extremely cumbersome to follow and apply. In view of these criticisms, the Commission is concerned that the tariffs are not being published in a manner which is consistent with the public interest. Comments dealing with problems encountered by users of the rail carrier cost recovery tariffs are sought as well as suggestions for rule changes.

Legal Authority: 49 USC 10505

CFR Citation: 49 CFR 1039

Legal Deadline: None

Abstract: 49 USC 10505 requires that the Commission exempt from regulation the movement by rail of traffic for which it finds continued regulation no longer necessary to serve the Nation's transportation policy objectives and to protect shippers from abuse of market power by the railroads. In examining the transportation characteristics and markets of various commodities moving by rail, there appear to be many products for which sufficient competition exists among transportation alternatives so that regulation may no longer be necessary. Exemption of such commodities should provide increased rate and service flexibility for railroads to meet shippers' needs and to compete more effectively for the subject traffic. Anticipated benefits include lower rates and improved service, at a possible "cost" of increased price instability and competition to alternative transport firms.

Abstract: The Commission is proposing rules that will establish procedures by which the Commission annually will (a) announce the revenue-to-variable cost ratio required by 49 USC 10731(e) to apply for the following calendar year; (b) monitor and take necessary action to ensure continued compliance by the railroads with 49 USC 10731(e); and (c) prohibit further rate increases, including those authorized under 49 USC 10707a(a)-(d), on recyclables having revenue/variable cost ratios in excess of the statutory cap level until such rates fall to below the cap level or the statutory cap level increases by Commission order.

Abstract: The Commission is considering whether to modify its procedures to increase certain environmental notice periods and the information included in those notices. The modifications would also require service of environmental notices on designated parties, would substitute a revamped environmental notice for the former report requirement, and would reclassify some categories of actions for which environmental analyses are required.

Abstract: The Commission proposes to revise significantly the general licensing application form (Form OP-1) and to make corresponding revisions in its regulations governing licensing procedures at 49 CFR 1160, 1162, and 1168 and the list of forms at 49 CFR 1003. The proposed OP-1 replacement form would integrate the information presently required in and supersede: (1) the existing Form OP-1 used by applicants for motor and water carrier, property broker, and household goods freight forwarder authority; and (2) Form OCCA-95 used by applicants for temporary and emergency temporary authority. The proposed form revisions are intended to simplify and unify the temporary and permanent authority licensing processes, minimize the application filing burdens on applicants and, in turn, create a more efficient application process, both for the public and the Commission.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA)

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration ("NCUA").

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of July 31, 1989. NCUA will also include this agenda in the "Unified Agenda of Federal Regulations."

DATES: This information is current as of July 31, 1989.

ADDRESS: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: For each regulation listed, the person(s) named in the listing, at the above address or listed telephone number.

SUPPLEMENTARY INFORMATION: The purpose of this agenda is to enable credit unions and the public to follow regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The agenda is divided into four parts: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions. Interpretive Rulings and Policy Statements (IRPS) promulgated by NCUA are also included in the agenda.

The agenda is published pursuant to NCUA Interpretive Ruling and Policy Statement Number 87-2 ("Developing and Reviewing Government Regulations," 52 FR 35231, September 18, 1987). Executive Order No. 12291 does not require independent executive agencies such as NCUA to publish a regulatory agenda, but NCUA has voluntarily decided to do so by including this agenda in the Office of Management and Budget's next publication of its "Unified Agenda of Federal Regulations."

Approved by the NCUA Board on August 21, 1989.

Becky Baker,

Secretary of the Board.

Additional Information: The NCUA Board approved a final rule that was submitted to the Office of Government Ethics, OPM, for approval, in June 1988. The rule was reviewed by OPM and recommended changes have been made. In April 1989, the Board adopted a final package, designated as Part 796, as agency policy and guidelines. The package will not become a final rule until after OPM adopts its own new rules and approves Part 796 as a final regulation.

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION (NRC)

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual regulatory agenda in accordance with Public Law 96-354 "The Regulatory Flexibility Act" and Executive Order 12291 "Federal Regulations." The agenda is a compilation of all rules on which the NRC has recently completed action or has proposed or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual agenda on April 24, 1989 (54 FR 16440).

ADDRESSES: Comments on any rule in the agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to the One White Flint North Building, 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m., Federal workdays. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the agenda.

The agenda and any comments received on any rule listed in the agenda are available for public inspection and copying at a cost of ten cents per page at the Nuclear Regulatory Commission's Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC 20555. Single copies of the NRC quarterly agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7082. Customers may call (202) 275-2060 or (202) 275-2171.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this agenda, contact Michael Lesar, Acting Chief, Rules Review Section, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone (301) 492-7758. Persons outside the Washington, DC, metropolitan area may call toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the agenda is only required semiannually in April and October, the NRC has chosen to update and publish its agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual agenda on April 24, 1989 (54 FR 16440).

Within each group, the rules are ordered according to the Regulation Identifier Number (RIN).

The information in this agenda has been updated through August 25, 1989. The date under the heading "Timetable," for the next scheduled action, is the date the rule is scheduled to be published in the **Federal Register.** The date is considered tentative and is not binding on the Commission or its staff. This regulatory agenda is intended to provide the public early notice and opportunity to participate in the NRC rulemaking process. However, the NRC may consider or act on any rulemaking even though it is not included in the regulatory agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The EDO initiated a procedure for the review of the regulations being prepared by staff offices that report to him to ensure that staff resources are allocated most effectively to achieve NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

Rules that have received EDO approval to date are identified by the symbol (+) at the beginning of the title. As additional rules receive EDO approval, they will be identified in subsequent editions of this agenda.

The NRC agenda lists rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291.

Eight rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

Dated at Bethesda, Maryland, this 15th day of August 1989.

For the Nuclear Regulatory Commission.

David L. Meyer,

Chief, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration.

NUCLEAR REGULATORY COMMISSION (NRC) — Prerule Stage

4026. NIGHT FIRING QUALIFICATIONS FOR SECURITY GUARDS AT NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Legal Deadline: None

Abstract: The rulemaking would ensure that security force effectiveness at nuclear power plants is not dependent on the time of day. Security guards currently are required to perform night firing for familiarization only. There is no requirement for standards to measure their effectiveness. The rule would change that by requiring that security guards at nuclear power plants qualify for night firing. The only alternative to rulemaking is to retain the current status.

Part 73, Appendix B, Part IV, will be amended to require reactor security guards to qualify annually in an NRC-approved night firing course with their assigned weapons. The amendment will standardize training and qualification in night firing and prepare power reactor guard forces to more effectively respond in the event of an incident occurring in limited lighting conditions. The cost to industry should be relatively modest since licensees already operate daylight firing training and qualification facilities and programs. The costs to NRC will also be minimal because it will only (cont)

NUCLEAR REGULATORY COMMISSION (NRC) Proposed Rule Stage

4028. PROPOSED REVISIONS TO THE CRITERIA AND PROCEDURES FOR THE REPORTING OF DEFECTS AND NONCOMPLIANCE

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Legal Deadline: None

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e), both of which require the reporting of safety defects by licensees. In addition, Part 21 requires reporting by non-licensees. This proposed amendment was prompted by TMI Action Plan Task II, J.4, and NRC staff experience with Part 21 and section 50.55 (e) reporting. The main objectives of the rulemaking effort are: (1) elimination of duplicate evaluation and reporting of safety defects; (2) consistent threshold for safety defect reporting in Part 21 and section 50.55(e); (3) establishment of consistent and uniform content of reporting under Part 21 and section 50.55 (e) and (4) establishment of consistent time limits for reporting defects.

Approximately 300 reports are submitted to the Commission annually under Part 21. Approximately 900 reports are submitted to the Commission annually under section 50.55 (e). These reports identify both plant-specific and generic safety defects for further NRC regulatory action. Under current rules, these reports have formed the basis for NRC issuance of numerous NRC generic communications. (cont)

Additional Information: ABSTRACT CONT:

Alternatives to this rulemaking approach which were considered, varied from establishment of a single rule for all reporting of safety defects and operating reactors events to maintaining status quo for defect reporting. All alternatives were rejected since they would not substantially improve the current safety defect reporting situation.

Current costs of reporting under Part 21 and section 50.55 (e) are estimated at $6.67 million annually for industry and $670,000 annually for NRC evaluations. It is anticipated that the annual industry reporting burden should be reduced by approximately $1.0 million; while NRC burden should remain the same. Additional industry burden, though minimal, is anticipated in the area of reissuing procedures for reporting and record keeping.

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Abstract: The proposed rule would revise the criteria for an extraordinary nuclear occurrence (ENO) to eliminate the problems encountered in the Three Mile Island ENO determination. It is desirable to get revised criteria in place in the event they are needed.

There are no alternatives to this rulemaking, as the current ENO criteria are already embodied in Subpart E of 10 CFR Part 140. The only way to modify these criteria, as this rule seeks to do, is through rulemaking.

There is no safety impact on public health or safety. The ENO criteria provide legal waivers of defenses. Industry (insurers and utilities) claims that a reduction in the ENO criteria could cause increases in insurance premiums. The final rule would also be responsive to PRM-140-1.

It is estimated that approximately 1.0 staff year of NRC time will be required to process the final rule.

4030. REVISED RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841; 05 USC 552

Abstract: The proposed rule would shorten and simplify existing Commission procedural rules applicable to domestic licensing proceedings by

comprehensively restating the current practice, and revising and reorganizing the statement of those rules to reflect current practice. The changes in this proposed rule would enable the Commission, directly and through its adjudicatory offices, to render decisions in a more timely fashion, eliminate the stylistic complexity of the existing rules, and reduce the burden and expense to the parties participating in agency proceedings. During his tenure, Chairman Zech requested re-submission of this proposed rule for possible re-consideration by the Nuclear Regulatory Commission. The Commission had deferred further consideration of this proposal which would have revised the Commission's procedural rules governing the conduct of all adjudicatory proceedings, with the exception of export licensing proceedings under 10 CFR Part 110.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would clarify in the Commission's regulations the use of the terms "important to safety" and "safety related" by adding definitions of these two terms and of "facility licensing documents" to 10 CFR Part 50 and by discussing how these definitions will be applied in NRC licensing reviews. Significant issues concerning the meaning of these terms as they are used in this part have arisen in Commission licensing proceedings. This proposed rule would define these terms and clarify the nature and extent of their effect on quality assurance requirements, thereby resolving these issues. Rulemaking was chosen as the method of resolving this issue as a result of the Commission's directive to resolve the issue by rulemaking contained in the Shoreham licensing decision (CLI-84-9, 19 NRC 1323, June 5, 1984).

A position paper requesting approval of the staff proposed definitions and additional guidance from the Commission was signed by the EDO on May 29, 1986. In addition to rulemaking, the position paper discusses the alternative of the Commission (cont)

Since the proposed rule is only clarifying existing requirements, there is no impact on the public or the industry as a result of this rulemaking. It is anticipated that the NRC will expend 3.2 to 4.4 staff years in developing the final rule over a two year period. The manpower and time frame will depend on Commission guidance received on the extent to which 10 CFR usage of the terms is to be consistent, i.e., 10 CFR Part 50 only or all of 10 CFR Chapter I. The timetable for this rule is on hold based on a decision by the Commission.

Abstract: The proposed rule would amend the Commission's regulations to establish provisions unique to the NRC concerning the acquisition of goods and services. The NRC Acquisition Regulation is necessary to implement and supplement the government-wide Federal Acquisition Regulation. This action is necessary to ensure that the regulations governing the procurement of goods and services within the NRC satisfy the needs of the agency. The NRC Acquisition Regulation implements the Federal Acquisition Regulation within the agency and includes additional policies, procedures, solicitation provisions, or contract clauses needed to meet specific NRC needs.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed amendment would conform the NRC's regulations pertaining to the availability of official records to existing case law and agency practice. The amendment would reaffirm that the terms of 10 CFR 2.790(c) provide submitters of information a qualified right to have their information returned upon request. This amendment informs the public of three exceptions to the right to withdraw, pursuant to 10 CFR 2.790(c) of the NRC's regulations, i.e., information submitted in a rulemaking proceeding that subsequently forms the basis for the final rule, information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a pending Freedom of Information Act request.

Additionally, the proposed amendment would add a notice statement to 10 CFR Part 2 that submitters of documents and information to the NRC should be careful in submitting copyrighted works. The agency in receiving submittals and making its normal distributions routinely photocopies submittals, makes microfiche of such submittals and insures that these (con't)

4034. DISPOSAL OF WASTE OIL BY INCINERATION FROM NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 2167; 42 USC 2073

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: The proposed rule, which is being initiated in partial response to a petition filed by Edison Electric Institute and Utility Nuclear Waste Management Group (PRM-20-15, dated July 31, 1984), would amend NRC regulations to allow onsite incineration of waste oil at nuclear power plants subject to specified conditions. Currently, the only approved disposal method for low-level, radioactively contaminated waste oil from nuclear power plants involves absorption or solidification, transportation to, and burial at a licensed disposal site. There is a clear need to allow, for very low activity level wastes, the use of alternative disposal methods which are more cost effective from a radiological health and safety standpoint and which conserve the limited disposal capacity of low-level waste burial sites.

Increased savings to both the public and the industry could thereby be achieved without imposing additional risk to the public health and safety. There would be an estimated industry-wide economic savings of approximately $3 million to $12 million per year if such a rule were promulgated. (cont)

4035. RADIOACTIVE WASTE BELOW REGULATORY CONCERN; GENERIC RULEMAKING

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 2; 10 CFR 20

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) sought comments on a proposal to amend NRC regulations to address disposal of radioactive wastes that contain sufficiently low quantities of radionuclides that their disposal does not need to be regulated as radioactive.

The NRC has already published a policy statement providing guidance for filing petitions for rulemaking to exempt individual waste streams (August 29, 1986; 51 FR 30839). It is believed that generic rulemaking could provide a more efficient and effective means of dealing with disposal of wastes below regulatory concern. Generic rulemaking would supplement the policy statement which was a response to Section 10 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Pub. L. 99-240). The public was asked to comment on 14 questions. The ANPRM requested public comment on several alternative approaches that the NRC could take. The evaluation of public comment together with the results from a proposed research contract will help to determine whether and how NRC should proceed on the matter. (cont)

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations governing the medical use of byproduct material to require a comprehensive quality assurance program for medical licensees using byproduct materials. The purpose of this rulemaking action is to address each source of error that can lead to a misadministration. An ANPRM was published to request public comment on the extent to which in addition to the basic quality assurance steps (being addressed by another rulemaking action, entitled "Basic Quality Assurance for Medical Use of byproduct Material") a more comprehensive quality assurance requirement is needed, and invites advice and recommendations on about 20 questions that will have to be addressed in the rulemaking process.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 40

Abstract: The advance notice of proposed rulemaking would amend 10 CFR Part 40 to include a procedure for licensing a custodian for the post-closure, long-term control of uranium mill tailings sites required by the Uranium Mill Tailings Radiation Control Act of 1987 (UMTRCA). This amendment would establish a general license for custody and long-term care of uranium mill tailings by the Department of Energy, other designated Federal agencies, or States when applicable. The license would be formulated so that it would become effective for a particular site when (1) NRC concurs in the DOE determination that the site has been properly reclaimed or closed and (2) a Surveillance and Maintenance Plan that meets the requirements of the license has been received by NRC. No significant impact to the public or industry is expected as a result of this proposed action.

Abstract: The proposed rule would amend the Commission's regulations concerning the medical use of byproduct material. The proposed amendments would require its medical licensees to establish and implement a written basic quality assurance program to prevent, detect, and correct the cause of errors in the administration of byproduct material. The proposed action is necessary to provide for improved patient safety. The proposed amendment, which is intended to reduce the potential for and severity of therapy misadministrations, would primarily affect hospitals, clinics, and individual physicians. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

Abstract: The proposed rule would return the definition of "meeting" to its pre-1985 wording. The proposal is based on a study of comments submitted on an interim final rule published on May 21, 1985 (50 FR 20889), and the 1987 recommendations and report of the American Bar Association (ABA). Since the pre-1985 wording of the definition of meeting is fully adequate to permit the types of non-Sunshine Act discussions that the NRC believes would be useful, the proposal calls for the NRC to reinstitute its pre-1985 definition of meeting, with the intention of conducting its non-Sunshine Act discussions in accordance with the guidelines recommended by the ABA.

Abstract: This rulemaking would amend 10 CFR Part 20.403(a) and (b) to clarify the licensees' reporting requirements. While 10 CFR 20.403(a) and (b) are reasonably clear in terms of licensee reporting requirements for events involving "exposures" and "releases" of radioactive materials, these sections are not clear concerning events involving "loss of operation" and "damage to property." "Loss of operation" should be clarified in terms of loss of use of facilities, devices or equipment. "Damage to property" should be clarified to include contamination clean-up if the corrective action is equal to or greater than a certain cost. In addition, the rulemaking should also define "immediate" in actual time, e.g., within 1 hour, for reporting requirements.

This rulemaking action will clarify a current Commission regulation; there is no other appropriate procedure to accommodate the clarification.

4041. CODES AND STANDARDS FOR NUCLEAR POWER PLANTS (ASME CODE, SECTION XI, DIVISION 1, SUBSECTION IWE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would incorporate by reference Subsection IWE, "Requirements for Class MC Components of Light-Water Cooled Power Plants," of Section XI (Division 1) of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). Subsection IWE provides the rules and requirements for inservice inspection, repair, and replacement of Class MC pressure retaining components and their integral attachments, and of metallic shell and penetration liners of Class CC pressure retaining components and their integral attachments in light-water cooled power plants.

Incorporation by reference of Subsection IWE will provide systematic examination rules for containment structure for meeting Criterion 53 of the General Design Criteria (Appendix A of 10 CFR Part 50) and Appendix J of 10 CFR Part 50. Age-related degradation of containments has occurred, and additional and potentially more serious degradation mechanisms can be anticipated as nuclear power plants age. (cont)

Next Action Undetermined

Small Entities Affected: None

Government Levels Affected: Undetermined

Additional Information: If the NRC did not take action to endorse the Subsection IWE rules, the NRC position on examination practices for containment structure would have to be established on a case-by-case basis and improved examination practices for steel containment structures might not be implemented. The other alternatives of incorporating these detailed examination requirements into the American National Standard ANSI/ANS 56.8-1981 or into Appendix J are not feasible.

Incorporating by reference the latest edition and addenda of Subsection IWE will save applicants/licensees and the NRC staff both time and effort by providing uniform detailed criteria against which the staff can review any single submission. Adoption of the proposed amendment would permit the use of improved methods for containment inservice inspection.

CFR Citation: 10 CFR 036

Legal Deadline: None

Abstract: The Nuclear Regulatory Commission is developing regulations to specify radiation safety requirements and license requirements for the use of licensed radioactive materials in large irradiators. Irradiators use gamma radiation to irradiate products to change their characteristics in some way. The requirements would apply to large panoramic irradiators (those in which the radioactive sources and the material being irradiated are in a room that is accessible to personnel while the source is shielded) and certain large self-contained irradiators in which the source always remains under water. The rule would not cover small self-contained irradiators, instrument calibrators, medical uses of sealed sources (such as teletherapy), or non-destructive testing (such as industrial radiography).

The alternative to a regulation is continuing to license irradiators on a case-by-case basis using license conditions. The formalization would make the NRC's requirements better understood and possibly speed the licensing of irradiators. Development of the rule will require 2 staff-years.

Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations concerning training and experience criteria for individuals involved in medical use of byproduct material. Rulemaking may be needed to reduce the chance of misadministrations. The Commission may proceed with rulemaking, assist in the development of national voluntary training standards, or issue a policy statement recommending increased licensee attention to training. If the Commission proceeds with rulemaking, the NRC could publish criteria in its regulations or recognize medical specialty certificates. The NRC is not able to project costs or benefits at this time, and has requested cost/benefit comments in an ANPRM published May 25, 1988. The NRC has hired a contractor to study training, accreditation and certification programs that are now in place. The NRC staff will analyze the study results, due in November 1989, and the comments received to determine whether regulatory action is necessary.

4044. AMENDMENT OF THE PRESSURIZED THERMAL SHOCK RULE

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule revises the Pressurized Thermal Shock (PTS) rule, published on July 23, 1985, which established a screening criterion, a limit on the degree of radiation embrittlement of PWR reactor vessel beltline materials beyond which operation cannot continue without additional plant-specific analysis. The PTS rule prescribed how to calculate the degree of embrittlement as a function of the copper and nickel contents of the controlling material and the neutron fluence. The proposed amendment revises the calculative procedures to be consistent with that given in Revision 2 of Regulatory Guide 1.99. This guide, which was published in final form on June 8, 1988, provides an updated correlation of embrittlement data.

The need to amend the PTS rule to be consistent with the guide became apparent when it was found that some medium-copper, high-nickel materials embrittlement is worse now than predicted using the PTS rule. A number of PWR's will reach the screening criterion sooner than previously thought, and three plants will need to make plant-specific analyses in the next 10 years. (cont)

Additional Information: Abstract Cont.

An unacceptable alternative to this amendment from the safety standpoint is to leave the present PTS rule in place. A plant-by- plant analysis by the NRC staff found four plants whose reference temperatures are 52 to 68 degrees F higher than previously thought, based on the present rule. This is beyond the uncertainties that were felt to exist when the proposed rule was published. Another unacceptable alternative that has been evaluated is to change the calculative procedure for the reference temperature and also change the screening criterion. Failure probabilities for the most critical accident scenarios in three plants, when recalculated using the new embrittlement estimates, were somewhat lower, but were quite dependent on the plant configuration and the scenario chosen. Furthermore, the screening criterion was based on a variety of considerations besides the probabilistic analysis. Reopening the question of where to set the screening criterion was not considered productive because of plant-to-plant differences.

4045. NUCLEAR PLANT LICENSE RENEWAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule is scheduled for completion prior to the anticipated submittal of license renewal applications for Yankee Rowe and Monticello. The rule will provide the basis for development and review of these two "lead plant" applicants and the concurrent development of implementing regulatory guidance. Timely completion of the rule is critical for establishing standards for continued safe operation of power reactors during the license renewal term and providing the regulatory stability desired by utilities in determining whether to prepare for license renewal or pursue alternative sources of generating capacity.

License renewal rulemaking to provide regulatory requirements for extending nuclear power plant licenses beyond 40 years was initiated in response to the Commission's 1986 and 1987 policy and planning guidance. Current regulatory

provisions permit license renewal but do not provide requirements for the form and content of a license renewal application nor the standards of acceptability against which the application will be reviewed.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Abstract: The proposed rule would incorporate by reference the 1986 Addenda, the 1987 Addenda, the 1988 Addenda, and the 1989 Edition of Section III, Division 1, and Section XI, Division 1, with a specified modification, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). Also, the proposed amendment would impose augmented examination of reactor vessel shell welds and would separate the requirements for inservice testing from those for inservice inspection by placing the requirements for inservice testing in a separate paragraph. The ASME Code provides rules for the construction of light-water-reactor nuclear power plant components in Section III, Division 1, and provides rules for the inservice inspection and inservice testing of those components in Section XI, Division I.

The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction, inservice inspection, and inservice testing of nuclear power plant components. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Abstract: The proposed rule would amend the regulations regarding general physical protection for fixed sites to clarify the intent that physical protection against sabotage or theft, or both, must be provided only as required by specific sections of 10 CFR Part 73 which apply to designated classes of facilities or material. This action is necessary because the Atomic Safety and Licensing Board, in a recent ruling issued an interpretation of this provision which is different from the Commission's intent and application.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Abstract: The proposed rule would amend the Commission's regulations on property insurance as they apply to commercial power reactor licensees. The proposed rule, which is in response to three petitions for rulemaking, would (1) clarify the scope and timing of the stabilization and decontamination processes after an accident at a covered reactor; (2) specify that the insurance is required to ensure that commercial power reactor licensees will have sufficient funds to carry out their obligations to clean up and decontaminate after an accident; (3) eliminate the requirement that insurance proceeds after an accident are paid to an independent trustee; and (4) solicit comments on appropriate level of required insurance in view of inflation of decontamination and clean up costs.

Legal Authority: 31 USC 9701; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 170

Abstract: The proposed rule would amend the Commission's regulations governing licensing and inspection fees for radioisotope licenses (small programs licensed under the provisions of 10 CFR parts 30, 40, and 70). The revised schedule of fees that would more completely recover the costs incurred by the Commission in providing services to identifiable recipients. The proposed rule would update the schedule of fees for small byproduct material applications for decommissioning, change the cost per professional staff hour for NRC services based on the FY 1990 budget, delete certain exemption provisions and clarify others for ease of administration, add a new exemption to provide that Indian tribes and Indian organizations will be exempt from the payment of fees, and fund transfer in accordance with U.S. Department of the Treasury cash management initiatives.

Abstract: The proposed rule would amend the Commission's regulations by revising the generic determination concerning the timing of availability of a geologic repository for commercial high-level radioactive waste and spent fuel and the environmental impacts of storage of spent fuel at reactor sites after the expiration of reactor operating licenses. These proposed revisions reflect proposed findings of the Commission reached in a five-year update and supplement to its 1984 "Waste Confidence" rulemaking proceeding.

Abstract: The proposed rule would amend the Commission's regulations governing the licensing proceeding on the disposal of high-level radioactive waste at a geologic repository (HLW proceeding). The proposed revisions are intended to facilitate the Commission's ability to comply with the schedule for the Commission's decision on the construction authorization for the repository, while providing for a through technical review of the license application and the equitable treatment of the parties to the hearing. The proposed rule would establish a new standard for the admission of initial contentions, would define "late contentions" as any contention proposed after the initial contentions were submitted, would require parties to present direct testimony on contentions, would establish a compulsory hearing schedule, and would eliminate sua sponte review by the Commission's adjudicatory boards.

Abstract: The proposed rule would amend the Commission's regulations to require the expansion of the present investigative scope for licensee "R" Special Nuclear Material Access Authorization and "L" security clearance applicants by adding a credit check and would revise the corresponding fee schedule to recover the additional cost of each credit check.

These amendments are necessary for the following reasons: (1) to obtain a higher degree of assurance that licensee "R" and "L" applicants are reliable, trustworthy, and do not have any significant financial problems which may cause them to be susceptible to pressures, blackmail, or coercion to act contrary to the national interest; (2) to achieve greater comparability with the investigation scope for DOE's "L" and Secret clearances; (3) to be consistent with the investigative coverage proposed in the NUMARC guidelines for licensee personnel with unescorted access to protected and vital areas of nuclear power plants; and (4) to recover the additional cost of each credit check. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require that security personnel qualify and requalify annually on specific standardized day firing courses using all assigned weapons. Current regulations require day firing qualification using a national policy course or equivalent for handguns and an NRA or nationally recognized course for semiautomatic weapons. A firing course is specified for shotguns, which is in need of revision. Recent amendments to Part 73 added a requirement for night firing qualification using specific, designated firing courses. To ensure uniformity, the current day firing requirements should be compatible.

Additionally, current regulations specify that security personnel shall have no physical weaknesses that would adversely affect their performance of assigned job duties. However, no regulatory standards exist for assuring that security personnel are physically fit to perform their duties. Requirements for a physical fitness program and fitness standards at Category I fuel cycle facilities for security personnel need to be added to the regulations in order to provide a uniform. (CONT)

The proposed rule change would amend 10 CFR Part 73, Appendix H, to include day firing qualification courses in each type of required weapon as well as a standardized physical fitness training course and fitness standards for security personnel. Alternatives to the rulemaking would be to allow the status quo to continue. Standardization of day firing courses to be consistent with those established for night firing would be of negligible cost to the 3-4 affected licensees and to the NRC since day firing qualification using a variety of firing courses is already being done. Physical fitness training programs would incur moderate costs to the licensee in the area of personnel time and limited physical fitness equipment. The cost to the NRC would be in the area of licensing and inspection activities. Neither area of rulemaking affects occupational exposure.

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 060

Legal Deadline: None

Abstract: In 10 CFR Part 60, licensing requirements for disposal of radioactive wastes in geologic repositories, certain performance requirements for the repository are based on an assumption of the occurrence of anticipated processes and events. The specific meaning and use of this term, and unanticipated processes and events, needs further clarification. This rulemaking would modify the definition of this term in Section 60.2, modify Section 60.113, which describes the use of this term and modify the definition of "geologic setting" in Section 60.2, and modify the use of that term in Section 60.102.

The objective of the rulemaking is to improve the licensing process for the geologic repository program. It would have no adverse effects on the licensee or the public. It is expected that the resources expended by NRC on the rulemaking would be more than offset

by resources saved during the licensing process.

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by requiring the implementation of the NRC-approved Emergency Response Data System (ERDS) at all licensed nuclear power plants. The primary role of the Nuclear Regulatory Commission during an emergency at a licensed nuclear power facility is one of monitoring the licensee to assure that appropriate recommendations are made with respect to necessary offsite actions to protect its role during an emergency, the NRC requires accurate and timely data on four types of parameters: (1) the reactor core and coolant system conditions to assess the extent or likelihood of core damage; (2) the conditions inside the containment building to assess the likelihood of its failure; (3) the radioactivity release rates to assess the immediacy and degree of public danger; and (4) the data from the plant's meteorological tower to assess the distribution of potential or actual impact on the public.

The ERDS is a licensee-activated computer data link between the electronic data systems at licensed nuclear power (cont)

Current experience with voice-only emergency communication link, utilized for data transmission, has demonstrated it to be slow and inaccurate. Simulated site tests of the ERDS concept in emergency planning exercises have demonstrated that ERDS is effective between the NRC Operations Center and affected licensees.

The rule would require that the licensees provide the required hardware and software to transmit the data in a format specified by the NRC. The NRC would require that the licensee activate the ERDS as soon as possible following the declaration of an alert condition. Based on a site survey of 80 percent of licensed facilities, the current estimates of licensee costs are $20K-50K for software and $0-100K for hardware. The current estimated cost to NRC is $2.6 million. The proposed changes to 10 CFR Part 50 will be issued for public comment.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 020; 10 CFR 061

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to: (1) augment and improve information contained in manifests accompanying shipments of waste to low-level waste (LLW) disposal facilities licensed under Part 61; (2) require that operators of these disposal facilities store portions of this manifest information in onsite computer recordkeeping systems; and (3) require that operators periodically submit, in an electronic format, reports of shipment manifest information.

To assure safe disposal of LLW, we must understand the mechanisms and rates by which radioactivity can be released from LLW and into the environment. To do this, we must understand the chemical physical, and radiological characteristics of LLW. This task is greatly complicated by the heterogeneous nature of LLW; it exists in a variety of chemical and physical forms and contains roughly 200 different radionuclides in concentrations that can range from a few microcuries to several hundred curies per cubic foot. Each year there are thousands of shipments of LLW disposal sites. (cont)

Additional Information: Abstract Cont.

Pursuant to Section 20.311, a manifest must accompany each shipment of LLW to a disposal facility. Unfortunately, existing manifests do not describe the waste in detail sufficient to assure compliance with the Part 61 performance objectives. In addition, NRC's regulations do not require that disposal site operators develop and operate computer systems for storage and manipulation of shipment manifests information. We believe that such onsite computer systems are necessary for safe disposal facility operation. We also believe that a national data base is needed which contains information on LLW disposed at all sites.

A rulemaking to upgrade shipment manifests and require disposal site computer recordkeeping systems will assure that technical information on LLW is available and in a form which can be used for performance assessments, technical analyses, and other activities. It is expected that the rulemaking will slightly increase disposal costs.

Abstract: The proposed rule would amend the Commission's regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC on a periodic basis. The proposed report would indicate that the device is still in use or to whom the device has been transferred. The proposed rule would be the most efficient method, considering the number of general licensees and the number of devices currently in use, for assuring that devices are not improperly transferred or inadvertently discarded. The proposed rule is necessary to avoid unnecessary radiation exposure to the public that may occur when an improperly discarded device is included in a batch of scrap metal for reprocessing. The proposed rule would also avoid the unnecessary expense involved in retrieving the manufactured items fabricated from contaminated metal. The proposed rule would impose a small burden on device users and the NRC.

4059. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Legal Deadline: None

Abstract: The proposed rule would implement the Equal Access to Justice Act (EAJA) by providing for the payment of fees and expenses to certain eligible individuals and businesses that prevail in agency adjudications when the agency's position is determined not to have been substantially justified. This proposed regulation is modeled after rules issued by the Administrative Conference of the United States (ACUS) and have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent to develop government-wide, "uniform" agency regulations and would describe NRC procedures and requirements for the filing and disposition of EAJA applications. A draft final rule was sent to the Commission in June 1982, but Commission action was suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. This issue was also the subject of litigation in Business and Professional People for the Public Interest v. NRC, 793 F. 2d 1366 (D.C. Cir. 1986). This litigation is being evaluated to determine what if any changes may be necessary in the proposed rule. (cont)

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the use of the table. The proposed rule amends Section 51.52 to modify the enrichment value of U-235 and the maximum level of average fuel irradiation. The narrative explanation also addresses important fuel cycle impacts and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants.

The proposed revision of 10 CFR 51.51 and the addition of Appendix B was published for public review and comment on March 4, 1981 (46 FR 15154). The final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v. NRC, No. 74-1486) in the U.S. Circuit) decision of (cont)

Additional Information: April 27, 1982, invalidated the entire Table S-3 rule. The Supreme Court reversed this decision on June 6, 1983. The proposed rule to provide an explanatory analysis for Table S-3 has been revised to reflect new developments during the time the rulemaking was deferred. Final action on the Table S-3 rule was held in abeyance until new values for radon-222 and technetium-99 could be added to the table and covered in the narrative explanation. The rule is being reissued as a proposed rule because the scope has been expanded to include radiation values for radon-222 and technetium-99 and the narrative explanation has been extensively revised from that published on March 4, 1981 (46 FR 15154).

The staff's estimate is that the completion of a final Table S-3 rule covering the new values for radon-222 and technetium-99 and the revised explanatory analysis will be completed in 1989. A Commission paper presenting the final rulemaking plan and schedule was submitted on August 18, 1986 (SECY 86-242). On September 8, 1986, SECY 86-242 was approved by the Commission.

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation that are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated, most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to provide better assurance of protection against radiation; establish a clear health protection basis for the limits; reflect current information on health risk, dosimetry, and radiation protection practices and experience; provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; be consistent with recommendations of world authorities (ICRP); International Commission on Radiological Protection (ICRP); and apply to all licensees in a consistent manner.

Alternatives to the complete revision considered were no action, delay for further guidance, and partial revision (cont)

Benefits would include updating the regulations to reflect contemporary scientific knowledge and radiation protection philosophy; implementing regulations which reflect the ICRP risk-based rationale; reducing lifetime doses to individuals receiving the highest exposures; implementing provisions for summation of doses from internal and external exposures; providing clearly identified dose limits for the public; and providing an understandable health-risk base for protection.

Initial estimates of the cost of implementing the revision is about $33 million for all NRC and Agreement State licensees in the initial year and about $8 million in each subsequent year. This cost does not include any savings which might also be realized by the revision.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations, current regulatory practice that is no longer being reflected accurately by the existing rule, and endorsement in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and

obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss-of-coolant accident conditions. The majority of the effort needed by NRC to issue the rule has already been expended. (cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050; 10 CFR 073

Legal Deadline: None

Abstract: The Commission has concluded that it is appropriate for each licensee who operates a nuclear power plant to establish an access authorization program to ensure that individuals who require unescorted access to protected areas or vital areas of their facilities are trustworthy, reliable, emotionally stable, and do not pose a threat to commit radiological sabotage. Accordingly, the NRC published a proposed rule on August 1, 1984, which would require an access authorization program at nuclear power plants (42 FR 30726).

An alternative proposal by the Nuclear Utility Management and Resource Committee (NUMARC) was submitted as a public comment on this proposed rule. The alternative proposed a voluntary industry commitment to implement an access authorization program at nuclear power plants based upon industry guidelines. Major provisions of this program include background investigation, psychological evaluation, and behavioral observation.

On June 18, 1986, the Commission approved developing a policy statement endorsing industry guidelines as an alternative to the proposed rulemaking. Commitments to adhere to these guidelines would be formalized through amendments to the physical security plans and be subject to inspection and enforcement by NRC.

On March 9, 1988, the NRC published a proposed policy statement endorsing the NUMARC guidelines. In the Federal Register notice, the Commission specifically requested public comments as to whether the access authorization program should be a rule or a policy statement.

On April 19, 1989, the Commission decided to go forward with a final rule which would require all licensees to have an access authorization program and would specify the major attributes of the program. The NRC would also issue a regulatory guide which would endorse, with appropriate exceptions, the applicable industry guidelines, as an acceptable way of complying with the rule.

4064. ELIMINATION OF INCONSISTENCIES BETWEEN NRC REGULATIONS AND EPA STANDARDS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Legal Deadline: None

Abstract: The proposed rule would eliminate several inconsistencies with the EPA standards to be developed for the disposal of HLW in deep geologic repositories. The Nuclear Waste Policy Act of 1982 (NWPA) directs NRC to promulgate criteria for the licensing of HLW geologic repositories. Section 121(c) of this Act states that the criteria for the licensing of HLW geologic repositories must be consistent with these standards. The proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement.

The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations. NRC resources needed would be several staff years but will not include contract resources.

Because the Federal Court invalidated the EPA standards, action on this rule, which is in response to the EPA standards, is undetermined.

4065. SAFETY REQUIREMENTS FOR INDUSTRIAL RADIOGRAPHIC EQUIPMENT

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 34

Legal Deadline: None

Abstract: The proposed rule would amend the present regulations to establish performance standards for industrial radiography exposure devices. Overexposures of radiographers (and occasionally the general public) are more than double that of other radiation workers and have been a concern to the NRC for some time. Approximately 25-35% of the radiography overexposures are

associated with equipment malfunction. The issue of safety requirements for these devices is a primary concern since the devices use relatively high intensity, high energy gamma-ray emitting sources with the potential for serious overexposures. Although a consensus standard for radiographic exposure devices was published in 1981 (American National Standard N432), it is not clear that all manufacturers are adopting the standard.

The alternatives considered were to take no action at this time, amend the regulations to require performance standards for radiographic devices plus a requirement for radiographers to wear alarm dosimeters and simultaneously issue a regulatory guide endorsing the consensus standard, supplemented by such other performance standards deemed necessary, and incorporate (cont)

The proposed rule would require licensees to modify radiographic devices to meet the performance standards through design changes and quality control procedures. Costs of incorporating the proposed changes are estimated to be a one-time cost of $1,625 per licensee to purchase alarm dosimeters and $850 annually for replacement of devices and alarm dosimeters, annual calibration of dosimeters, and annual maintenance costs. Determination of the benefits to be derived from the proposed rule are difficult to determine on a monetary basis, but the potential hazards that might be averted include radiation sickness, injury, and even death. NRC resources required for processing this rule to final publication are estimated to be 0.4 person-years.

Abstract: The proposed rule, would in conjunction with a corresponding rule change by the U.S. Department of Transportation, make the United States Federal regulations for the safe transportation of radioactive material consistent with those of the International Atomic Energy Agency (IAEA). The IAEA regulations can be found in IAEA Safety Series No. 6 "Regulations for the Safe Transport of Radioactive Material," 1985 Edition.

Consistency in transportation regulations throughout the world facilitates the free movement of radioactive materials between countries for medical, research, industrial, and nuclear fuel cycle purposes. Consistency of transportation regulations throughout the world also contributes to safety by concentrating the efforts of the world's experts on a single set of safety standards and guidance (those of the IAEA) from which individual countries can develop their domestic regulations. In addition, the accident experience of every country that bases its domestic regulations on those of the IAEA can be applied by every other country with consistent regulations to improve its safety program. The action will be handled as a routine (cont)

Additional Information: updating of NRC transportation regulations. There is no reasonable alternative to rulemaking action. These changes should result in a minimal increase in costs to affected licensees. Proposed changes to 10 CFR Part 71, based on current IAEA regulations, have been issued for public comment. The task will be scheduled over a 2-year interval and will consume 2-3 staff-years of effort, depending on the number and difficulty of conflicts to be resolved.

Legal Authority: 42 USC 2201; 42 USC 2021; 42 USC 5841

CFR Citation: 10 CFR 150

Legal Deadline: None

Abstract: This rulemaking would establish NRC's sole authority for approving onsite disposal of low-level waste at all NRC licensed reactors and at Part 70 fuel cycle facilities. There is a need to amend 10 CFR 150.15 to authorize one agency (the NRC) to regulate all onsite disposal of low-level waste in order to provide a more comprehensive regulatory review of all onsite waste management activities and to avoid unnecessary duplication of effort. Uniform review by the NRC will provide for greater assurance that the radioactive material will not present a health hazard at a later date after the site is decommissioned.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 004

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning enforcement of section 504 of the Rehabilitation Act of 1973, as amended, in federally assisted programs or activities to include a cross-reference to the Uniform Federal Accessibility Standards (UFAS). Because some facilities subject to new construction or alteration requirements under section 504 are also subject to the Architectural Barriers Act, government wide reference to UFAS will diminish the possibility that recipients of Federal financial assistance would face conflicting enforcement standards. In addition, reference to UFAS by all Federal funding agencies will reduce potential conflicts when a building is subject to the section 504 regulations or more than one Federal agency.

Legal Authority: 42 USC 10153; 42 USC 10198

CFR Citation: 10 CFR 50; 10 CFR 72; 10 CFR 170

Legal Deadline: None

Abstract: The proposed rule is in response to the Nuclear Waste Policy Act (NWPA) section 218 (a) which states in part, that the Secretary of DOE shall establish a demonstration program, in cooperation with the private sector, for dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the Commission may, by rule, approve for use at sites of civilian nuclear power reactors. The NWPA also requires that the NRC establish procedures for the licensing of any technology approved by the Commission under section 218(a) for use at the site of any civilian nuclear power reactor.

The staff anticipates a significant increase in the demand for use of dry spent fuel storage casks starting in the early 1990s, thus processing of this proposed rule would be timely. NRC resource requirements are anticipated to be about two staff years.

Abstract: The proposed rule would amend the regulations concerning the procedures that the NRC uses to collect the debts which are owed to it. The proposed amendments are necessary to conform NRC regulations to the amended procedures contained in the Federal Claims Collection Standards issued by the General Accounting Office and the U.S. Department of Justice. The proposed action is intended to allow the NRC to further improve its collection of debts due to the United States. Because the proposed regulation is necessary to implement the Debt Collection Act of 1982, there is no suitable alternative to rulemaking for this action. Legal Authority: 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 050

Abstract: The proposed rule would provide functional requirements for the maintenance of nuclear power plants and allow industry initiatives to develop the details of maintenance programs to meet these requirements. The proposed rule would apply to all components, systems and structures of nuclear power plants and wold be applicable to existing and future plants. The proposed rule would also require each licensee to develop, implement and maintain a maintenance program, and to formally commit to follow the program.

The scope of maintenance activities addressed in the rule will be within the framework of the Commission's Policy Statement on Maintenance of Nuclear Power Plants which was issued on March 23, 1988 (53 FR 9430).

It is estimated that about 3 staff-years of effort and $600,000 for contract services will be required to process the final rule.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 070; 10 CFR 072; 10 CFR 073; 10 CFR 075

Abstract: The proposed rule amends the Commission's regulations dealing with physical protection requirements that are out of date, susceptible to differing interpretations, or in need of clarification. These problems were identified by a systematic review of the agency's safeguards regulations and guidance documents conducted by the Safeguards Interoffice Review Group (SIRG). In addition, the staff has identified other areas in the regulations where minor changes are warranted. In response to these efforts, specific amendments to the regulations are being proposed. The proposed changes would: (1) add definitions for common terms not currently defined by frequent use, (2) delete action dates that no longer apply, (3) correct outdated terms and cross references, (4) clarify wording that is susceptible to differing interpretations, (5) correct typographical errors, and (6) make other minor changes.

Additional Information: The alternative to rulemaking would be to allow the status quo to continue. Except for the change in the impact of a high radiation field on physical protection requirements, these minor amendments affect the public, industry and the NRC only in so far as they make the regulations easier to understand, implement, and enforce. It is estimated that 0.4 staff-years of NRC effort over 2 years will be required for the rulemaking. This is a low priority rulemaking.

Abstract: The proposed rule would provide for the sequestration of all persons compelled to appear before NRC representatives under subpoena during the conduct of investigative interviews. The proposed rule would also give the agency official conducting the investigation (after consultation with the Office of the General Counsel) the authority to disqualify an attorney who represents multiple interests from the investigative interviews of other witness clients or from the investigatory proceedings entirely whenever the attorney impairs or impedes the progress of the investigation. The proposed rule would require the official to have evidence of the attorney's improper conduct and must provide the excluded counsel a written statement of reasons for the disqualification. The proposed rule would also provide disqualified counsel a right to Commission review of the disqualification decision. The proposed rule is intended to clarify and delineate the rights and responsibilities of the agency, interviewees, licensees, and attorneys during the conduct of agency investigations. Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would amend the Commission's regulations concerning the medical use of byproduct material. The proposed regulation would add Palladium-103 sealed source as seeds to the list of sources permitted in 10 CFR Part 35 for use in cancer treatment. Under current NRC regulations, users must have their licenses amended before they may use Palladium-35 seeds by each potential user (about 700 licensees) with either a simplified amendment or no amendment, depending upon the individual license. An evaluation of potential radiation hazards to hospital personnel and the public showed a minimal risk if the seeds are used in accordance with the manufacturer's radiation safety and handling instructions.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would amend NRC regulations to provide rules of procedure for informal adjudicatory hearings in nuclear power reactor operator licensing proceedings. The Atomic Energy Act of 1954 requires that the NRC, in any proceeding for the granting, suspending, revoking, or amending of an NRC license, including licensing as an operator or senior operator at a nuclear power plant, afford an interested person, upon request, a "hearing." This proposed rule would amend an existing rule which provides for informal hearing procedures for materials licensing proceedings to include reactor operator licensing proceedings as well.

Legal Authority: 42 USC 3201; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 110

Legal Deadline: None

Abstract: The final rule would amend the Commission's regulations concerning the import and export of nuclear equipment and material in 10 CFR Part 110. Current regulations require that license applications for the export of 1000 kilograms or more of heavy water to any country require review by the Commission. The Commission has reviewed its processing of nuclear export license applications and has determined that license applications for the export of any quantity of heavy water to Canada do not raise issues that require Commission review. Therefore, the Commission has delegated additional authority to the NRC staff to act upon such export license applications without prior consultation with the Commission. There is no acceptable alternative to rulemaking because an amendment to the regulations is necessary to identify the classes of export license application which require Commission review. The rule should benefit the NRC, the industry, and the public by expediting the review process for these kinds of applications.

Legal Authority: 42 USC 2201

Abstract: The Commission is withdrawing this proposed rulemaking published on December 29, 1988 (54 FR 52716), in which comments were solicited on two proposed alternative amendments to its regulations. The alternatives proposed in the Federal Register notice would have imposed additional education and experience requirements for either senior operators or control room supervisors. In consideration of the comments received on the proposed rule and the status of industry initiatives to enhance the education level of its operating personnel, the Commission concludes that it should withdraw the proposed rule published on December 29, 1988. The Commission published a policy statement that presents its views concerning education for senior operators and shift supervisors at nuclear power plants (August 15, 1989; 54 FR 33639).

Legal Authority: 42 USC 2136

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: This final rule clarified the Commission's regulations pertaining to boiling water reactors (BWR). The current regulations require that all boiling water reactors must have a standby liquid control system (SLCS) with a minimum flow capacity and boron content equivalent in control capacity to 86 gallons per minute (gpm) of 13 weight percent of sodium pentaborate solution.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The final rule amended the Commission's regulations governing the domestic licensing of production and utilization facilities to allow a licensee during a national security emergency to deviate from a license condition or a technical specification. The Commission previously has granted authority to nuclear power reactor licensees to take reasonable action that departs from a license condition or a technical specification in an emergency when the action is immediately necessary to protect the public health and safety and no action consistent with license conditions and technical specifications that can provide adequate or equivalent protection is immediately apparent. This final rule provides the same flexibility to licensees, but for the purpose of attaining national security objectives during a declared national emergency due to nuclear war or natural disaster.

4093. RULE ON THE SUBMISSION AND MANAGEMENT OF RECORDS AND DOCUMENTS RELATED TO THE LICENSING OF A GEOLOGIC REPOSITORY FOR THE DISPOSAL OF HIGH-LEVEL RADIOACTIVE WASTE

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 002

Legal Deadline: None

Abstract: The Nuclear Waste Policy Act (NWPA) provides three years for the NRC to reach a decision on construction authorization for a high-level waste repository. In order for the NRC to be able to make its decision within the allotted time, ready access to all pertinent records must be assured to all parties in the licensing proceeding. The DOE has committed to develop an electronic information management system to be used for the licensing proceeding. The NRC staff has used the process of negotiated rulemaking to develop a rule that revises the Commission's discovery procedure and motion practice in 10 CFR Part 2 for the high-level waste licensing proceeding. This rule requires the DOE license application and all supporting records to be provided in a standardized electronic format. All parties to the licensing proceeding will be required to submit all relevant data to this system. In turn, all parties will have access to the data base.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 140

Legal Deadline: None

Abstract: Section 19 of the Price-Anderson Amendments Act of 1988 required the Commission to determine, through use of a negotiated rulemaking proceeding, whether persons licensed by the Commission or Agreement States for the manufacture, production, possession, or use of radioisotopes or radiopharmaceuticals for medical purposes ("radiopharmaceutical licensees") should be indemnified under the Price-Anderson Act. Section 19 required the Convenor of the proceeding to submit a recommendation to the Commission on whether the Commission should enter into indemnity agreements with radiopharmaceutical licensees. The Convenor's report recommended that the Commission not extend indemnity under the Price-Anderson Act to any class of radiopharmaceutical licensees. Therefore, this rulemaking was terminated.

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions pursuant to chapter six of the Administrative Procedure Act and Office of Management and Budget Bulletin 89-12. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission invites questions and public comment on individual agenda entries.

DATE: Public comments are due by December 31, 1989.

ADDRESSES: Persons wishing to submit written views should file three copies with Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 5th Street NW., Room 6184, Stop 6-9, Washington, DC 20549. All submissions should refer to File No. S7-26-89 and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: William J. Atkinson, Office of Economic Analysis, Securities and Exchange Commission, 450 5th Street NW., Room 9200, Stop 9-1, Washington, DC 20549 (202-272-7100). The names of persons to contact concerning particular rules are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each Federal agency, during April and October of each year, to publish in the **Federal Register** a regulatory flexibility agenda identifying rules which the agency expects to propose or adopt that are likely to have a significant economic impact on a substantial number of small entities.[1]

The RFA also requires the Commission to publish a plan for the periodic review of all rules issued by the agency which have or will have a significant economic impact on a substantial number of small entities.[2] The Commission published such a plan in 1981.[3] The plan provides for the review of all rules in effect on January 1, 1981, within ten years of that date and for the review of all rules adopted thereafter within ten years of their adoption as final rules. The RFA further requires publication, each year, of a list of those rules which are to be reviewed during the succeeding twelve months.[4]

The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be subject to RFA review requirements. The Commission is identifying them here in order to inform the public of its intention to review them. The agenda also identifies the rulemaking actions which have been completed (or withdrawn) since the last RFA release was published.[5]

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included nor is the Commission required to consider or act on any matter which is included.[6] Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities.[7] This preliminary judgment may be changed upon further analysis.

The Commission's entries to the October 1989 Unified Agenda of Federal Regulations are listed below. The Commission's agenda includes new entries, as well as items carried over from the April 1989 publication. New entries are marked with a bullet next to the Sequence Number. Priority items are identified under the heading "Significance."

Copies of the Commission's regulatory agenda are available from the Commission's Office of Public Affairs (Room 1015). The Commission's regulatory agenda is also available for inspection and copying in the Public Reference Room (Room 1026). Please refer to File S7-26-89 as noted above.

The Commission invites public comment on the individual entries in its regulatory agenda.

Dated: September 14, 1989.

By the Commission.

Jonathan G. Katz,

Secretary.

Abstract: The Commission has proposed a multijurisdictional disclosure system that would permit Canadian issuers that, depending on the nature of the offering, meet market value, public float and Canadian reporting history tests to register securities in the United States using disclosure documents prepared according to the requirements of Canadian regulatory authorities. Certain Canadian issuers would also be able to use such documents to meet U.S. periodic disclosure requirements. Companies subject to U.S. proxy requirements could use Canadian documents for certain solicitations. Canadian insider reports could be filed with the Commission. Additionally, tender offers for Canadian companies could be made in accordance with Canadian rules where a limited number of shareholders reside in the U.S.

Legal Deadline: None

Abstract: The staff is developing proposals to promote shareholder analysis of extraordinary corporate transactions recommended or approved by the board of directors of the subject company. Amendments would be proposed to Rule 13e-3 and Schedule 13E-3 to apply those provisions to transactions where it is anticipated that management will have a significant interest in the transaction, such as an equity interest in the surviving entity. The proposals also would adopt enhanced disclosure requirements, similar to those of Rule 13e-3 for a broader class of extraordinary transactions. The objective of the proposals would be to provide investors with more information concerning the transaction (including the values inherent in the transaction) and the evaluation processes of the board of directors. In connection with this rulemaking project, a review of Rules 13e-3 and 14d-1 through 14f-1 and Schedule 13E-3 will be conducted.

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the appropriate levels of minimum net capital required of registered broker-dealers. As a result, the Commission decided to publish for comment proposed amendments to the net capital rule that, among other things, will raise the minimum net capital required of various classes of registered broker-dealers. The Commission believes that these higher levels of required net capital are justified based upon the risks posed by undercapitalized firms to customers and to the securities system as a whole.

4123. MUTUAL FUND GOVERNANCE

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888, (47 FR 56509)) soliciting public comment on whether the Commission should propose rules or

recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes. Extension of comment period until April 18, 1983 was announced in Investment Company Act Release No. 13012 (cont)

4124. RULE 17J-1 UNDER THE INVESTMENT COMPANY ACT OF 1940

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Legal Deadline: None

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser of or principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an amendment to this rule which would reduce the reporting requirement for investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered broker-dealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide. The Commission is also considering whether to amend Rule 17 j-1 to define specified acts as fraudulent, deceptive or manipulative or to require certain minimum standards to be set forth on a company's code of ethics.

Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to certain duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. In order to update the proxy regulations and, in doing so, improve the (cont)

There does not currently exist a basis upon which to quantify the reduced costs and burdens of such action on those registrants affected. Since the action will apply to all registered investment companies soliciting proxies, unless the solicitation is excepted, the Action is expected to have a significant impact on a substantial number of small entities. However, the contemplated revisions are still in the developmental stage and have not yet been formally proposed by the Commission. Thus, the extent of the revision actually proposed and the attendant reductions in costs and burdens are as yet largely unknown, but are anticipated to be significant.

Legal Authority: 15 USC 80a-8 Investment Company; 15 USC 77g Securities Act; 15 USC 77j Securities Act

CFR Citation: 17 CFR 239.14; 17 CFR 274.11a-1

Legal Deadline: None

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies which issue periodic payment plan certificates or which are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission believes a simplified prospectus is necessary because current prospectuses have become too cumbersome for the average investor to understand and because current requirements result in the disclosure of much information that is not necessarily material to an investment decision. The Commission has proposed a simplified three-part form.

Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.206(3)-3

Legal Deadline: None

Abstract: Section 206(3) of the Investment Advisers Act of 1940 makes it unlawful for any investment adviser, by use of the mail or any means or instrumentality of interstate commerce, directly or indirectly, knowingly to effect a securities transaction (a) with a client while acting as principal or (b) for a client while acting as broker for a person other than such client, without disclosing in writing to such client before the completion of the transaction the capacity on which he is acting and obtaining the consent of the client to the transaction. The Commission is considering whether to propose a rule that would provide a nonexclusive method for compliance with the provisions of Section 206(3) of the Investment Advisers Act of 1940 in connection with purchases of securities from an underwriting syndicate for an advisory client under specified conditions. Because the proposed rule is still in the developmental stages, its potential effect on small entities and its potential costs and benefits as a whole are unknown at this time.

Abstract: The regulation will be designed to codify numerous exemptions from the provisions of the Investment Company Act of 1940 ("Act") granted to two-tier real estate limited partnerships. Exemptions from the Act pursuant to Section 6(c) of the Act have generally been granted where: 1) the two-tier partnership invests in limited partnerships engaged in the development and building of housing for low and moderate income persons; 2) the limited partnership interests are sold only to suitable investors; and 3) requirements for fair dealing by the general partner of the issuer with the limited partners of the issuer are included in the basic organizational documents of the partnership. Abstract: The Commission proposed rules that, if adopted would exempt smaller investment advisers from most federal adviser regulation, other than the general antifraud provisions, if the advisers are registered in all states in which they do business. The proposed exemptions should significantly diminish the costs and paperwork associated with dual federal and state regulation of small advisory businesses. The proposed rules would rely on the states to assume responsibility for the detailed regulation that, at the federal level, would no longer be applicable to small advisers exempt under these rules. The proposed rules, which include both an interstate and an intrastate exemption, would determine eligibility for the exemptions by reference to the size of the adviser's business; whether the adviser has custody of client funds or securities; and whether the adviser is registered as an adviser in the state or states in which it does business. CFR Citation: 17 CFR 210.5-02; 17 CFR 210.10-01; 17 CFR 210.11-02; 17 CFR 229.303

Legal Deadline: None

Abstract: The Commission proposed amendments to require (1) presentation of certain industry segment information for interim periods; (2) a discussion of reportable segments in management's discussion and analysis; and (3) modifications of other miscellaneous interim reporting requirements. The release also provides advance notice of possible future rulemaking regarding (1) additional segment reporting disclosures and (2) uniform disclosure of off balance sheet financing arrangements. The proposals are designed to enhance analysis of financial information. They may entail some new recordkeeping but any such costs have not been determined. The Commission's interim reporting rules will be reviewed as a part of this action.

Abstract: The Commission proposed Rules 13e-2 and 14d-11 that would require that, subject to certain exceptions, purchases, offers to purchase, arrangements or understandings to purchase and solicitations of offers to sell securities undertaken during and shortly after a tender offer that would increase any person's ownership of the class of securities subject to the tender offer by 10% or more of the class be made in compliance with the statutory provisions and rules applicable to tender offers. The proposed rules would apply to all persons from the formal commencement of a tender offer until 10 business days after the scheduled expiration date. A proposed rule also would subject a bidder to the same requirements from the time it commenced a tender offer by public announcement until it either formally

commenced a tender offer by some other means or 30 business days after it made a subsequent public announcement stating that it had determined not to continue with the tender offer.

Abstract: Because the borrowing of government securities plays an important role in the government securities market, the Commission believes that, for purposes of the customer protection rule, the categories of instruments that broker-dealer can provide to customer lenders of government securities should be expanded to include certain instruments currently not listed in the rule. Therefore, the Commission has decided to propose for comment an amendment to the customer protection rule that will allow broker- dealers to provide, in addition to the instruments currently listed in the rule, certain government securities as the collateral in government securities borrowings.

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the specialist financial responsibility rules and specialist financial surveillance systems of the various exchanges. As a result, the Commission decided to publish for comment proposed amendments to the net capital rule that, among other things, will make the rule applicable to certain specialists that are now exempt from the rule. In addition to the consequential overall financial accountability and discipline that results from the application of the net capital rule, the Commission believes it would be desirable to have a uniform measure whereby it may review the financial health and liquidity of all specialists at all exchanges.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.3a-4

Legal Deadline: None

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) (45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "mini-accounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being considered.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17g-1

Legal Deadline: None

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as

officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.

Abstract: On March 9, 1987, the Commission reproposed for public comment Form N-7, a new form for registering unit investment trusts("UITS") and their securities under the Investment Company Act of 1940 and the Securities Act of 1933. Form N-7 was originally proposed by the Commission on May 14, 1985. Adoption of Form N-7 would (i) codify the disclosure requirements for VITS into one form; (ii) codify the disclosure standards that have been developed for VITS; and (iii) shorten and simplify the prospectus used in connection with the sale of units in both the initial offering and in the secondary market maintained by the sponsor. As reproposed, a one-part prospectus originally proposed, but the prospectus would retain a series specific part and a generic part. The requirement for audited financial statements would be eliminated under certain circumstances. The requirement that registrants include certain third party financial statements in the registration statement would be extended to insurers as well as guarantors of portfolio securities of the trust under the reproposal.

Abstract: On March 9, 1987, the Commission published for public comment a new rule 24f-3 under the Investment Company Act of 1940 that would simplify filing requirements under section 24(f) of the Investment Company Act by allowing a unit investment trust to register an indefinite number of securities solely for secondary market purposes and to pay no registration fee on secondary market sales. Abstract: The Commission proposed amendments to Rules 134, 436, and 482 under the Securities Act of 1933 on March 14, 1986. The amendments would, if adopted, permit certain investment companies to use in their statutory and omitting prospectuses security ratings assigned by a nationally recognized statistical rating organization (NRSRO) without first obtaining the NRSRO's consent to being named pursuant to Section 7 of the Securities Act. The Commission is now considering whether to adopt such amendments.

Abstract: The Commission has proposed for public comment rule 6c-10 under the Investment Company Act to provide a registered open-end management investment company, other than a registered insurance company separate account, and certain related persons with exemptions from the Act to the extent necessary to permit the fund to impose sales loads on a deferred basis. The Commission has also proposed amendments to Form N-1A, the registration statement for funds to accommodate the deferred sales loads that would be permitted if rule 6c-10 is adopted.

Abstract: Proposed Rule 17 clarifies under what conditions diversification into non-utility enterprises would not be deemed detrimental to the public interest or the interest of investors or consumers within the meaning of the "unless and except" clause of S3(a)(1) of the Public Utility Holding Company Act of 1935. The rule would provide two alternative "safe harbors". A companion proposed amendment to rule 2 under the Act would require after three years from its adoption, claims of exemption under rule 2, in order to be effective, would require that the claimant meet one of the safe harbor provisions of rule 17. Also proposed is an amendment to Form U-3A-2, the statement filed annually by holding companies claiming exemptions under rule 2, that would request information necessary to determine whether a rule 2 claim of exemption by an intrastate holding company was meritorious in light of the requirement added to rule 2. These proposals could significantly increase regulatory compliance costs for those intrastate public utility holding companies that have diversified operations, or that intend to do so. The proposals could require such a company to forego acquisition of an unrelated (con't)

Legal Authority: 15 USC 78w; 15 USC 78c; 15 USC 78j; 15 USC 78o

CFR Citation: 17 CFR 240.15c2-6

Abstract: Rule 15c2-6 is the Commission's response to the widespread incidence of misconduct by some broker-dealers in connection with transactions in equity securities that are not traded on an exchange or NASDAQ, and whose issuers do not meet certain financial standards. The Commission has initiated a number of enforcement actions against such broker-dealers, yet the misconduct has continued. Consequently, the Commission believes that additional regulatory action is necessary to deal more effectively with the problem. Rule 15c2-6 requires broker-dealers who recommend purchases of such securities to obtain written customer agreement to, and make a documented suitability determination for, the purchase. Benefits of the rule include increased investor confidence in covered securities, thereby enhancing broker-dealer activities in the securities, and the capital raising function of their issuers.
